*The scheme is a 'Transferee Scheme', and accordingly, the ratios are being provided considering the weighted average NAVs of both the Transferor Scheme and Transferee Scheme.

*Monthly AAUM and AUM - Excluding inter-scheme Investments, if any, by other schemes of Baroda BNP Paribas Mutual Fund, as may be applicable.

Data as on August 31, 2025

ABOUT THE FUND

- Baroda BNP Paribas India Consumption Fund is an open-ended thematic equity scheme following consumption theme
- The Scheme intends to invest in secular growth stories aided by rising aspirations, high income levels, high working age population, digital influence, financialisation, policy reforms and urbanisation to name a few. We believe the broader consumption theme is likely to deliver growth from a long-term perspective and is the structural story of India.
- The focus is on companies having strong competitive advantage, with high earnings visibility over the long run. These are businesses which tends to interact directly with their consumers, i.e., following primarily a B2C (business-to-consumer) model
- The Scheme invests across market capitalization viz. large, mid and small cap and follows a pure bottom-up stock picking approach
- The Scheme is suitable for investors who have a long-term investment horizon.

CONSUMPTION DRIVERS

PORTFOLIO POSITIONING

- We have exposure to consumer-facing companies in the Auto, FMCG, Building Materials and Retail that we believe have good growth potential. We believe that consumer space is well poised for a secular growth in India as the country moves up from current per capita income of US\$3,000 leading to inflection points in several consumption categories.
- We are overweight on Consumer staples. We have increased our weightage in both consumer discretionary and consumer staples. We have increased weightage in consumer discretionary space.
- Consumption remains a secular investment theme on the back of improving per capita income within the country.
 - The scheme has a mix of mid and small cap companies (31%) along with select large cap companies (63%) believed to be having stable and healthy cash flows. Our exposure to mid and small cap names is largely companies, which we believe have strong balance sheets, cash flows, leadership position in sector and strong track record. (Exposure as % of net assets as August 31, 2025)

Data as on August 31, 2025

Together for more

Income Distribution cum Capital Withdrawal (IDCW) HISTORY (Regular Plan - IDCW Option)

Record Date	Distribution Rate Per Unit (₹) Individual/others	CumIDWC NAV (₹)
27-Mar-23	1.37	17.03
27-Mar-24	1.91	21.73
27-Mar-25	1.93	21.81

Last 3 IDCW declared for IDCW option

Pursuant to distribution under Income Distribution cum Capital Withdrawal ('IDCW') option, NAV of the IDCW option of the scheme(s) would fall to the extent of pay-out and statutory levy (if applicable). The amounts under IDCW options can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains. Past performance may or may not be sustained in future and is not a guarantee of any future returns. The above stated distribution rate per unit is net distribution rate after deducting applicable taxes. The above distribution rates are on face value of Rs 10 per unit. Face value may change depending upon FV of the scheme.

DISCLAIMERS

Key Statistical Ratios - The information contained in this report has been obtained fromsources considered to be authentic and reliable. This quantitative data does not purport to be an offer for purchase and sale of mutual fund units. The Standard Deviation is used to measure the volatility of returns. Sharpe Ratio is the measure of the risk - adjusted performance. Beta is the measure of the portfolio's volatility to its respective benchmark. The risk free rate of return considered for calculation of Sharpe ratio is 5.54%, as per 1 day MIBOR rate on the last business day of the month. Sharpe ratio, Volatility/Standard deviation is annualised based on 36 monthly data points. Beta is based on last 36 monthly data points. Information ratio aims to show consistency in generating excess returns relative to benchmark, which is measured by the tracking error. Tracking error is the measure of the deviation from the benchmark.

Market Capitalization as per SEBI - Large Cap: 1st - 100th company, Mid Cap: 101st - 250th company and Small Cap: 251st company onwards in terms of full market capitalization

Portfolio Positioning, Top 10 Sectors/Stocks – details contained herein is for general information purposes only and does not indicate assurance of future Scheme performance. The sector(s)/stock(s) mentioned in this document do not constitute any recommendation of the same and Baroda BNP Paribas Mutual Fund may or may not have any future position in these sector(s)/stock(s). Further, the portfolio of the Scheme is subject to changes within the provisions and limitations of Scheme Information Document (SID). For further details on asset allocation, investment strategy and risk factors of the Scheme please refer to SID available on our website (www.barodabnpparibasmf.in).

NAV Movement (Rs. 10,000 Invested at Inception) - All returns are for Regular Plan - Growth Option. Past performance may or may not be sustained in future and is not a guarantee of any future returns. Returns do not take into account the load, if any.

SIP Performance - Returns do not take into account the load and taxes, if any. The data assumes investments in Regular Plan - Growth option. % CAGR Returns are computed after accounting for the cash flow by using the XIRR method (investment internal rate of return). the above investment simulation is for illustrative purpose only and should not be construed as a promise on minimum returns and safeguard of capital. the AMC/ Mutual fund is not guaranteeing or forecasting or promising any return. SIP does not assure a profit or guarantee protection against loss in a declining market

The risks associated with investments in equities include fluctuations in prices, as stock markets can be volatile and decline in response to political, regulatory, economic, market and stock-specific development etc. Please refer to Scheme Information Document for detailed Risk Factors, asset allocation, investment strategy etc.
