How to thrive in an ever changing world?

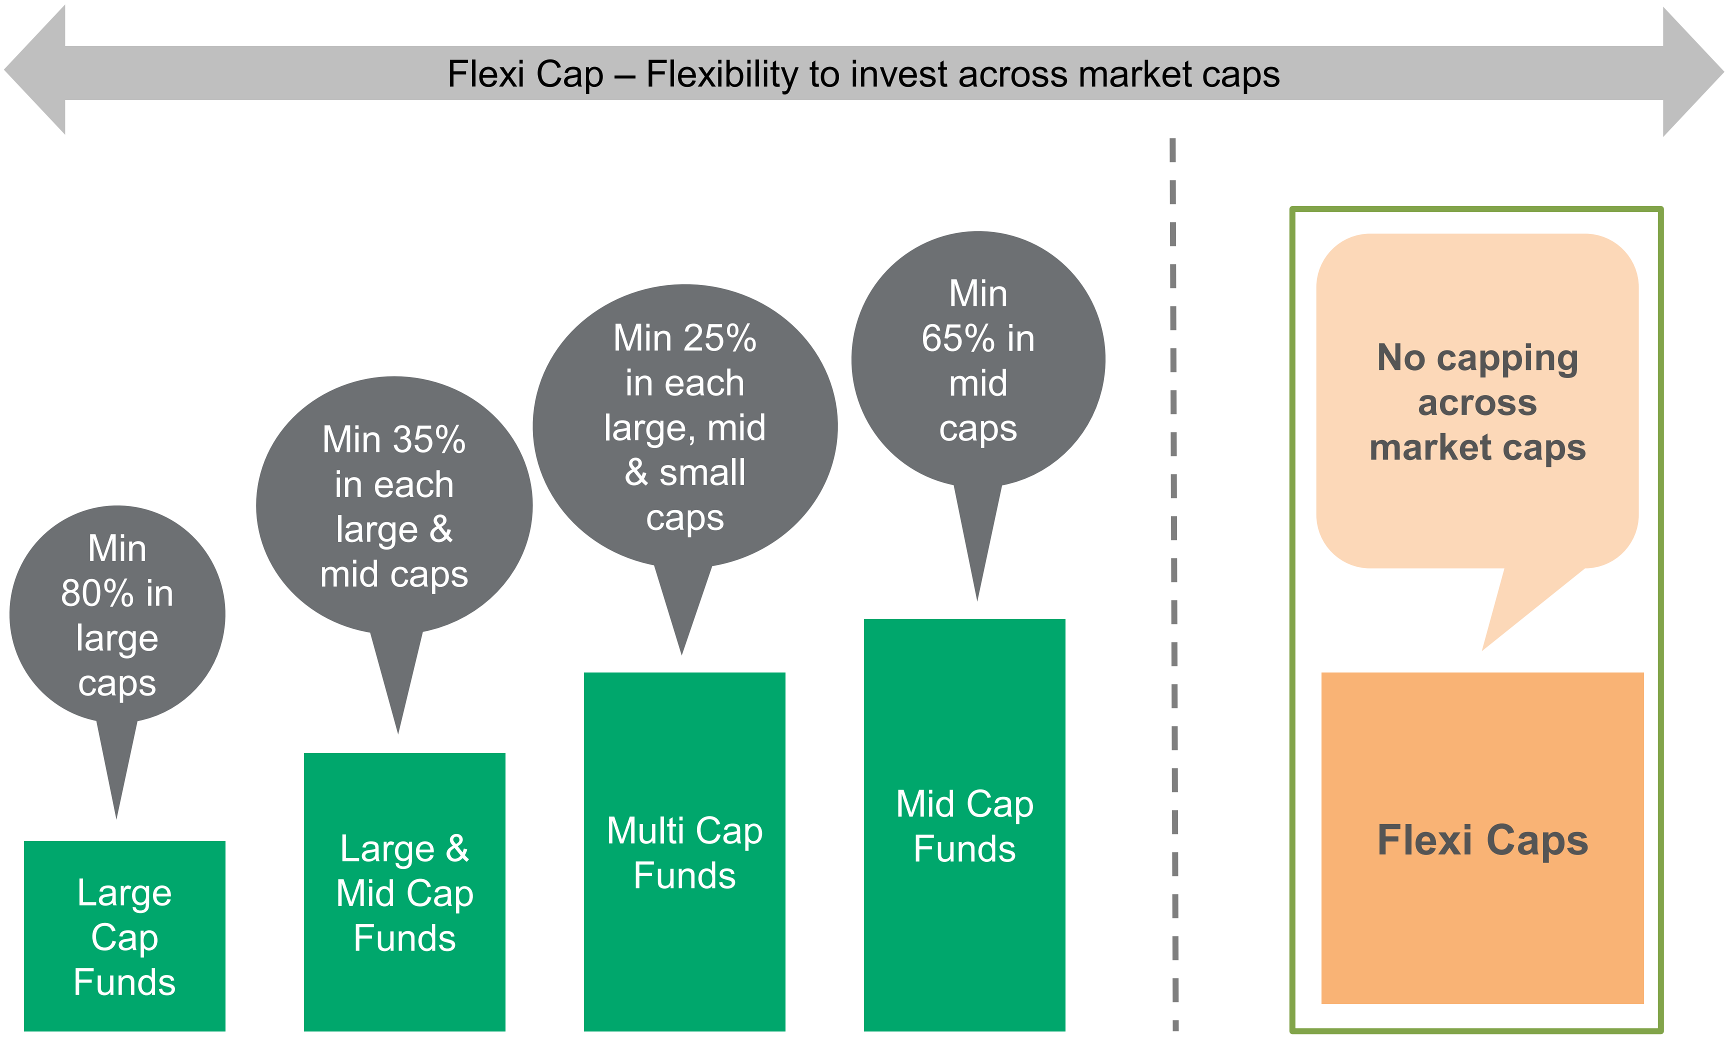
Be Flexible

BENEFITS OF FLEXI CAP FUNDS

Baroda BNP PARIBAS MUTUAL FUND

Together for more

Flexi Cap - Flexiblility to invest across market caps



Benefits of Investing in Flexi Cap Fund

Agility

- No capping across market cap allows the Flexi cap fund at any given time to dynamically take positions across large/ mid or small cap stocks

Diversification

- One equity fund invests in different market segments. Large caps tend to reduce volatility where as mid and small caps may come with higher growth potential

Managing Risks

- A diversified portfolio helps in reducing risks associated with investing solely with large / mid and small caps and hence it is a good starting point for someone who is new to investing

All Season Fund

- Given the dynamic nature of the fund, it aims to adapt to the ever changing business environment

MARKET SEGMENTS UPDATE
