BARODA BNP PARIBAS

NIFTY 50 INDEX FUND

## Introduction to Passive Investing

Passive investing, often known as index investing, is a long-term investment approach that aims to track a specific underlying market index. The index can range from a broad market index such as the Nifty 50 or the Sensex to a sector-specific index such as the Nifty Bank. Passive investing has shown a 6x AUM growth in India in the last 5 years, particularly since the pandemic.

## Advantages of Passive Investing

-  **Easy:**  
Easy to understand investment strategy: Tracking or replicating a pre-specified benchmark/index as closely as possible.
-  **Efficient:**  
Efficient Investment: Portfolio reflecting the collective wisdom of the market with index performance subject to tracking error and expenses.
-  **Economical:**  
Economical: Generally lower expense ratio than a traditional mutual fund due to no fund manager involvement in investment decision.
-  **Rule based investing:**  
Index: A rule-based portfolio with stock/company selection based on pre-defined rules and free from any individual biases.
