A higher Debt allocation aligns with Current Opportunity in Fixed Income Market – The Outlook!

A Shift in US Monetary Dynamics –

- ❑ FED in October-25 policy delivered a rate cut and also mentioned end of quantitative tightening.
- ❑ Fed governor himself highlighted pressures on overnight rates on selected dates on use of standing repo facility (SRF).
- ❑ Secondly, labour market conditions in US have weakened in 2025 and FED is noticing.
- ❑ Such symptoms of tightening liquidity and growth uncertainty should be seen as the major mover for future rate cuts and quantitative easing.

Expectations for Fed Fund Rate%

US 10 year %

Domestic Monetary Policy –

- ❑ Since the August-25 policy, when the monetary policy committee (MPC) pointed to a limited room for supporting growth, policymakers now in October-25 MPC signal available policy space to aid growth.
- ❑ RBI's forward guidance on space for rate cuts gives us confidence on growth supported future policy expectations.

"The sobering of inflation has given greater leeway for monetary policy to support growth without compromising on the primary mandate of price stability."

RBI Governor

A higher Debt allocation aligns with Current Opportunity in Fixed Income Market – The Outlook!

Elevated spreads and yields –

- ❑ Valuation of securities is at reasonably attractive point wherein spreads of 10-year benchmark vs the overnight rate and SDLs/Long g-sec versus the 10yr benchmark have reached the higher end of the trading range.
- ❑ The investors could benefit from further easing of rates in months ahead.

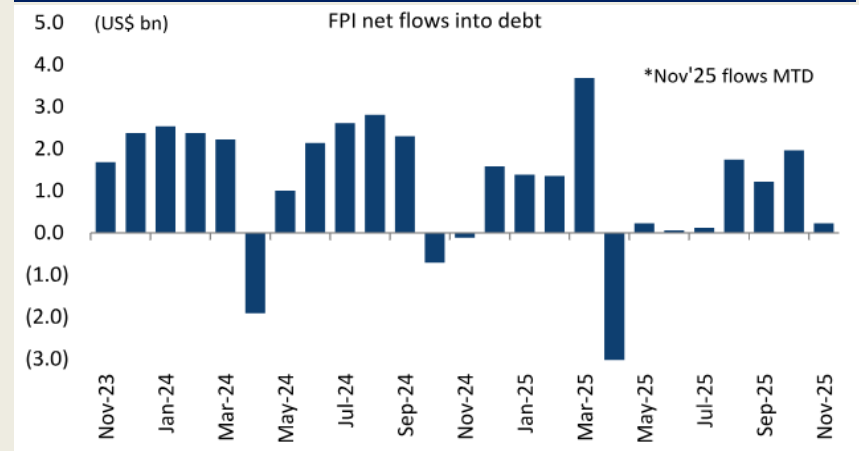

INR took the hit

- ❑ INR depreciation has resulted in INR valuation being closer to fair level and provides an attractive entry point from foreign investors in fixed income markets.
- ❑ Elevated rates and depreciated INR has supported foreign flows into domestic debt markets.

Currency movement against dollar

Flows in Domestic Debt Markets

At last, the opportunity –

- ❑ Positive real rates of ~250 bps (1yr T-bill vs FY26 inflation), post RBI rate cut of 100 bps provides a case for remaining invested in fixed income assets.
- ❑ Benign inflation forecast of 2.6%, below RBI threshold of 4% for FY 26 and maintaining GDP forecast at 6.8% indicates a continuity of pro-growth-oriented policy mindset.
- ❑ Multiyear high spread between benchmarks and long end G-sec is expected to provide ample opportunity, with stable to lower rate view and comfortable macros.

About our Fund of Funds

- ❖ **Baroda BNP Paribas Income Plus Arbitrage FoF**
- ❖ **Baroda BNP Paribas Multi Asset Active FoF**

Investment strategy stated above may change from time to time and shall be in accordance with the investment objective and strategy stated in the SID of the scheme.

About the Underlying Funds

Intended Positioning & Philosophy - Baroda BNP Paribas Corporate Bond Fund**

Past performance may or may not be sustained in future and is not a guarantee of any future returns.

* Data as on November 30th, 2025 Baroda BNP | Monthly Factsheet | MF India | SIP Investment

**Considering the current market conditions, the scheme intends to invest in the Baroda BNP Paribas Short Duration Fund. The Fund Manager may at its discretion invest in any other debt-oriented schemes of Baroda BNP Paribas Mutual Fund as listed in SID. For more information please visit the AMC website (www.barodabnpparibasmf.in)

Intended Positioning - BBNPP Corporate Bond Fund**

Baroda BNP Paribas Corporate Bond Fund is the underlying fund for debt allocation. Why ?

- ▶ Guiding principle of the fund aims to invest in AA+ and above rated corporate bonds.
- ▶ The fund operates majorly into highly rated space by, allocating minimum 85% in Sovereign/AAA/A1+ assets* of the
- ▶ portfolio. A declining interest rate regime with the spread opportunity, aligns with the fund positioning of the scheme.

The lowering of interest rates, current transition of banking system liquidity from deficit to surplus mode and current available elevated spreads in our view presents a compelling opportunity.

Intended Positioning - Baroda BNP Paribas Short Duration Fund**

Baroda BNP Paribas Short Duration Fund is the underlying fund for debt allocation. Why ?

- ▶ A declining interest rate regime with surplus liquidity and the below spread opportunity, aligns with the fund positioning of the scheme.
- ▶ Funds with reasonable allocation to high rated corporate bonds in the short to mid tenor duration stands a good chance to benefit from above expectations.
- ▶ The strategy of running duration along with descent carry given attractive spreads seems suitable from investor point of view. However, we suggest that the investor consults his financial advisor before investing.

3 year AAA-Gsec Spread

The lowering of interest rates, current transition of banking system liquidity from deficit to surplus mode and current available elevated spreads in our view presents a compelling opportunity.

Overarching Philosophy of the Large Cap Fund

> Allocation more than Selection is a key determinant for success

- The Investment Universe is made up of India's largest companies**
- Basic hygiene Governance levels mostly exist in all the companies
- Theses are the mostwell researched and well tracked companies under constant scrutiny**

> The Interplay of Macro-economics and their sectoral impacts is an important facet of allocating weights.

> Active shuffling of sectors based on our views on the economy (accelerating vs decelerating), and monetary conditions (hardening vs softening).

> Growth at a Reasonable Price (GARP) remains a key philosophy of selection of companies.

* These views alone may or may not be sufficient and should not be used for the development or implementation of an investment. To know in detail about the scheme, please refer the Scheme Information Document

Who is it Suitable for?@

Please consult your financial advisor before making any investment decision.

Past performance may or may not be sustained in future and is not a guarantee of any future returns

Risk Factors & Disclaimers

The risks associated with investments in gold include fluctuations in prices, as gold prices can be volatile and decline in response to political, regulatory, economic, market and commodity specific development etc. Please refer to scheme information document for detailed risk factors, asset allocation, investment strategy etc.

Further, to the extent the scheme invests in fixed income securities, the Scheme shall be subject to various risks associated with investments in Fixed Income Securities such as Credit and Counterparty risk, Liquidity risk, Market risk, Interest Rate risk & Re-investment risk etc., Further, the Scheme may use various permitted derivative instruments and techniques which may increase the volatility of scheme's performance. Also, the risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Please refer to Scheme Information Document available on our website (www.barodabnpparibasmf.in) for detailed Risk Factors, assets allocation, investment strategy etc.

In the preparation of the material contained in this document, Baroda BNP Paribas Asset Management India Ltd. ("AMC") has used information that is publicly available, including information developed in-house. The AMC, however, does not warrant the accuracy, reasonableness and/or completeness of any information. This document may contain statements/opinions/ recommendations, which contain words, or phrases such as "expect", "believe" and similar expressions or variations of such expressions that are "forward looking statements". Actual results may differ materially from those suggested by the forward looking statements due to risk or uncertainties associated with our expectations with respect to, but not limited to, exposure to market risks, general economic and political conditions in India and other countries globally, which have an impact on our investments, the monetary and interest policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, etc. The AMC (including its affiliates), Baroda BNP Paribas Mutual Fund ("Mutual Fund"), its sponsor / trustee and any of its officers, directors, personnel and employees, shall not be liable for any loss, damage of any nature, including but not limited to direct, indirect, punitive, special, exemplary, consequential, as also any loss of profit in any way arising from the use of this document in any manner. The recipient alone shall be fully responsible / liable for any decision taken based on this document. All figures and other data given in this document are dated and may or may not be relevant at a future date. Prospective investors are therefore advised to consult their own legal, tax and financial advisors to determine possible tax, legal and other financial implication or consequence of subscribing to the units of the schemes of Baroda BNP Paribas Mutual Fund. Past performance may or may not be sustained in the future. Please refer to the Scheme Information Document of the schemes before investing for details of the scheme including investment objective, asset allocation pattern, investment strategy, risk factors and taxation.

Risk Factors

Trading volumes and settlement periods may restrict liquidity in debt investments. Investment in Debt is subject to price, credit, and interest rate risk. The NAV of the Scheme may be affected, inter alia, by changes in the market conditions, interest rates, trading volumes, settlement periods and transfer procedures. The NAV may also be subjected to risk associated with tracking error. Risks associated with underlying schemes, including performance of their underlying securities will be applicable. Past performance may or may not be sustained in future and is not a guarantee of any future returns.

Please refer to Scheme Information Document available on our website (www.barodabnp-paribas-mf.in) for detailed Risk Factors, assets allocation, investment strategy etc.

Product Labelling

Baroda BNP Paribas Short Duration Fund

(An open-ended short term debt scheme investing in instruments such that the Macaulay duration[^] of the portfolio is between 1 year and 3 years. A relatively high interest rate risk and Moderate Credit Risk)

This product is suitable for investors who are seeking*:

- ▶ Regular income over short term.
- ▶ Investment predominantly in Money Market Instruments (i.e. CP/CD) and Short Term Debt Market Instruments.

^{^^}Riskometer For Scheme: basis it's portfolio, [^]Riskometer For Benchmark (CRISIL Short Duration Debt A-II Index): basis it's constituents; as on November 28, 2025

*Investors should consult their financial advisers if in doubt about whether the product is suitable for them.

[^]Concept of Macaulay duration:

The Macaulay Duration is a measure of a bond's sensitivity to interest rate changes. It is expressed in annual terms. It is the weighted average term to maturity of the cash flows from a bond. The weight of each cash flow is determined by dividing the present value of the cash flow by the price. Factors like a bond's price, maturity, coupon, yield to maturity among others impact the calculation of Macaulay duration.

Baroda BNP Paribas Corporate Bond Fund

(An Open ended Debt Scheme predominantly investing in AA+ and above rated corporate bonds. A relatively high interest rate risk and moderate credit risk scheme)

This product is suitable for investors who are seeking*:

- ▶ Capital appreciation and regular income in long term.
- ▶ Investment primarily in AA+ and above rated corporate bonds and the rest in debt and money market instruments.

^{^^}Riskometer For Scheme: basis it's portfolio, [^]Riskometer For Benchmark (CRISIL Corporate Debt A-II Index): basis it's constituents; as on November 28, 2025

*Investors should consult their financial advisers if in doubt about whether the product is suitable for them.

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.
