[^] Kindly note that with effect from September 11, 2024, Baroda BNP Paribas Medium Duration Fund ('Merging Scheme') has merged into Baroda BNP Paribas Credit Risk Fund ('Surviving Scheme'). The segregated portfolio under the merging scheme is now under the surviving scheme.

Note on Segregated Portfolio Due to credit event (Default of debt servicing by Yes Bank on March 6, 2020), securities of Yes Bank have been segregated from the scheme's portfolio w.e.f March 6, 2020. Yes Bank had, on March 14, 2020, informed the Stock Exchanges that the AT1 bonds were fully written down and had extinguished with immediate effect pursuant to Master Circular- Basel III Capital Regulations dated July 01, 2015 read with Section 45 of the Banking Regulation Act, 1949. On March 16, 2020, Axis Trustee Services Ltd., debenture trustee for the AT1 bonds, had filed a writ petition in the Hon'ble High Court, Mumbai, inter alia seeking relief from the Court to set aside the decision to write off the AT1 bonds, and that the matter was sub-judice before the on'ble Court. Kindly refer to SID/KIM for complete details on segregation of portfolio

ABOUT THE FUND

Baroda BNP Paribas Credit-risk fund is a debt fund which have at least 65% of their investments in AA (excluding AA+) and below rated corporate bonds. The fund aims to generate high returns by taking higher credit risks and invest in lower-rated papers. This fund invests based on short to medium term interest rate view and shape of the yield curve. They typically maintain a moderate duration of up to 2 years and invests in well researched credits / structures for yield enhancement. The fund looks for opportunities in the fixed income segment across varying interest rates cycle. Investing in such funds aims to give investors the benefit of generating income in both rising and falling interest rate environment. The fund has adequate exposure towards AAA bonds, G-Sec & money market instruments for ensuring liquidity.

PORTFOLIO POSITIONING

- The primary objective of the Scheme is to generate returns by investing in debt and money market instruments across the credit spectrum.
- The Fund continues to maintain more than regulatory mandate in carefully monitored AA and below assets.
- The Fund also intends to maintain its allocation to units of REITs/Invits to enhance the potential return of the fund.
- Given the current rates scenario, the spread of sovereign assets is attractive. Hence the Fund intends to tactically increase the duration by adding dated govt securities.

DISCLAIMERS

***Concept of Macaulay duration** - The Macaulay Duration is a measure of a bond's sensitivity to interest rate changes. It is expressed in annual terms. It is the weighted average term to maturity of the cash flows from a bond. The weight of each cash flow is determined by dividing the present value of the cash flow by the price. Factors like a bond's price, maturity, coupon, yield to maturity among others impact the calculation of Macaulay duration. The Macaulay duration can be viewed as the economic balance point of a group of cash flows. Another way to interpret the statistic is that it is the weighted average number of years an investor must maintain a position in the bond until the present value of the bond's cash flows equals the amount paid for the bond. As it provides a way to estimate the effect of certain market changes on a bond's price, the investor can choose an investment that will better meet his future cash needs.
