Investment	The investment strategy of the Scheme is as follows :
Strategy	1. Identifying attractive opportunities on the basis of growth prospects and valuations of the
	businesses over a medium term.
	2. The stock selection will take into consideration fundamentals of the business, marke
	capitalisation, industry structure, quality of management, sensitivity to economic factors
	financial strength of the company and the key earnings drivers.
	<ol><li>The Scheme will invest in a number of companies without any restriction of marke capitalization within the Banking and Financial Services Sector.</li></ol>
	4. Within the Banking & Financial Services Sector, the Scheme will look at a bottom-up stoc
	selection, and bottom-up fundamental research into stocks will be conducted, including
	company meetings, with a view to assessing management quality, competitive positioning and
	growth potential.
Risk Profile of	Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID
the scheme	carefully for details on risk factors before investment.
	Standard Risk Factors
	- Investments in mutual fund units involves investment risks such as market risk, credit & default risk
	liquidity risk, trading volumes, settlement risk, including the possible loss of principal.
	- As the price/ value/ interest rates of the securities in which the scheme invests fluctuate, the value o
	your investment in the scheme may go up or down. The various factors which impact the value of the
	scheme's investments include, but are not limited to, fluctuations in the stock markets, bond markets
	fluctuations in interest rates, prevailing political and economic environment, changes in governmen
	policy, factors specific to the companies and issuer of the securities, tax laws, liquidity of the
	underlying instruments, settlement periods, trading volumes etc. - Past performance of the Sponsor/ AMC/ Mutual Fund does not guarantee future performance of the
	scheme.
	<ul> <li>Baroda BNP Paribas Banking and Financial Services Fund is the name of the scheme and does not in</li> </ul>
	any manner indicate either the quality of the scheme or its future prospects and returns.
	- The sponsor / associates are not responsible or liable for any loss resulting from the operation of the
	scheme beyond the initial contribution of Rs. 10,00,000/- (Rupees Ten lakhs only) to the corpus of the
	Mutual Fund made by it towards setting up the Fund.
	- The present scheme is not a guaranteed or assured return scheme.
	The Scheme specific risk factors are summarized as follows:
	Market Risk: All mutual funds and securities investments are subject to market risk and there can be no
	assurance / guarantee that the scheme's objectives will be achieved. The securities that the scheme
	invests in would be exposed to price changes on a day-to-day basis. These price changes may occur due
	to instrument-specific factors as well as general macroeconomic conditions.
	Markets are volatile and can decline significantly in response to adverse issuer, political, regulatory
	market or economic developments. The scheme may be subject to price volatility due to factors such as
	interest sensitivity, market perception, and creditworthiness of issuer and market liquidity.
	Different parts of the market can react differently to these developments. The value of an individua
	security or particular type of security can be more volatile than the market as a whole and can perform
	differently from the value of the market as a whole.
	Concentration Risk:
	The scheme may pursue only a limited degree of diversification. It may invest a greater proportion o
	assets in the securities of very few issuers (within the limits permitted by regulation) or be concentrated
	on a few market sectors. This could have implications on the performance of the scheme. The scheme
	may be more sensitive to economic, business, political or other changes and this may lead to sizeable
	fluctuation in the Net Asset Value of the scheme.
	Scheme specific risk factors:
	<u>Risks associated with investing in equity and equity related instruments:</u>
	Investments in equity and equity related instruments are volatile and prone to price fluctuations on a
	daily basis. The impact of fluctuations is likely to be accentuated for short-term investments. The risl
	that the performance of one or more companies declines or stagnates may have a negative impact o

the performance of the Scheme as a whole at any given time. Investments in equity and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risks

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges.

In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio

### <u>Risk specific to investing in the Banking and Financial Services Sector</u>

As the Scheme will invest in the equity and equity related securities of companies in the Banking & Financial Services sector, it may be affected by the risks associated with such companies, such as interest rate, credit, market and operational risks.

The Banking & Financial Services sector is subject to extensive Government regulation, which may change frequently. Performance of this sector depends on availability and cost of money and may fluctuate in response to change in interest rates and general economic conditions. Also, as businesses in this sector operate on substantial financial leverage, the value of investments in this sector may be impacted more than the value of investments outside the sector.

### <u>Risk Factors associated with Investments in Derivatives</u>

The Scheme(s) may use various derivative instruments and techniques, permitted within SEBI (Mutual Funds) Regulations, 1996 from time to time including but not limited for portfolio balancing and hedging purpose, which may increase the volatility of Scheme's performance. Usage of derivatives will expose the Scheme(s) to certain risks inherent to such derivatives.

Derivative products are specialized instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. There is a possibility that a loss may be sustained by the Scheme(s) as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, interest rates and indices. Even a small price movement in the underlying instrument could have a large impact on their value. This could increase the volatility of the Scheme's performance.

In case of hedge, it is possible that derivative positions may not be perfectly in line with the underlying assets they are hedging. As a consequence the derivative cannot be expected to perfectly hedge the risk of the underlying assets. This also increases the volatility of the Scheme's performance. Some of the risks inherent to derivatives investments include:

1. **Price Risk**: Despite the risk mitigation provided by various derivative instruments, there remains an inherent price risk which may result in losses exceeding actual underlying.

2. **Default Risk**: This is the risk that losses will be incurred due to default by counter party. This is also known as credit risk or counterparty risk.

3. Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged for e.g. mismatch between the maturity date of

the futures and the actual selling date of the asset.

4. Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.

5. Liquidity risk: This risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

### **Risks associated with Securities Lending**

Securities Lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in a possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

### Risk factors specific to investments in foreign securities:

The Scheme may invest in Foreign Securities including overseas debt / equities / ADRs / GDRs with the approval of RBI/SEBI, subject to such guidelines as may be issued by RBI/SEBI. The net assets, distributions and income of the Scheme may be affected adversely by fluctuations in the value of certain foreign currencies relative to the Indian Rupee to the extent of investments in these securities. Repatriation of such investment may also be affected by changes in the regulatory and political environments. Market risks can be greater with respect to political instability, lack of complete or reliable information, market irregularities or high taxation. The Scheme's NAV may also be affected by a fluctuation in the general and specific level of interest rates internationally, or the change in the credit profiles of the issuers. The liquidation of securities where investments will be made by the schemes shall be subject to the liquidity / settlement issues of the country of investment / settlement. Non-business days in country of investment / settlement may impact the liquidity of the scheme investments

The Scheme may, where necessary, appoint advisor(s) for providing advisory services for such investments. The appointment of such advisor(s) shall be in accordance with the applicable requirements of SEBI. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, transaction costs and overseas regulatory costs, the fees of appointed advisor(s). The fees related to these services would be borne by the AMC and would not be charged to the Scheme.

### Risk factors associated with investments in REITs and InvITs

- Price Risk / Market Risk: REITs and InvITs Investments are volatile and subject to price fluctuations on a daily basis owing to factors impacting the underlying assets. The valuation of the REIT/InvIT units may fluctuate based on economic conditions, fluctuations in markets (eg. real estate) in which the REIT/InvIT operates and the resulting impact on the value of the portfolio of assets, regulatory changes, force majeure events etc. REITs & InvITs may have volatile cash flows. As an indirect shareholder of portfolio assets, unit holders rights are subordinated to the rights of creditors, debt holders and other parties specified under Indian law in the event of insolvency or liquidation of any of the portfolio assets
- Liquidity Risk: As the liquidity of the investments made by the scheme(s) could, at times, be restricted by trading volumes, settlement periods, dissolution of the trust, potential delisting of units on the exchange etc, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk. Further, there is no assurance that an active secondary market will develop or be maintained. Hence there would be time when trading in the units could be infrequent. The subsequent valuation of illiquid units may reflect a discount from

	the market price of comparable securities for which a liquid market exists
•	<b>Risk of lower than expected distributions</b> : The distributions by the REIT or InvIT will be based on the net cash flows available for distribution. The amount of cash available for distribution principally depends upon the amount of cash that the REIT/InvIT receives as dividends or the interest and principal payments from portfolio assets. The cash flows generated by portfolio assets from operations may fluctuate based on, among other things:
	<ul> <li>success and economic viability of tenants and off-takers</li> <li>economic cycles and risks inherent in the business which may negatively impact valuations, returns and profitability of portfolio assets</li> </ul>
	<ul> <li>force majeure events related such as earthquakes, floods etc. rendering the portfolio assets inoperable</li> </ul>
	<ul> <li>debt service requirements and other liabilities of the portfolio assets</li> <li>fluctuations in the working capital needs of the portfolio assets</li> <li>ability of portfolio assets to borrow funds and access capital markets</li> </ul>
	<ul> <li>changes in applicable laws and regulations, which may restrict the payment of dividends by portfolio assets</li> </ul>
	<ul> <li>amount and timing of capital expenditures on portfolio assets</li> </ul>
	<ul> <li>insurance policies may not provide adequate protection against various risks associated with operations of the REIT/InvIT such as fire, natural disasters, accidents.</li> </ul>
•	<b>Interest Rate Risk</b> - Generally, when interest rates rise, prices of units fall and when interest rates drop, such prices increase
•	<b>Reinvestment Risk</b> : Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns.
•	<b>Credit Risk</b> : In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. REITs & InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre scheduled.
•	<b>Regulatory/Legal Risk</b> : REITs and InvITs being new asset classes, rights of unit holders such as right to information etc may differ from existing capital market asset classes under Indian Law.
ass	above are some of the common risks associated with investments in REITs & InvITs. There can be no urance that a Scheme's investment objectives will be achieved, or that there will be no loss of ital. Investment results may vary substantially on a monthly, quarterly or annual basis.
	<u>As for writing covered call options for equity shares:</u> Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing is capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares. Being a covered call, the downside risk is not unlimited, but limited to the extent of change in the
2.	price of underlying security held by the Fund. The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.
3.	The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss.
4.	The total gross exposure related to option premium paid and received shall not exceed the regulatory limits of the net assets of the scheme.
Ris	<u>es associated with segregated portfolio:</u>

	• Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
	<ul> <li>Security comprises of segregated portfolio may not realise any value.</li> </ul>
	<ul> <li>Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.</li> <li>Trading in the units of segregated portfolio on the Exchange may be halted because of market conditions, including any halt in the operations of Depository Participants or for reasons that in view of the Exchange Authorities or SEBI, trading in the units is suspended and / or restricted. In addition,</li> </ul>
	trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange rules of 'circuit filter'. There can be no assurance that the requirements of Stock Exchange necessary to maintain the listing of units of scheme will continue to be met or will remain unchanged.
	In addition to above and to the extent of the corpus of the Scheme investments in certain securities, the Scheme shall be subject to various risk factors including, but not limited to, risks associated with: investments in Fixed Income Securities such as Credit and Counterparty risk, Liquidity risk, Market risk, Interest Rate risk & Re-investment risk etc., investments in securitised debt and investments in liquid funds. The Scheme shall also be subject to other risks including risk associated with inflation, legal risk, taxation risk, valuation risk, operational risk & risk factors associated with processing of transaction, in case of investors investing in mutual fund units, through Stock Exchange Mechanism as provided in SID. Different types of securities in which the Scheme would invest as given in the Scheme Information Document/Key Information Memorandum carry different levels and types of risk. The above are some of the common risks associated with investments in various securities. Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, i.e.
	before making a decision to invest/redeem Units. Investors in the Scheme are not being offered any guaranteed returns. Please refer to SID for more details on scheme specific risk factors.
Risk Control Measures	Investments made by the Scheme would be in accordance with the investment objective of the Scheme and the provisions of the SEBI (MF) Regulations. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. While allocating and choosing securities, the Investment Manager will aim to diversify by gaining broad exposure to different industries and companies in order to reduce risk.
	Risk Mitigation measures for investments in equity / equity related instruments
	• The Scheme aims to maintain a well-diversified equity portfolio comprising stocks across various sectors of the economy. This shall aid in managing concentration risk and sector specific risks.
	<ul> <li>The Scheme targets to maintain exposure across different market cap segments - i.e. large, mid-cap and small cap. This shall aid in managing volatility and also improve liquidity.</li> <li>The Scheme's will strive to mitigate risk through a judicious mix of Debt and Money Market last unserts and equity (equity related instruments).</li> </ul>
	Instruments and equity/ equity related instruments The scheme may utilize derivative instruments for hedging & portfolio balancing purposes. All Interest Rate Swaps will be undertaken with approved counter parties under pre-approved International Swaps and Derivatives Association (ISDA) agreements. The scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI/RBI for the purpose of hedging and portfolio rebalancing.
	The above risk control measures shall be implemented by the AMC on best effort basis however there can be no guarantee that such measures can completely mitigate the risks involved in Scheme.
Plans & Options	

The details of Options / Sub-Options (available under each Plan) are as under: (a) Growth Option (Default) (b) IDCW Option - Payout of IDCW Option and Reinvestment of IDCW Option (Default). If the Dividend under the Payout Option of the Schme is less than or equal to Rs 200, it will, by default, be reinvested under the Reinvestment sub-option.

IDCW stands for 'Income Distribution cum Capital Withdrawal option'. The amounts can be distributed out of investors' capital (Equalization Reserve), which is part of the sale price that represents realized gains, (subject to the availability of distributable surplus as calculated in accordance with the Regulations).

However, investors are requested to note that amount of distribution under IDCW option is not guaranteed and subject to availability of distributable surplus.

Investors are requested to note that, pursuant to SEBI circular no. SEBI/HO/IMD/DF3/CIR/P/2020/194 dated October 05, 2020 the nomenclature of the "Dividend Option(s) / Sub-option(s)" offered under all the existing schemes of the Fund has been renamed with effect from April 01, 2021.

- INSTRUCTIONS
- The SIP Registration Form should be completed in English and in Block Letters only. Please tick
   (✓) in the appropriate box (□), where boxes have been provided. The SIP Enrolment Form,
   complete in all respects, should be submitted to any of the Official Points of Acceptance of
   Transactions.
- Unit Holders can register SIP in up to 4 different schemes using single Multi SIP Registration Form.
- Existing unit holders are required to submit only the SIP Registration Form. Existing unit holders should note that unit holders' details and mode of holding (single, jointly, anyone or survivor) will be as per the existing folio number.
- 4. New investors who wish to register for SIP are required to fill the Common Application Form and SIP Application Form. New investors are advised to read the Key Information Memorandum(s) and Scheme Information Document carefully before investing and the same are available with the ISCs / distributors.
- Minimum amount and installments required for various SIP frequencies offered to investors is as below:

For all open ended non-liquid schemes, other than Baroda BNP Paribas ELSS Fund:

Daily Systematic Investment Facility (DSIF), Weekly Systematic Investment Facility (WSIF) and Monthly Systematic Investment Facility (MSIF): Minimum INR 500 and in multiples of INR 1 thereafter per installment for a minimum of 12 Installments

Quarterly Systematic Investment Facility (QSIF): Minimum INR 1500 and in multiples of INR 1 thereafter per installment for a minimum of 4 Installments

For Baroda BNP Paribas ELSS Fund: Minimum INR 500 and in multiples of INR 500 thereafter per installment. Minimum Installments for DSIP, WSIF, MSIF will be 6 installments and for QSIF 4 installments

Accordingly, the provision of critieria of Minimum Application Amount of the scheme shall not apply to such applications using the SIP facility.

### 6. Applicable Load Structure for SIP

Entry Load: Nil

The provisions of Exit Load as applicable to the normal investments as on the date of Registration will be applicable to fresh SIP investments.

- 7. Separate SIP Registration Forms are required to be filled for DSIP, WSIF, MSIF and QSIF.
- 8. Investors have the right to discontinue the SIP facility at any time by sending a written request to any of the Official Points of Acceptance of Transactions. Such notice should be received at least 14 days prior to the due date of the next cheque. On receipt of such request, the SIP facility will be terminated.
- 9. The registration period of SIP will be as per the instruction given by the investor. In case the SIP is selected for a Perpetual period investors will have to submit SIP cancellation request to discontinue the SIP. In case of any ambiguity in registration period or if the end date of SIP is not mentioned, the default period for SIP will be perpetual.
- 10. In case investor has not selected any frequency or incase of any ambiguity, monthly frequency shall be considered as default option. Similarly, 7th day shall be considered as default Trigger date. In case of any ambiguity in the enrolment form, the SIP registration request shall be liable to be rejected.
- 11. In case of minor application, AMC will register standing instructions till the date of the minor attaining majority, though the instructions may be for a period beyond that date. Prior to minor attaining majority, AMC shall send advance notice to the registered correspondence address advising the guardian and the minor to submit an application form along with prescribed documents to change the status of the account to "major". The account shall be frozen for operation by the guardian on the day the minor attains the age of majority and no fresh transactions shall be permitted till the documents for changing the status are received.
- 12. The Trustee / AMC reserves the right to change / modify the terms of the SIP.
- If no start date is mentioned by the investors, the SIP will be registered to start from a period after 30 days from the date of submission of the application form.
- 14. DSIP shall be triggered and processed on all Business Days only.
- 15. Investors can choose any preferred date of the month as SIP debit date. In case the chosen date falls on a non-business day, the SIP will be processed on the immediate next business day. In case chosen date is not available in a particular month, the SIP will be processed on the last

business day of the month

- The SIP will be discontinued automatically if payment is not received for three successive instalments
- 17. The amount mentioned on the first cheque should be equal to the combined SIP instalment amount mentioned against all the Schemes in the Form. Accordingly, the first cheque amount will get invested in multiple Schemes as mentioned in the form. In case of mismatch, the transaction is liable to be rejected. Further, investor should ensure that the amount mentioned on the OTM is equal to the total consolidated amount across all schemes mentioned as per the form
- 18. If a Micro SIP application is found such that the registration of the application will result in the aggregate of all investments made by the investor in a financial year exceeding Rs. 50,000 or where there is any deficiency in the application form or any supporting document In case the first Micro SIP instalment is processed (as the cheque may be banked), and the application / supporting document is found to be defective, such Micro SIP will be ceased for future instalments. No refunds shall be made for the units already allotted. Investor, can however, redeem the units if so desired.
- 19. The investor will not hold Baroda BNP Paribas Mutual Fund, its registrars and other service providers responsible if the transaction is delayed or not effected or the investor bank account is debited in advance or after the specific SIP date due to various clearing cycles of NACH Debit/ Local/Bank holiday. Baroda BNP Paribas Mutual Fund, its registrars and other service providers shall not be held responsible or liable for damages / compensation / loss incurred by the investor as a result of using the SIP NACH / Direct Debit facility. The investor assumes the entire risk of using this facility and takes full responsibility.

### The terms and conditions for availing the 'Top-Up SIP' shall be as follows:

Frequency for Top-Up SIP

### (i) For Monthly SIP:

- a. Half Yearly Top-Up SIP: Under this option, the amount of investment through SIP installment shall be increased by amount chosen / designated by Investor post every 6th (sixth) SIP installment.
- Yearly Top-Up SIP: Under this option, the amount of investment through SIP installment shall be increased by amount chosen / designated by Investor post every 12th (twelfth) SIP installment.

### (ii) For Quarterly SIP:

a. Yearly Top-Up SIP: Under this option, the amount of investment through SIP installment shall be increased by amount chosen / designated by Investor post every 4th (fourth) SIP installment. In case the investor who has registered under Quarterly SIP opts for Half Yearly Top-Up SIP, the same shall be registered and processed as Yearly Top-Up SIP.

### 2. Minimum Top-Up SIP Amount:

₹ 500 and in multiples of ₹ 500 thereafter.

Default Top-Up SIP Frequency and amount:

- In case the investor fails to specify either the frequency or amount for Top-Up SIP, the same shall be deemed as Yearly Top-Up SIP and ₹ 500 respectively and the application form shall be processed accordingly. In case the investor fails to specify both, i.e. the frequency for Top-Up SIP and amount for Top-Up SIP, the application form may be processed as conventional SIP, subject to it being complete in all other aspects.
- 4. Top-Up SIP shall be available for SIP Investments only through NACH / Direct Debit Facility only. Top-Up SIP shall not be available under SIP facility availed by Investors through Standing Instructions or investing through Channel Partners or through Stock Exchange Platforms.
- 5. Top-Up SIP facility shall not be available under Weekly SIP option.
- Top-Up SIP facility can be availed by the investors only at the time of registration of SIP or renewal of SIP.
- Investors should note that for modification of any of the details of Top-Up SIP details, the existing SIP with Top-Up facility shall be required to be cancelled and investor would be required to register a fresh SIP with modified Top-Up facility details.
- Investors should ensure the amount mentioned in the OTM is on the higher side to be able to accomodate the increase as and when the top up amount is triggered. In case the OTM amount is lesser than the base amount + top up amount for any trigger in future, the SIP with Top-Up Facility will stand cancelled.
