Retirement Planning: How much and why to Save?

Determine your retirement age and life expectancy

Life expectancy estimates based on hereditary and medical history. Look at both aspirational as well as practical retirement age.

Determine monthly expenses

While some expenses like commuting, etc. may go down, expenses like medical may go up. Consider inflation to determine post retirement expenses.

Determine your retirement corpus

Your retirement corpus should be enough to last you a lifetime. Don't forget to add uncertainty premium to prepare for life's mishaps. Don't forget, inflation does not retire.

Determine the monthly investment

Determine the monthly investment required today to reach your retirement goal.
