#### Minimum Application Amount:

₹ 5,000 per application and in multiples of ₹ 1 thereafter.

#### Minimum Additional Application Amount:

₹ 1,000 and in multiples of ₹ 1 thereafter.

### Load Structure

**Exit Load:** • If units of the Scheme are redeemed or switched out within 30 days of the date of allotment - 1% of the applicable Net Asset Value (NAV)

• If units of the Scheme are redeemed or switched out after 30 days of allotment - Nil.

For detailed load structure please refer Scheme Information Document of the scheme.

\*The scheme is a 'Transferee Scheme', and accordingly, the ratios are being provided considering the weighted average NAVs of both the Transferor Scheme and Transferee Scheme.

\*Monthly AAUM and AUM - Excluding inter-scheme Investments, if any, by other schemes of Baroda BNP Paribas Mutual Fund, as may be applicable.

## ABOUT THE FUND

- Baroda BNP Paribas Large cap funds typically invest in blue chip companies and market leaders which are expected to generate revenue and earnings due to their established businesses and tenure.
- These companies being seasoned and large corporate houses, are expected to withstand market cycles. Mid or small cap companies do not have the same level of stability and therefore carry a higher degree of risk than large caps.
- Baroda BNP Paribas Large Cap Fund invests predominantly in such large capitalisation companies which has a proven track record of growth in the long term.
- The Scheme intends to be well diversified across sectors and intends to focus on quality names exhibiting sound management and fundamentals with sustainable earnings growth potential.
- The Scheme is suitable for investors who have a long term investment horizon.

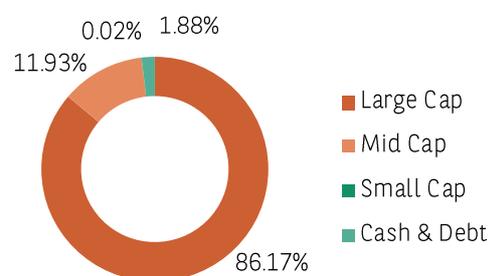

## WHY LARGE CAP?

- Large-cap funds are equity funds that invest in relatively stable companies (top 100 companies listed on the stock exchange).
- Owing to the high degree of stability of the underlying equity stocks, large cap funds have lower risks compared to mid and small caps making them the ideal investment option for both new and seasoned investors.
- Large cap companies are leaders in their respective industries and tend to provide relatively stable returns over longer periods.
- These companies owing to their large capital are likely to pay off debt on time, withstand the market turmoil and have a good debt-to-equity ratio.

## PORTFOLIO POSITIONING

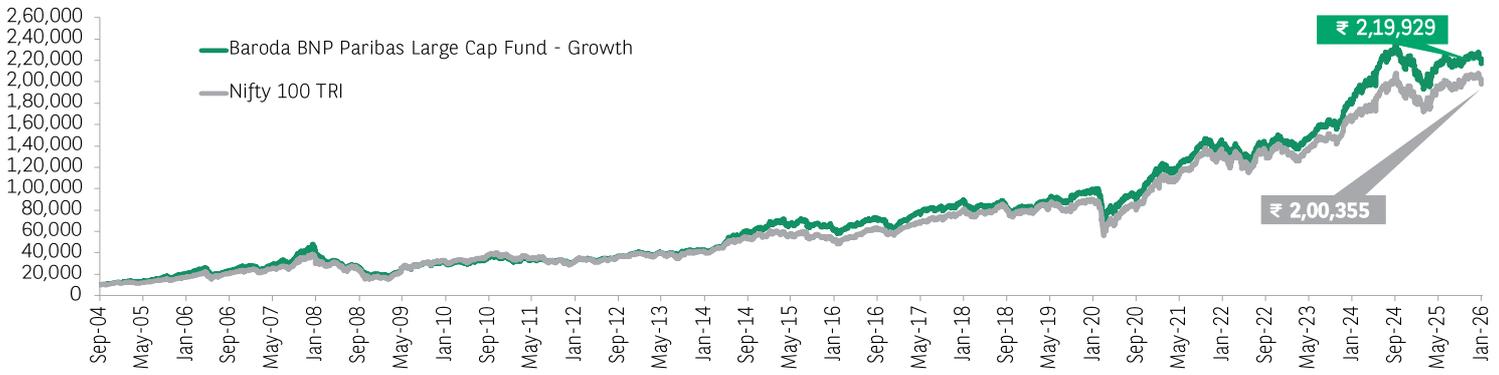

- The frontline large cap indices were down 214bps for the month faring marginally better than the midcap and smallcap indices.
- The fund is currently invested to the tune of ~98% (~100bps higher than the prior month). Large cap exposures spurted ~310bps to 86.2% mainly on account of AMFI reclassification effects as some of the borderline exposures and new listings got tagged as large caps.
- Over January we added to materials & IT exposures (largely USD sensitives). We trimmed on energy and staples (largely by way of a tobacco name).
- We continue to stay overweight on industrials, consumer discretionary and healthcare. We have gone marginally underweight financials now and are underweight energy and materials. However we have cut the magnitude of underweight on materials substantially.

## CURRENT MARKET CAP (% of Net Assets)

Data as on January 30, 2026

## NAV MOVEMENT (₹10,000 Invested at Inception)

NAV & index values re-based to ₹ 10,000 depicting lump sum investment since the inception date of the fund.  
**Past performance may or may not be sustained in future and is not a guarantee of any future returns**  
 The above chart show the NAV movement since inception to January 30, 2026

Data as on January 30, 2026

## Income Distribution cum Capital Withdrawal (IDCW) HISTORY (Regular Plan - IDCW Option)

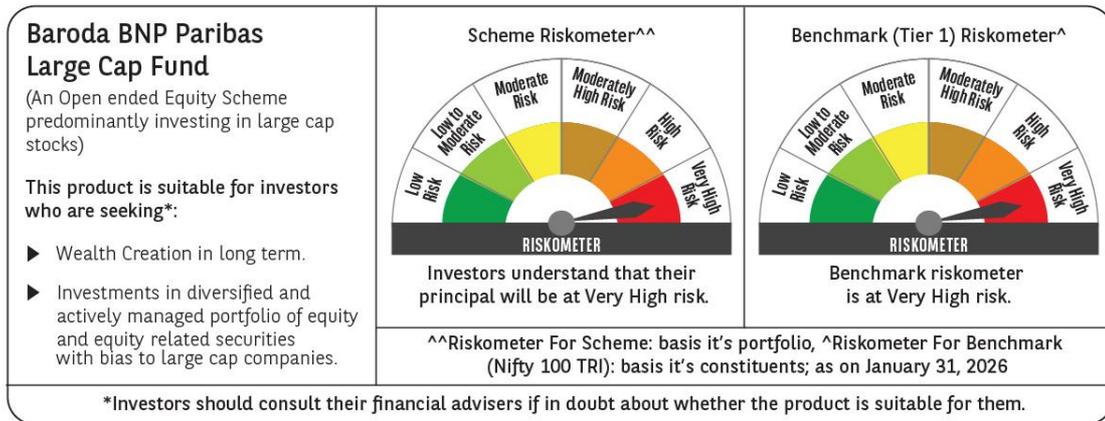

Record Date	Distribution Rate Per Unit (₹) Individual/others	Cum--IDWC NAV (₹)
27-Mar-23	1.53	19.15
27-Mar-24	2.20	25.03
27-Mar-25	2.12	24.28

Last 3 IDCW declared for IDCW option.

Pursuant to distribution under Income Distribution cum Capital Withdrawal ("IDCW") option, NAV of the IDCW option of the scheme(s) would fall to the extent of pay-out and statutory levy (if applicable). The amounts under IDCW options can be distributed out of investors' capital (Equalization Reserve), which is part of sale price that represents realized gains. **Past performance may or may not be sustained in future and is not a guarantee of any future returns.** The above stated distribution rate per unit is net distribution rate after deducting applicable taxes. The above distribution rates are on face value of Rs 10 per unit. Face value may change depending upon FV of the scheme.

## DISCLAIMERS

**# Key Statistical Ratios** - The information contained in this report has been obtained from sources considered to be authentic and reliable. This quantitative data does not purport to be an offer for purchase and sale of mutual fund units. The Standard Deviation is used to measure the volatility of returns. Sharpe Ratio is the measure of the risk - adjusted performance. Beta is the measure of the portfolio's volatility to its respective benchmark. The risk free rate of return considered for calculation of Sharpe ratio is 5.53%, as per 1 day MIBOR rate on the last business day of the month. Sharpe ratio, Volatility/Standard deviation is annualised based on 36 monthly data points. Beta is based on last 36 monthly data points. Information ratio aims to show consistency in generating excess returns relative to benchmark, which is measured by the tracking error. Tracking error is the measure of the deviation from the benchmark.

**Market Capitalization as per SEBI** - Large Cap: 1st - 100th company, Mid Cap: 101st - 250th company and Small Cap: 251st company onwards in terms of full market capitalization

**Portfolio Positioning, Top 10 Sectors/Stocks** - details contained herein is for general information purposes only and does not indicate assurance of future Scheme performance. The sector(s)/stock(s) mentioned in this document do not constitute any recommendation of the same and Baroda BNP Paribas Mutual Fund may or may not have any future position in these sector(s)/stock(s). Further, the portfolio of the Scheme is subject to changes within the provisions and limitations of Scheme Information Document (SID). For further details on asset allocation, investment strategy and risk factors of the Scheme please refer to SID available on our website ([www.barodabnpparibasmf.in](http://www.barodabnpparibasmf.in)).

**NAV Movement (Rs. 10,000 Invested at Inception)** - All returns are for Regular Plan - Growth Option. **Past performance may or may not be sustained in future and is not a guarantee of any future returns.** Returns do not take into account the load, if any.

**SIP Performance** - Returns do not take into account the load and taxes, if any. The data assumes investments in Regular Plan - Growth option. % CAGR Returns are computed after accounting for the cash flow by using the XIRR method (investment internal rate of return). the above investment simulation is for illustrative purpose only and should not be construed as a promise on minimum returns and safeguard of capital. the AMC/ Mutual fund is not guaranteeing or forecasting or promising any return. SIP does not assure a profit or guarantee protection against loss in a declining market.
