Load Structure

Exit Load: If units of the scheme are redeemed or switched out within 30 days of the date of allotment - 1% of the applicable Net Asset Value (NAV)

If units of the scheme are redeemed or switched out after 30 days of allotment - Nil

The above Exit Load will be applicable to all subscription transactions, excluding switch-ins.

For detailed load structure please refer Scheme Information Document of the scheme.

*Monthly AAUM and AUM - Excluding inter-scheme Investments, if any, by other schemes of Baroda BNP Paribas Mutual Fund, as may be applicable

#Mr. Sanjay Chawla was appointed as Fund Manager w.e.f May 1, 2026 in place of Mr. Pratish Krishnan.

ABOUT THE FUND

- The Scheme has a dual objective of generating capital appreciation and income by using arbitrage opportunities by investing in equity and equity related securities as well as generating income by investing in debt and money market securities, while attempting to manage risk from the market through active asset allocation.
- Under normal circumstances, the scheme may invest upto a maximum of 50% in unhedged equity and upto 35% in debt and money market instruments. The balance would be invested in the arbitrage strategy using equity futures. The scheme may also invest in InVITS (upto 10% of the net assets)
- The AMC has built a proprietary model for asset allocation based on the valuations and fundamentals of the companies. The asset allocation between equity and debt will be determined by the model and the top-down process will help in deciding the sector allocation while the bottom up process would lead to construction of the portfolio using specific securities.
- The model is updated on a monthly basis to decide the asset allocation. Generally, once the allocation is fixed, it will not be changed till the next month except in case of extraordinary situations where extreme volatility in the markets would force a change in asset allocation.
- The portfolio would be constructed based on top-down as well as bottom up approach using our core principle of investing, GARP (Growth at a Reasonable Price).
- The scheme is suitable for investors who are seeking Long term capital appreciation and income generation through a combination of equity, arbitrage and fixed income instruments.

PORTFOLIO POSITIONING

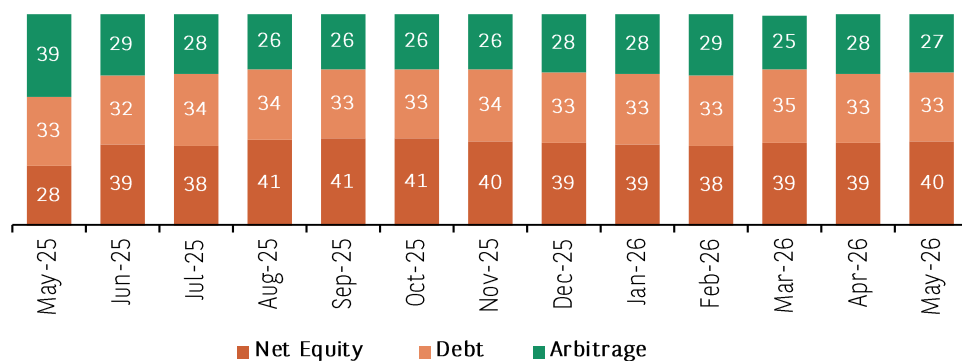

Equity:

- Net equity exposure at 40.1%.
- Compared to the last month, we have decreased exposure to Materials, Consumer Discretionary & Consumer Staples. Increased exposure to Financials.
- Mid and small cap exposure at 38% vs 34% last month. Large Cap exposure stands at 62% vs 66% last month.
- We are UW on Consumer discretionary, consumer staples, Healthcare, Energy & Information Technology and Overweight on Real Estate, Communication Services, Industrials, Materials, Utilities & Financials

Debt:

- The primary objective of the Scheme is to generate capital appreciation and income by using arbitrage opportunities, investment in equity / equity related instruments and debt/ money market instruments
- The fixed income portion intends to keep the duration of the fund in the range of 2.5 years - 3.00 years as per constructive interest rate view.
- To achieve the same, we have allocated in mix of ~30%-70% strategy in terms of GSEC and Corporate bond composition.
- The corporate bond exposure comprises of mix of AAAs (~85%) as well as some carry assets up to AA- (~15%) ranging from 2-5yr maturity to get the accrual benefit of 70-200bps compared to GSEC.
- The Fund also intends to maintain its allocation to units of InVits to enhance the potential return of the fund.
- Further, we will be open to taking tactical duration calls whenever opportunity arises. However, core duration has been reduced from closer to 4 earlier to closer to 2.5 now

CAGR :- Compound annual growth rate

Returns Pertain to Regular Plan - Growth option .

#Mr. Sanjay Chawla was appointed as Fund Manager w.e.f May 1, 2026, in place of Mr. Pratish Krishnan.

Past performance may or may not be sustained in future and is not a guarantee of any future returns

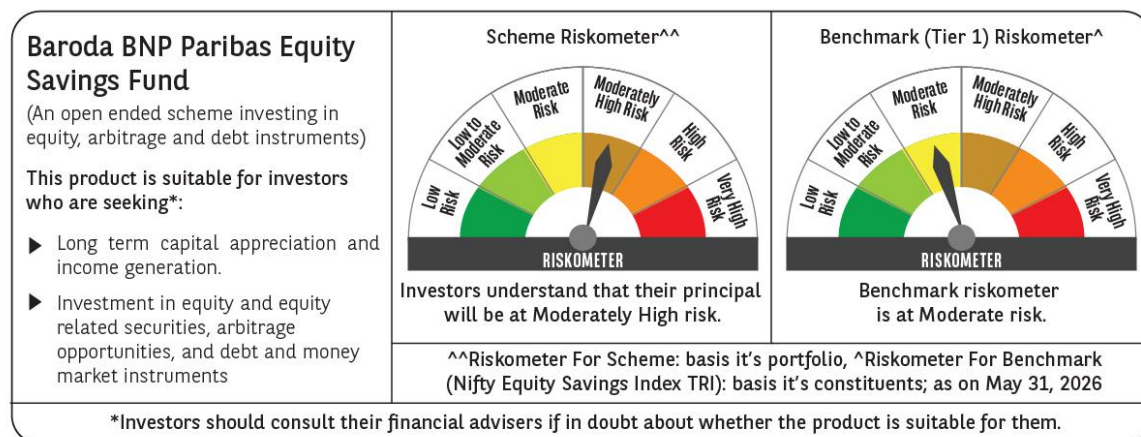

For Other funds managed by the fund manager , please [Click here](#)

Income Distribution cum Capital Withdrawal (IDCW) HISTORY (Regular Plan - IDCW Option)

Record Date	Distribution Rate Per Unit (₹) Individual/others	Cum-IDWC NAV (₹)
27-Mar-23	0.83	11.80
27-Mar-25	1.09	13.83
27-Mar-26	0.96	13.21

Last 3 IDCW declared for IDCW option.

Pursuant to distribution under Income Distribution cum Capital Withdrawal ('IDCW') option, NAV of the IDCW option of the scheme(s) would fall to the extent of pay-out and statutory levy (if applicable). The amounts under IDCW options can be distributed out of investors' capital (Equalization Reserve), which is part of sale price that represents realized gains. Past performance may or may not be sustained in future and is not a guarantee of any future returns. The above stated distribution rate per unit is net distribution rate after deducting applicable taxes. The above distribution rates are on face value of Rs 10 per unit. Face value may change depending upon FV of the scheme.

DISCLAIMERS

Debt Quants - The information contained in this report has been obtained from sources considered to be authentic and reliable. The quantitative data does not purport to be an offer for purchase and sale of mutual fund units.

Portfolio Positioning, Top 10 Sectors/Stocks - details contained herein is for general information purposes only and does not indicate assurance of future Scheme performance. The sector(s)/stock(s) mentioned in this document do not constitute any recommendation of the same and Baroda BNP Paribas Mutual Fund may or may not have any future position in these sector(s)/stock(s). Further, the portfolio of the Scheme is subject to changes within the provisions and limitations of Scheme Information Document (SID). For further details on asset allocation, investment strategy and risk factors of the Scheme please refer to SID available on our website (www.barodabnp-paribasmf.in).

NAV Movement (Rs. 10,000 Invested at Inception) - All returns are for Regular Plan - Growth Option. Past performance may or may not be sustained in future and is not a guarantee of any future returns. Returns do not take into account the load, if any.

SIP Performance - Returns do not take into account the load and taxes, if any. The data assumes investments in Regular Plan - Growth option. % CAGR Returns are computed after accounting for the cash flow by using the XIRR method (investment internal rate of return). the above investment simulation is for illustrative purpose only and should not be construed as a promise on minimum returns and safeguard of capital. the AMC/ Mutual fund is not guaranteeing or forecasting or promising any return. SIP does not assure a profit or guarantee protection against loss in a declining market.

Market Capitalization as per SEBI - Large Cap: 1st - 100th company, Mid Cap: 101st - 250th company and Small Cap: 251st company onwards in terms of full market capitalization.

Concept of Macaulay duration - The Macaulay Duration is a measure of a bond's sensitivity to interest rate changes. It is expressed in annual terms. It is the weighted average term to maturity of the cash flows from a bond. The weight of each cash flow is determined by dividing the present value of the cash flow by the price. Factors like a bond's price, maturity, coupon, yield to maturity among others impact the calculation of Macaulay duration. The Macaulay duration can be viewed as the economic balance point of a group of cash flows. Another way to interpret the statistic is that it is the weighted average number of years an investor must maintain a position in the bond until the present value of the bond's cash flows equals the amount paid for the bond. As it provides a way to estimate the effect of certain market changes on a bond's price, the investor can choose an investment that will better meet his future cash needs.

The risks associated with investments in equities include fluctuations in prices, as stock markets can be volatile and decline in response to political, regulatory, economic, market and stock-specific development etc. Please refer to Scheme Information Document for detailed Risk Factors, asset allocation, investment strategy etc. The material contained herein has been prepared without regard to the individual financial circumstances and objectives of persons who receive it.
