ABOUT THE FUND

Baroda BNP Paribas Aqua Fund of Fund

- Baroda BNP Paribas Aqua Fund of Fund is an open ended Fund of Fund scheme investing in BNP Paribas Funds Aqua (Lux).
- The primary investment objective of the Scheme is to seek capital appreciation by investing predominantly in units of BNP Paribas Funds Aqua (Lux). However, there can be no assurance that the investment objectives of the Scheme will be realized. The Scheme does not guarantee / indicate any returns.
- The Scheme may also invest a certain portion of its corpus in Money Market Instruments and/or money market/overnight/liquid schemes of Baroda BNP Paribas Mutual Fund, in order to meet liquidity requirements from time to time.

BNP Paribas Funds Aqua (Lux) - Underlying Fund

- BNP Paribas Funds Aqua (Lux) is a Subfund of the SICAV BNP PARIBAS FUNDS. This thematic sub-fund aims to invest in companies within the global water value chain. These companies support the protection and efficient use of water as a natural resource.
- The Underlying Fund seeks to increase the value of its assets over the medium term by investing in shares issued by companies which conduct their business in water and/or related sectors and which are chosen given the quality of their financial structure and/or potential for earnings growth.
- The portfolio is largely aligned to UN SDG (United Nations Sustainable Development Goals) objectives, which have an aim to improve infrastructure, responsible consumption and access to water sanitation.
- Investment proposition* of the Underlying Fund:

Portfolio challenge

The world's water resources are under considerable strain,

- An increasing gap between the supply and demand of water.
- Rising concerns about water quality
- The stability of water infrastructure globally.

Portfolio opportunity

- Invests in –
- profitable companies growing faster than the broader market due to rising demand for environmental products and services.

Portfolio value

The transition towards a more sustainable global economy should lead to-

- Out-performance for well-positioned companies.
- Diversified across the water value chain with exposure to both defensive and cyclical stocks.

*Source: Impax Asset Management. Currently, Impax Asset Management Limited is the delegated investment manager for BNP Paribas Funds Aqua (Lux). Investors are requested to note that the BNP Paribas Asset Management Luxembourg reserves the right to delegate the investment management responsibilities of the Underlying Fund.

The performance of such companies should not be construed as performance of the Underlying Fund and in turn performance of the Scheme as the Underlying Fund's portfolio would be constituted of number of stocks from different sectors having different weights and the individual stock may or may not give positive returns. BNP Paribas Asset Management India Private Limited/BNP Paribas Mutual Fund is not guaranteeing or promising or forecasting any return.

Investors are requested to note that they will be bearing the recurring expenses of the fund of funds scheme, in addition to the expenses of Underlying Fund in which the fund of funds scheme makes investments.

PORTFOLIO POSITIONING

- After a challenging 2022 the global equity market witnessed a strong start of the year supported by falling inflation figures that brought hopes of a potential end to the global monetary tightening cycle.
- The Silicon Valley Bank (SVB) fallout and the subsequent emergency takeover of Credit Suisse by UBS also affected investors' risk appetite.
- The reversal of previous inflationary pressures, due to lower energy prices and the easing of the supply chain's disruptions, is expected to bring some margin relief for businesses, particularly those whose business models afford pricing power. At the same time, companies have been actively implementing price increases, which combined with an overall weakened consumer's purchasing power, may have negative consequences on volumes and revenues.
- These diverging dynamics are closely monitored by the investment team, as they affect the strategy's holdings in diverse ways. Moreover, Impax deliberately invests across the whole water value chain to dampen the impact arising from the economic cycle as well as the volatility derived from inflation's peaks and troughs.
