## ABOUT THE FUND

- Baroda BNP Paribas Flexi Cap Fund invest in companies across market caps viz. Large Cap, Mid Cap and Small Cap.
- A fund that invests in different market segments; large caps tend to reduce volatility whereas mid and small caps may come with higher growth potential
- A diversified portfolio helps in reducing risks solely associated with investing in single market segment and hence it could be a good starting point for someone who is new to investing
- Given the dynamic nature of the fund, it may adapt and thrive in different market cycles

## PORTFOLIO POSITIONING

- Compared to the last month, we have increased exposure to Information Technology, Industrials and Materials. Exposure has been reduced in Financials and Communication Services.
- Key overweight positions are Consumer Discretionary, Industrials, Health Care and Information Technology while key underweight positions are Financials, Utilities and Consumer Staples.
- While Mid and small cap exposure marginally increased to 44.2% from 43% a month ago, Large Cap exposure reduced to 51.8% from 53% a month ago.
- Cash position stands stable at 4%.
- During the month, we have increased Overweight on Power Generation Equipment within Industrials on favourable earnings prospects and on Materials on cyclical recovery prospects.
- We remain overweight on Pharma and Healthcare. We are positive on market share gains and see robust outlook for hospital services driven by planned capex.
- We are positive on the consumer discretionary sector as confluence of several factors (lower income tax rates, lower interest rate environment, good monsoon and the recent GST cut) should help recovery in demand. While we are positive on auto and auto ancillaries, we are cautious on consumer electricals and EMS on valuations.

## Income Distribution cum Capital Withdrawal (IDCW) HISTORY (Regular Plan - IDCW Option)

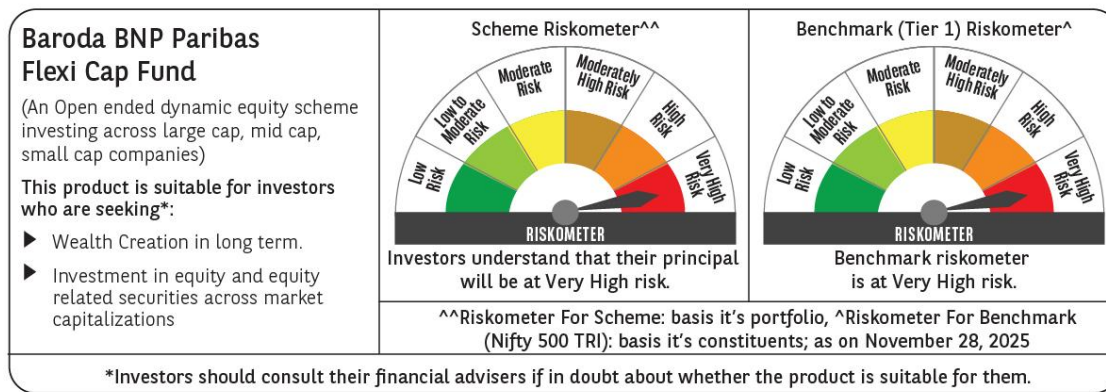

Record Date	Distribution Rate Per Unit (₹) Individual/others	Cum--IDWC NAV (₹)
27-Mar-23	1.25	14.34

Last 3 IDCW declared for IDCW option.

Pursuant to distribution under Income Distribution cum Capital Withdrawal ('IDCW') option, NAV of the IDCW option of the scheme(s) would fall to the extent of pay-out and statutory levy (if applicable). The amounts under IDCW options can be distributed out of investors' capital (Equalization Reserve), which is part of sale price that represents realized gains. **Past performance may or may not be sustained in future and is not a guarantee of any future returns.** The above stated distribution rate per unit is net distribution rate after deducting applicable taxes. The above distribution rates are on face value of Rs 10 per unit. Face value may change depending upon FV of the scheme.
