## INDEPENDENT AUDITOR'S REPORT

To the Trustees of  
Baroda BNP Paribas Mutual Fund

Report on the Audit of the Financial Statements

### Opinion

We have audited the accompanying financial statements of the schemes mentioned below (collectively 'the Schemes'), which comprise the Balance Sheets as at 31 March 2025, the Revenue Accounts, the Cash Flow Statements and the Statements of changes in net asset attributable to unit holders of the Schemes for the year/period then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

| Sr. No. | Name of the Schemes                |
|---------|------------------------------------|
| 1       | Baroda BNP Paribas Gold ETF        |
| 2       | Baroda BNP Paribas Nifty Bank ETF^ |

^Scheme launched during the year and hence the Revenue Account, Cash Flow Statement and Statement of Changes in Net Asset attributable to Unitholders of the Schemes prepared for the period beginning the launch date of the Scheme to 31 March 2025.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements of the Scheme give a true and fair view in conformity with the accounting principles generally accepted in India, including the accounting policies and standards specified in the Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and amendments thereto ('the SEBI Regulations'):

- (a) in the case of Balance Sheets, of the state of affairs of the Scheme as at 31 March 2025;
- (b) in the case of the Revenue Accounts, of the surplus/deficit for the year/period, as applicable, ended on that date;
- (c) in the case of the Cash Flow Statements, of the cash flows for the year/period, as applicable, ended on that date; and
- (d) in the case of Statements of changes in net asset, of the changes in net asset attributable to the unit holders of the Schemes for the year/period, as applicable, ended on that date.

### Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India ("the ICAI"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Scheme in accordance with the 'Code of Ethics' issued by the ICAI together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

## Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial period ended 31 March 2025. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

| Key audit matters                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | How our audit addressed the key audit matter                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| <b>Information Technology systems and controls</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <p>As a Mutual Fund, the reliability of Information Technology ('IT') systems plays a key role in the business operations. Since large volume of transactions are processed, the IT controls are required to ensure that systems process data as expected and that changes are made in an appropriate manner.</p> <p>The IT infrastructure is critical for smooth functioning of the Fund's business operations as well as for timely and accurate financial accounting and reporting.</p> <p>Due to the pervasive nature and complexity of the IT environment and large volume of transactions we have considered IT systems and controls as a key audit matter.</p> | <p>Our audit procedures on the IT infrastructure and applications relevant to financial reporting of the Fund included the following:</p> <ul style="list-style-type: none"> <li>• We assessed the information systems used by the Fund for: (i) IT General Controls (ITGC) and (ii) Application controls;</li> <li>• We obtained an understanding of the process, evaluated the design of IT systems and tested the operating effectiveness of the controls by also engaging IT specialists</li> <li>• performed tests of controls (including other compensatory controls wherever applicable) on the IT application controls and IT dependent manual controls in the system; and</li> <li>• tested the design and operating effectiveness of compensating controls in case deficiencies were identified, and where necessary, extended the scope of our substantive audit procedures.</li> </ul> |
| <b>Existence and Valuation of investments (as described in note 3.3 and note 8 of the financial statements)</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <p>The investments held by the Schemes as at 31 March 2025 mainly comprised of gold bullion in Baroda BNP Paribas Gold ETF and listed equity shares in Baroda BNP Paribas Nifty Bank ETF.</p> <p>There is a risk on existence of investments and that the fair value of investments not determined appropriately. Accordingly, the existence and valuation of investments is considered as a key audit matter.</p>                                                                                                                                                                                                                                                    | <p>Our audit procedures in relation to existence and valuation of investments included the following:</p> <ul style="list-style-type: none"> <li>• assessed the design and implementation of controls over existence and valuation of investments;</li> <li>• on a sample basis, tested the key controls on existence and valuation of Investments;</li> <li>• traced the existence of investments held by the Scheme from the confirmation provided by the Custodian with the holding as per the books of account as at 31 March 2025;</li> <li>• On a sample basis, tested the valuation of investments as per the investment valuation policy and in accordance with the SEBI Regulations; and</li> <li>• Assessed that the disclosures in the financial statements are in accordance with the SEBI Regulations.</li> </ul>                                                                     |

## Information Other than the Financial Statements and Auditor's Report Thereon

The Board of Directors of Baroda BNP Paribas Asset Management India Private Limited (the "AMC") and Baroda BNP Paribas Trustee India Private Limited (the "Trustees") are responsible for the other information. The other information comprises the information included in the Trustee report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of management and Those Charged with Governance for the Financial Statements

The Board of Directors of the AMC and Trustees are responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance, cash flows and changes in net asset attributable to the unit holders of the Scheme in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS), read with SEBI Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the SEBI regulations for safeguarding of the assets of the Scheme and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent, the design, implementation and maintenance of adequate internal controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Schemes' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Scheme or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are also responsible for overseeing the Schemes' financial reporting process.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit

evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Schemes' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause any Scheme to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the management, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provided the management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year/period ended 31 March 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements

1. As required by Regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - b. In our opinion, the balance sheets and revenue accounts dealt by this report have been prepared in conformity with the accounting policies and standards specified in the Ninth Schedule to the Regulations; and
  - c. The balance sheets, revenue accounts, the cash flow statements and statement of changes in net asset attributable to unit holders of Scheme dealt with by this report are in agreement with the books of account of the Scheme.

| Baroda BNP Paribas NIFTY BANK ETF | An open ended scheme replicating / tracking the Nifty Bank Total Returns Index | The investment objective of the scheme is to provide investment returns closely corresponding to the total returns of the securities as represented by the Nifty Bank Total Returns Index before expenses, subject to tracking errors, fees and expenses.<br>However, there is no assurance that the objective of the Scheme will be realized, and the Scheme does not assure or guarantee any returns. | June 18, 2024     | Baroda BNP Paribas NIFTY BANK ETF |

2 Basis of preparation and presentation

2.1 Statement of compliance

The financial statements of the Fund have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time and Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 including guidelines issued thereunder, as amended from time to time ("the SEBI MF Regulations"). In case of any conflict between the requirements of Ind and SEBI MF Regulations, the requirements specified under SEBI MF Regulations are applied.

2.2 Presentation of financial statements

These financial statements of the Fund are presented in the format prescribed in SEBI circular no "SEBI/HO/MD-II/DOF8/P/CIR/2022/12 " dated February 04, 2022. The disclosures as required under Ind AS, as applicable to the Fund, are included in these financial statements.

The Fund has prepared the financial statements on the basis that it will continue to operate as a going concern.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Fund and/or its counterparties

The Fund presents its balance sheet in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note.

2.3 Functional and presentational currency

Item included in the Financial Statement of the Fund are measured using the currency of the primary economic environment in which the Fund operates ("the functional currency"). The Financial Statements are presented in Indian rupee (INR), which is Fund's functional and presentation currency, and all values are rounded to the nearest lakhs (INR 00,000), except when otherwise indicated.

2.4 Basis of Measurement

The financial statements have been prepared under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair value through Profit and Loss at the end of each reporting period , as explained below.

All assets and Liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the degree to which the inputs to the fair value measurements are observable and the significance of the fair value measurement in its entirety:

- Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 - Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instruments nor are they based on available market data.

2.5 Significant accounting judgments, estimates and assumptions

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and accompanying disclosures (including contingent liabilities) at the date of the financial statements and the reported amounts of revenues and expenses for the reporting period. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of financial statements. Actual results could differ from these estimates. Any revisions to accounting estimates are recognized prospectively in the current and future periods.

Estimates and underlying assumptions are reviewed on an ongoing basis. Key sources of estimation of uncertainty at the date of financial statements, which may cause a material adjustment to the carrying amount of assets and liabilities within the next financial year are included in the following notes:

a. Fair value measurement

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See note 31 for more information on the fair value measurement of the Fund's financial statements

3 Summary of material accounting policies

3.1 Income recognition

Interest is recognised on a time-proportionate basis.

Dividend income is recognised on the ex-dividend date when right to dividend is established.

Profit or loss on sale/redemption of investments is determined on the basis of the weighted average cost method. Transactions for purchase or sale of investments are recognised as of the trade date.

3.2 Financial instruments

Initial recognition and measurement of financial assets and financial liabilities

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

All financial assets and financial liabilities are recognised initially at fair value when the fund become party to the contractual provisions of the financial asset. In case of financial assets which are not recorded at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial assets, are adjusted to the fair value on initial recognition.

The Fund's financial assets includes Investments, Derivative contracts, Receivables, Cash and cash equivalents, Bank balances other than cash and cash equivalents and other financial assets.

Purchase and sale of investments are recorded on the date of the transaction, at cost and sale price respectively, after excluding brokerage, commission, CCIL charges and fees payable or receivable, if any and stamp duty charges in case of investment in mutual fund units.

Classification and subsequent measurement of Financial assets and financial liabilities

Evaluation of Business Model - Classification and measurement of financial assets depends on the results of business model and the solely payments of principal and interest ("SPPI") test.

As per clause 47 of the SEBI Regulations, every mutual fund shall ensure that the AMC computes and carries out valuation of investments made by its fund in accordance with the investment valuation norms specified in Eighth Schedule. As per Eighth Schedule, the valuation of investments shall be based on the principles of fair valuation i.e. valuation shall be reflective of the realizable value of the Securities. The Valuation shall be done in good faith and in true and fair manner through appropriate valuation policies and procedures.

The Fund's portfolio of financial assets is managed, and its performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy, together with other related financial information.

The Fund is required to fair value investment as per SEBI Regulations. Hence, the Fund has not performed the SPPI Test.

Investments at fair value through profit or loss (FVTPL)

All investments are measured at FVTPL. Investments at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognized in the Revenue account. The gain recognized in the Revenue account is included in the 'Gain on Fair Value Change' line item and in case of loss recognized in the Revenue account is included in the 'Loss on Fair Value Change' line item.

**Financial liabilities**

Derivative contracts that have a negative fair value are presented as liabilities at FVTPL. Interest expense and foreign exchange gains and losses are recognised in the Revenue account.

**Financial instruments not measured at fair value**

The carrying value less expected credit loss provision of other financial assets and other financial liabilities are assumed to approximate their fair values due to their short-term nature.

**De-recognition**

The fund derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the fund neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the fund enters into transactions whereby it transfers assets recognised on its Balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised. The Scheme derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

**3.3 Valuation of investments**

All investments are valued based on the principles of fair valuation and have been valued in good faith in a true and fair manner through appropriate valuation policies and procedures.

**Equity and related securities**

All traded investments are valued at the last quoted closing price on the National Stock Exchange Limited (NSE)/BSE Limited (BSE) or other stock exchange, where such security is listed. If not traded on the primary stock exchange, the closing price on the other stock exchange is considered. NSE is the primary stock exchange.

When a security is not traded on any stock exchange, on the date of valuation, then the previous closing price on NSE/BSE or any other Stock Exchange is used, provided such closing price is not exceeding a period of 30 calendar days.

When trading in an equity/equity related security in a calendar month is both less than INR 5 lacs and the total volume is less than 50,000 shares, it shall be considered as a thinly traded security.

All non-traded and thinly traded equity investments are valued in accordance with the norms prescribed in the SEBI guidelines for valuation, i.e., valuation is computed on the basis of average of book value and the price computed on the basis of the PE ratio (after appropriate discount for lower liquidity ), and using the last traded price if available.

All non-traded convertible preference share investments are valued based on underlying equity, discounted for illiquidity, if required as decided by the Valuation Committee. Redeemable Preference Shares are valued by discounting the future cash flows based on discounting rate decided by the Valuation Committee.

All equity warrants/rights entitlement/partly paid up rights shares are valued after applying appropriate discount, after reducing the exercise price/issuance price from the closing price of the underlying equity security.

Futures and Options are valued at settlement price on the stock exchange on which they are traded.

**Foreign Securities**

The prices of securities which are denominated in foreign currencies (i.e. ADR/GDR/Offshore securities) are priced at the closing price in the respective principal stock exchange.

The price is converted into INR. Conversion is done using the Financial Benchmarks India Private Limited ("FBIL") reference rates published on the respective date. Incase of Investment in forein currencies asset apart from the rates published in FBIL

Conversion is done using the Bid rate of foreign currency INR exchange rate available on Reuters at 5.00 p.m. Indian Standard Time ("IST")

**Debt, Money Market and related securities**

All traded and non-traded investments are valued at average of scrip level prices provided by CRISIL & ICRA LTD for individual securities.

All non-traded bonus debentures are valued at cost till receipt of scrip level valuations from CRISIL & ICRA LTD

Pursuant to SEBI circular Nos. SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019 and SEBI/HO/IMD/DF3/CIR/P/2020/76 dated April 30, 2020, following valuation practice has come into effect from June 30, 2020 All debt, money market and related securities irrespective of residual maturity are valued at average of scrip level prices provided by CRISIL & ICRA LTD for individual securities. If security level price for new security purchased (primary allotment or secondary market) is not available from Valuation Agencies, the valuation of such securities shall be done at the weighted average yield of all the purchases made by Baroda BNP Paribas Mutual Fund from the day of allotment/purchase

**Government Securities/Treasury Bills/Cash Management Bills**

Central Government and State Government loans and Treasury bills are valued based on the aggregated prices provided by CRISIL & ICRA.

**TREPS and Reverse Repo**

TREPS & Reverse Repos with residual tenor upto 30 days are valued on Cost plus Accrual Interest and with residual tenor of greater than 30 days are valued as per aggregated prices provided by CRISIL & ICRA.

**Mutual Funds**

Mutual funds units are valued at the last published NAV as per AMFI website for non traded funds and as per the last quoted closing price on the National Stock Exchange Limited (NSE)/BSE Limited (BSE) for listed and traded funds, on the valuation day. NSE is the primary stock exchange. If market prices are not available for traded funds on a particular valuation day, the last available NAV as per AMFI website is considered for valuation.

**Impairment of financial assets**

In accordance with Ind AS 109, the Fund uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- i) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- ii) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For receivables, the Fund applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Fund uses historical default rates to determine impairment loss on the portfolio of receivables. At every reporting date, these historical default rates are reviewed and changes in the forward-looking estimates are analysed.

For other assets, the Fund uses 12-month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

**3.4 Offsetting financial instruments**

Financial assets and Financial liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Fund or the counterparty.

**3.5 Foreign currency transactions and balances**

Transactions in foreign currencies are initially recorded in the functional currency at the spot rate of ex-change ruling at the date of the transaction. However, for practical reasons, the Fund uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot rate of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are taken to Gain/(Loss) in Foregn currency transactions in revenue account.

**3.6 Equalisation account**

When units are issued or redeemed, the distributable surplus (excluding unit premium reserve, but including balance of distributable surplus at the beginning of the year) as on the date of the transaction is determined. Based on the number of units outstanding on the transaction date, the distributable surplus (excluding unit premium reserve, but including balance of distributable surplus at the beginning of the year) associated with each unit is computed. The per unit amount so determined is credited / debited to the equalisation account on issue / redemption of each unit respectively.

The balance in equalisation account is transferred to revenue account at the year-end without affecting the net income of the Scheme.

**3.7 Determination of net asset value**

The net asset value of the units of the Scheme is determined separately for the units issued under the options.

For reporting the net asset values within the portfolio, the Scheme's daily income earned, including realised profit or loss and unrealised gain or loss in the value of investments, and expenses accrued, are allocated to the related plans in proportion to their respective daily net assets arrived at by multiplying day end outstanding units to previous day's closing net asset value.

**3.8 Unit capital**

Unit capital represents the net outstanding units at the balance sheet date, thereby reflecting all transactions relating to the period ended on that date.

Upon issue and redemption of units, the net premium or discount to the face value of units is adjusted against the unit premium reserve of each option, after an appropriate portion of the issue proceeds and redemption payouts is credited/debited to the equalisation account.

**3.9 Taxes**

No income tax provision has been made as the Fund qualifies as a recognized Mutual Fund under section 10(23D) of the Income Tax Act, 1961.

**3.10 Expenses**

- a. All expenses are accounted for on accrual basis.
- b. New Fund offer (NFO) expenses: New Fund offer expenses for the Schemes are borne by the AMC.
- c. Pursuant to SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2018/137 dated October 22, 2018, all the Scheme related expenses including commission paid to distributors, by whatever name called and in whatever manner paid, are borne and paid by the Schemes within regulatory limits mandated under regulation 52 of the SEBI (MUTUAL FUNDS) REGULATIONS, 1996.
- d. Accrual of expenses, in addition to TER, for distribution expenses incurred for bringing in inflows from beyond top 30 cities (as notified by Association of Mutual Funds of India (AMFI)) is accrued in accordance with regulation 52(6A). Accrual of additon to TER is discontinued on 01st March 2023.
- e. As per the SEBI circular, the schemes have been charged 0.02% per annum towards Investor Education Fund on daily net assets within the maximum SEBI TER limits as per Regulation 52 of SEBI (Mutual Fund) Regulations.
- f. Additional amount towards expenses specified in the said Regulation 52 not exceeding 0.05% of the daily net assets of the Scheme wherever exit load has been charged to the schemes.
- g. GST on Investment Management and Advisory Fees is charged over and above the cumulative limits as specified above.
- h. The cost of borrowing for meeting redemptions have been charged to schemes not exceeding the portfolio return of the borrowing scheme and balance, if any, have been borne by the AMC. With effect from March 23, 2018, as per AMFI best practice guideline circular, cost of borrowing in the schemes of Baroda BNP Paribas Mutual Fund has been charged to the Scheme to the extent of yield to maturity (YTM) / running yield of the Fund as on the previous day and excess, if any, have been borne by the AMC.

**3.11 Cash and cash equivalents**

Cash and cash equivalents in the balance sheet comprise of cash on hand and Tri-Party Repo (including reverse purchase transactions). For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes Cash on hand, balances with banks in current accounts, deposits placed with scheduled banks (with an original maturity of upto three months) and Tri-Party Repo (including reverse purchase transactions) that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**3.12 Statement of cash flows**

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of non-cash future, any deferrals or accruals of past or future operating cash receipts or payments and item of expenses associated with investing or financing cash flows. The cash flows from operating and financing activities of the Fund are segregated.

**3.13 New standards and interpretations not yet adopted**

There are no standards that are notified and not yet adopted as on the date.

24 MANAGEMENT FEE AND TRUSTEESHIP FEE

The Scheme pays fees for investment management services (excluding goods & services tax) under an agreement with the AMC, which provides for computation of such fee as a percentage of the Scheme's average daily net assets, after excluding the net asset value of the investments by the AMC in the scheme and net asset value of investment made in other schemes, if any.

32 SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The CODM's function is to allocate the resources of the Fund and assess the performance of the operating segments of the Fund.

The Scheme operates only in one segment i.e. to primarily generate returns, based on Schemes' Investment Objectives and there is no separate reportable segment. All assets of the Fund are domiciled in India. There are no customers contributing in excess of 10% of the total revenue of the Fund.

|              | Total                                       | 3,920.00          | 3,902.06           | 271.98                                   |

During FY 2021-22, Piramal group has acquired DHFL and the Scheme has received the Rs. 86,368,106 in cash and Rs. 103,903,000 in non-convertible debentures of Piramal group entity against the investments held in DHFL. Accordingly, net realized loss of Rs. 199,935,059 has been recorded in the books of accounts. Further accrued income as of date of default was also provided for as of March 31,2022.

During FY 2024-25, Rs. 32,76,339/- were distributed by DHFL w.r.t these securities and the same was booked as income in Baroda BNP Paribas Credit Risk Fund (erstwhile Baroda Credit Risk Fund)

B) Note on Yes bank

Baroda BNP Paribas Mutual Fund, through its various schemes had invested in the Perpetual BASEL III compliant Additional Tier I bond of Yes Bank Ltd. (Yes Bank) in 2017.

On March 06, 2020, the Perpetual Bonds of Yes Bank Ltd were downgraded by ICRA to 'D' category. This rating action was on account of the moratorium placed on the bank by the central government, whereby the bank’s payments to its depositors and creditors was restricted. The RBI had announced the draft restricting plan for Yes Bank on March 6, 2020, which was followed up by the Government announcing Yes Bank Limited Reconstruction Scheme, 2020 on March 13, 2020. As part of this scheme, the perpetual bonds were written down.

Consequent to the rating action as above, the value of holding in Perpetual Bonds of Yes Bank was written down to zero, along with the accumulated interest. Segregated portfolio was created with respect to holding in Baroda BNP Paribas Medium Duration Fund (Erstwhile scheme Baroda Treasury Advantage Fund merged with Baroda BNP Medium Duration Fund) and Baroda BNP Paribas Credit Risk Fund (Erstwhile known as Baroda Credit Risk Fund). Details of the segregated portfolio are given in note number 36A.

The Debenture Trustee filed a writ petition 850/2020 on behalf of the bondholders in High Court Mumbai on March 16, 2020. The existing interim order of the Hon’ble Court passed on 16th March 2020 “any action or steps taken by the respondents shall be subject to further orders passed by the Court” read with order dated 18th March 2020 “the earlier order passed stating all steps taken by the respondents will be subject to the further orders passed by this Court” continues to be in operation until any further order is passed by the Court.

The exposure in other schemes as at March 31, 2025 is as follows:

| Scheme Name                                | ISIN         | Security Name                                                                 | Face Value        | Cost of investment | Fair Value        | Accrued Income    | Provision for Doubtful accrued income |

Below proposed note for the financials:

Baroda BNP Mutual Fund has unidentified unclaimed dividend and redemption amounts of Rs.2.49 Crores as of March 31, 2025 (Rs.2.49 Crores as of March 31, 2024). As represented by the management, these amount are not recorded in the schemes financial statements as it pertains to unidentified investors prior to March 31, 2008. Had this amount been identified, it would have been recorded as asset and liability in the respective schemes resulting in no impact in net asset value. Further, there is unidentified unclaimed refund amount of Rs. 0.63 crores as of March 31, 2025 (Rs. 0.58 crores as on March 31, 2024). Had the schemes for these amounts been identified, it would have been recorded as asset and liability in the respective schemes resulting in no impact in net asset value.

**BARODA BNP PARIBAS MUTUAL FUND**

**Annexure VI**

Payment of bank charges  
(All amount in lakhs, unless otherwise stated)

**39 FAIR VALUE MEASUREMENT**

The Scheme measures its financial assets and financial liabilities at fair value at each reporting date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability.

**Valuation Techniques and Classification:**

| Asset Type                                                                                                                                                        | Source of Pricing                                                                                             | Classification |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|----------------|
| Equity and related securities                                                                                                                                     |                                                                                                               |                |
| -Listed                                                                                                                                                           | Last quoted closing price on the Stock Exchange                                                               | Level 1        |
| -Unlisted                                                                                                                                                         | valued in accordance with the Valuation policy and the fair valuation norms prescribed in the SEBI guidelines | Level 3        |
| Futures                                                                                                                                                           | Closing price on the stock exchange                                                                           | Level 1        |

| Mutual Fund Units                                                                                                                                                 | NAV published on AMFI                                                                                         | Level 1        |

Debt & Money Market Instruments are valued at average of scrip level prices provided by CRISIL & ICRA LTD for individual securities. If security level price for new security purchased (primary allotment or secondary market) is not available from Valuation Agencies, the valuation of such securities shall be done at the weighted average yield of all the purchases made by Mutual Fund from the day of allotment/purchase.

**Refer Table 1** for financial instruments recognised at fair value as at 31 March 2025, 31 March 2024:

For all other financial assets and liabilities, the carrying value is an approximation of fair value, including: cash and cash equivalents; balances with banks; receivables and other financial assets; payables and other financial liabilities. Accordingly, fair value hierarchy for these financial instruments have not been presented above.

There have been no transfers between Level 1, Level 2 and Level 3 for the year ended 31 March 2025 and 31 March 2024.

During the year ended March 31, 2025 and March 31, 2024 the Scheme holds Level 3 securities. **Refer Table 2.** The level 3 securities are INVIT units and unlisted equity securities which are valued as per their price approved by Valuation committee.

**40 FINANCIAL RISK MANAGEMENT**

The Fund’s activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk.

The Fund’s AMC has overall responsibility for the establishment and oversight of the Fund’s risk management framework. The Fund’s risk management policies are established to identify and analyse the risks faced by the Fund, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Fund’s activities. The Fund’s Trustees periodically monitors compliance with the Fund’s risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Fund which are summarised below.

The Fund uses different methods to measure and manage the various types of risk to which it is exposed; these methods are explained below.

**I) Market Risks**

Market risk is the risk of losses on financial investments caused by adverse price movements. Examples of market risk are: changes in equity prices or commodity prices, interest rate moves or foreign exchange fluctuations.. The Fund is exposed to market risk primarily related to Price risk, Foreign currency risk, and Interest rate risk.

**(a) Price Risks**

Price risk is the risk that the fair value of the future cashflows of the financial instrument will fluctuate as a result of changes in market prices and related market variables whether caused by factors specific to an individual investment, its issuer or the market.

The Fund’s exposure to price risk arises from investments in Equity & related instruments, REIT & INVIT, Physical commodities, Mutual fund units and any other financial instruments which are classified as financial assets at Fair Value through Profit and Loss. Refer **Table 3 for Schemes exposure to price risk.**

**Refer Table 4** for The industry wise concentrations of the Scheme’s Equity Instruments as at March 31, 2025.

There were no significant concentrations in the debt and money market securities portfolio of credit risk to any individual issuer or group of issuers at March 31, 2025 or March 31, 2024.

The Manager mitigates the risk through the use of investment strategies that seek to minimise the Fund's tracking error as compared to market indices with the parameters of investment strategy. The maximum exposure resulting from investment in financial instrument is its fair value. The table below summarises the sensitivity of the Fund's net assets attributable to holders of redeemable units to price movements: **please refer Table 3.**

**(b) Foreign exchange risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises from recognised financial assets and liabilities denominated in a currency that is not its functional currency (Indian Rupees). The Fund is exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in exchange rates.

The effect on the net assets attributable to the unit holders of a reasonably possible weakening of the INR against the USD by 1% is given in Table 5. The analysis assumes that all other variables remain constant. A strengthening of the INR against the USD would have resulted in an equal but opposite effect to the amounts shown in the aforesaid **Table 5.**

**(c) Interest rate risk**

Interest rate risk is the probability of a decline in the value of an asset resulting from unexpected fluctuations in interest rates. Interest rate risk is mostly associated with fixed-income assets (e.g., bonds) rather than with equity investments. The interest rate is one of the primary drivers of a bond’s price. The Fund manager regularly assesses the economic condition, monitor changes in interest rates outlook and take appropriate measures accordingly to control the impact of interest rate risk.

The majority of the Fund’s financial assets are Corporate Bond, Certificates of deposit, Commercial paper, Securitised Assets, Alternative Investment Fund, State Government Securities and Central Government Securities, which are interest bearing.

As at March 31, 2025, if prevailing interest rates had risen or declined by 1%, assuming a parallel shift in the yield curve with all other variables held constant. **Refer Table 6** for the impact on Scheme’s net assets due to decrease or increase in interest rates. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

The following table analyses the Fund’s interest rate risk exposure. The Fund’s assets and liabilities are included at their carrying amount and categorised by the earlier of contractual re-pricing or maturity dates: **please refer table 7**

**ii) Credit risk**

Credit risk is the risk that the Fund will incur a loss because its counterparties fail to discharge their contractual obligations. The Fund is exposed to the risk of credit-related losses that can occur as a result of a counterparty or issuer being unable or unwilling to honour its contractual obligations.

Government Security is a sovereign security and the default risk is considered to be the least/zero. Corporate bonds carry a higher credit risk than Government Securities. Within corporate bonds also there are different levels of safety. Credit risks of most issuers of debt securities are rated by independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from “AAA” (read as “Triple A” denoting “Highest Safety”) to “D” (denoting “Default”), with about 6 distinct ratings between the two extremes. A bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

The AMC’s policy is to closely monitor the creditworthiness of the Fund’s counterparties by reviewing their credit ratings, financial statements and press releases on a regular basis.

**BARODA BNP PARIBAS MUTUAL FUND****Notes to Financial Statements for the year ended March 31, 2025****(All amount in lakhs, unless otherwise stated)****i. Credit quality analysis****Cash and cash equivalents**

The cash and cash equivalents are held with bank. Reverse Repo in Corporate Bond, Reverse Repo in Government Securities and Tri Party Repo (TREPS).

Reverse Repo in Government Securities and Tri Party Repo (TREPS) has zero credit risk as transactions in these securities are executed on CCIL platform with guaranteed settlement.

The Scheme's exposure to credit risk arises in respect of the following financial instruments:

- Contract for sale of investment in securities and Derivative financial instruments receivable and
- Investments in debt and money market securities.

**Contract for sale of investment in securities and Derivative financial instruments receivable**

Contract for sale of investment in securities and Derivative financial instruments receivable represent margin accounts and sales transactions awaiting settlement. Credit risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used. All Contract for sale of investment as on reporting period are settled subsequently.

**Investments in debt and money market securities**

**Refer Table 8** for Rating wise exposures of the Scheme's debt and money market instruments as at March 31, 2025. The ratings are provided by rating agencies.

**ii. Concentration of credit risk**

The AMC reviews the credit concentration of debt and money market securities held based on issuers and industries.

**Refer Table 9** for The industry wise concentrations of the Scheme's debt and money market instruments as at March 31, 2025

There were no significant concentrations in the debt and money market securities portfolio of credit risk to any individual issuer or group of issuers at March 31, 2025 or March 31, 2024.

**iii. Collateral and other credit enhancements, and their financial effect**

For the purposes of measuring expected credit losses, the estimate of expected cash shortfalls shall reflect the cash flows expected from collateral and other credit enhancements that are part of the contractual terms and are not recognised separately by the entity. The estimate of expected cash shortfalls on a collateralised financial instrument reflects the amount and timing of cash flows that are expected from foreclosure on the collateral less the costs of obtaining and selling the collateral, irrespective of whether foreclosure is probable (ie the estimate of expected cash flows considers the probability of a foreclosure and the cash flows that would result from it). Consequently, any cash flows that are expected from the realisation of the collateral beyond the contractual maturity of the contract should be included in this analysis. Any collateral obtained as a result of foreclosure is not recognised as an asset that is separate from the collateralised financial instrument unless it meets the relevant recognition criteria for an asset in this or other Standards.

**Derivatives**

The Table 10 shows an analysis of derivative assets and derivative liabilities outstanding as at March 31, 2025 and March 31, 2024:-

**iv. Expected Credit Loss principles**

For purposes of impairment assessment, the Funds' assets which are measured at amortised cost are considered to have low credit risk as they are not due for payment at the end of the reporting period and there has been no significant increase in the risk of default on the receivables since initial recognition. Accordingly, for the purpose of impairment assessment for these receivables, the loss allowance is measured at an amount equal to 12-month expected credit losses ("ECL"). The ECL for these assets as at the end of the reporting period is not significant.

The main concentration of credit risk to which the Fund is exposed arises from the Fund's investments in Corporate Bond, Certificates of deposit, Commercial paper. These classes of financial assets are not subject to IND AS 109's impairment requirements as they are measured at FVTPL. Hence, no separate maximum exposure to credit risk disclosure is provided for these instruments.

**iii) Liquidity risks**

Liquidity risk is the risk that the Fund will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Fund's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation.

The responsibility for liquidity risk management rests with the AMC and the Trustees, who has established an appropriate liquidity risk management framework for the management of the Fund's short-term, medium-term and long-term funding and liquidity management requirements. The Fund manages liquidity risk by maintaining adequate reserves, banking facilities and by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The analysis of assets and liabilities analysed according to their maturity profile as at March 31, 2025 is same as given in **Table 11**.

**Refer Table 12** for The liquidity analysis of financial liabilities of the Fund based on contractually agreed undiscounted cash flows as at March 31, 2025

For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settlement - e.g. interest rate swaps.

**41 OFFSETTING FINANCIAL ASSETS AND FINANCIAL LIABILITIES**

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. The Scheme has not offset any financial assets and financial liabilities during the year.

**42** At the behest of the Audit Committee and the Board of the AMC, a fact-finding exercise on some matters of concern related to operational conduct and governance was carried out by an independent agency. The report of the said agency has highlighted specific operational gaps i.e. not following laid down procedures and practices in certain functions. Management under the oversight of the Audit Committee and the Board of the AMC is taking necessary corrective steps including strengthening internal control processes. The fact-finding exercise does not have any impact on the reported numbers in the financial statements of the Schemes.

**Note 1 :-**  
The sensitivity of a Fund (usually equity) with regards to the Benchmark / Market Movements can be ascertained by the Scheme Beta. The scheme's Beta refers to co-variance of NAV vs. Index returns/variance of index returns. The Beta of the benchmark is usually 1, whereas the Scheme Beta can be greater than 1 or less than 1.

A beta of less than 1 denotes that the scheme is less sensitive to price risk as compared to the benchmark, whereas a beta of more than 1 implies greater sensitivity to price movement vis a vis the benchmark. Schemes with higher beta (> 1) tend to be more volatile than schemes with beta lower than 1.

**Note 2:-**  
Sensitivity analysis based on Beta factor is given only for the schemes which has completed 3 years as per the gudielines given in AMFI best practice circular no. 135/ BP/ 61 /2015-16 dated September 14, 2015 on Standardization of Information in Factsheets.

**Note:-**

Fixed Income Schemes are subject to Interest Rate Risk, since changes in yields can impact bond prices. This Interest Rate Risk sensitivity of a fixed income portfolio can be ascertained by looking at the portfolio modified duration.A higher duration implies that such funds are more likely to see Mark To Market (MTM) impact when yield changes take place (Medium Duration, Long Duration fund) and lower duration (like overnight or liquid fund) will be less sensitive to interest rate risk.

**Table 7**  
 The Fund's interest bearing assets and liabilities categorised by  
 the earlier of contractual re-pricing or maturity dates as at March  
 31, 2025  
 (All amount in lakhs, unless otherwise stated)

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**  
**flows as at March 31, 2025**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**  
**flows as at March 31, 2025**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**

The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**

For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**  
**flows as at March 31, 2025**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**  
**flows as at March 31, 2025**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**  
**flows as at March 31, 2025**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**  
**flows as at March 31, 2025**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**  
**flows as at March 31, 2025**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**  
**flows as at March 31, 2025**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**  
**flows as at March 31, 2025**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**  
**flows as at March 31, 2025**

\* Derivative financial instruments on asset side and libilities side of balance sheet both disclosed above

**Note 1:-**  
The table above shows the undiscounted cash flows of the Scheme's financial liabilities on the basis of their earliest possible contractual maturity. The Scheme's expected cash flows on these instruments do not vary significantly from this analysis.

**Note 2:-**  
For derivative financial instruments, the inflow/(outflow) disclosed in the table represents the contractual undiscounted cash flows relating to these instruments. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross settement - e.g. interest rate swaps.

**Table 12**  
**The liquidity analysis of financial liabilities of the Fund**  
**based on contractually agreed undiscounted cash**  
**flows as at March 31, 2025**

**^Concept of Macaulay duration:**

The Macaulay Duration is a measure of a bond's sensitivity to interest rate changes. It is expressed in annual terms. It is the weighted average term to maturity of the cash flows from a bond. The weight of each cash flow is determined by dividing the present value of the cash flow by the price. Factors like a bond's price, maturity, coupon, yield to maturity among others impact the calculation of Macaulay duration.

### Baroda BNP Paribas Low Duration Fund

(An Open ended Low Duration Debt Scheme investing in instruments such that Macaulay duration<sup>^</sup> of portfolio is between 6 months and 12 months. A relatively high interest rate risk and moderate credit risk scheme)
