For detailed load structure please refer Scheme Information Document of the scheme.

ABOUT THE FUND

- Baroda BNP Paribas Focused Fund is an open-ended equity scheme with a multi cap portfolio of maximum 25 stocks
- A concentrated strategy may deviate significantly from the benchmark index and invest in a range of opportunities across market • capitalization and sectors. Thus, the Scheme remains sector agnostic with the endeavour to add companies which may have high earnings growth potential.
- Alpha generation opportunity may be higher in a concentrated portfolio as the conviction and size of the stock bets remain high, albeit with high risk parameters associated with such strategy.
- The scheme primarily follows a bottom-up approach for stock-picking. It uses a blended approach to build a portfolio of value and growth companies. The core belief behind a concentrated strategy is to have stocks which are driven by strong fundamentals, which may grow at a faster
- pace than the economy or may have the ability to outperform the overall market. Select sector leaders and companies that are at the cusp of a turnaround are also likely to help alpha creation.
- The Scheme is suitable for investors who have a long term investment horizon

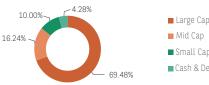

PORTFOLIO POSITIONING

- We further increased our underweight positioning in consumer discretionary as we believe growth has slowed down and valuation are ahead of • undamentals
- Other key changes are increase in exposure towards Material space as we believe valuations are reasonable and China re-opening can provide •
- reasonable upside in basic commodity prices. The financial sector remain our key overweight position. We believe large private banks are well-positioned for growth, from a long-term perspective. Further, we have exposure to corporate banks also as they are expected to benefit from the pickup in corporate loan books. Other key overweight positions are industrials and utilities. In utilities, we believe the valuations remain reasonable.
- Other key overweight positions are industrials and utilities. In utilities, we believe the valuations remain reasonable. Further, we have increased our exposure to industrial as we believe the capex story is on track. Further, the recent budget announcement regarding capital expenditure augurs well for industrials sector. In terms of market capitalization, investments in large cap stocks stand at 69%, mid cap at 16% and small cap at 10%. Cash position stands at 4.3% (Vs 3.3% in Dec '22). (Market capitalization as per SEBI classification, Exposure as % of net assets as on January 31, 2023). •

DISCLAIMERS

Key Statistical Ratios - The information contained in this report has been obtained fromsources considered to be authentic and reliable. This quantitative data does not purport to be an offer for purchase and sale of mutual fund units. The Standard Deviation is used to measure the volatility of returns. Sharpe Ratio is the measure of the risk – adjusted performance. Beta is the measure of the portfolio's volatility to its respective benchmark. The risk free rate of return considered for calculation of Sharpe ratio is 6.50%, as per 1 day MIBOR rate on the last business day of the month. Sharpe ratio, Volatility/Standard deviation is annualised based on 36 monthly data points. Beta is based on last 36 monthly data points.

Market Capitalization as per SEBI - Large Cap: 1st - 100th company, Mid Cap: 101st - 250th company and Small Cap: 251st company onwards in terms of full market capitalization

Monthly AAUM and AUM - Excluding inter-scheme Investments, if any, by other schemes of Baroda BNP Paribas Mutual Fund, as may be applicable.

Portfolio Positioning, Top 5 Sectors/Stocks – details contained herein is for general information purposes only and does not indicate assurance of future Scheme performance. The sector(s)/stock(s) mentioned in this document do not constitute any recommendation of the same and Baroda BNP Paribas Mutual Fund may or may not have any future position in these sector(s)/stock(s). Further, the portfolio of the Scheme is subject to changes within the provisions and limitations of Scheme Information Document (SID). For further details on asset allocation, investment strategy and risk factors of the Scheme please refer to SID available on our website (www.barodabnparibasmf.in).

NAV Movement (Rs. 10,000 Invested at Inception) - All returns are for Regular Plan - Growth Option. Past performance may or may not be sustained in future and should not be used as a basis of comparison with other investments. Returns do not take into account the load, if any.

SIP Performance - Returns do not take into account the load and taxes, if any. The data assumes investments in Regular Plan - Growth option. % CAGR Returns are computed after accounting for the cash flow by using the XIRR method (investment internal rate of return). the above investment simulation is for illustrative purpose only and should not be construed as a promise on minimum returns and safeguard of capital. the AMC/ Mutual fund is not guaranteeing or forecasting or promising any return. SIP does not assure a profit or guarntee protetion against loss in a declining market.
