₹ 5,000 per application and in multiples of ₹ 1 thereafter.

Minimum Additional Application Amount:
₹ 1,000 and in multiples of ₹ 1 thereafter.

Load Structure

Exit Load: If units of the Scheme are redeemed or switched out up to 10% of the units (the limit) within 12 months from the date of allotment - Nil.
• If units of the scheme are redeemed or switched out in excess of the limit within 12 months from the date of allotment - 1% of the applicable NAV; • If units of scheme are redeemed or switched out after 12 months from the date of allotment - Nil.

For detailed load structure please refer Scheme Information Document of the scheme.

*The scheme is a 'Transferee Scheme', and accordingly, the ratios are provided considering the weighted average NAVs of both the Transferor Scheme and Transferee Scheme.

*Monthly AAUM and AUM - Excluding inter-scheme Investments, if any, by other schemes of Baroda BNP Paribas Mutual Fund, as may be applicable.

ABOUT THE FUND

- Baroda BNP Paribas Mid Cap Fund invests predominantly in mid-capitalization companies with high growth potential.
- Mid cap companies are uniquely positioned between small developing companies and large mature companies. They are often in the "growth" phase of the business life cycle where they may be experiencing higher cash flows and earnings growth rates.
- Midcaps typically comes with a combination of elevated risk and substantial growth potential during the growth stage. They tend to be more volatile than large caps but less than small caps.
- The mid cap space remains attractive for investments owing to presence of new businesses and growth opportunities in sunrise industry, i.e., businesses or sectors in its infancy but with the potential of a rapid boom.
- The stock selection is inclined towards companies that are led by a dynamic management style and entrepreneurial flair. The focus is on growth stocks that may do well in the future and on alpha generation through a bottom-up stock picking approach.
- The Scheme is suitable for investors who have a long term investment horizon.

PORTFOLIO POSITIONING

- Domestic facing sectors like Healthcare, Consumer Staples and Consumer discretionary are key overweight sectors. Healthcare sector continues to be in a sweet spot with consistent growth across sub sectors like domestic pharma, international pharma and hospitals. Valuations have become attractive in staples space as well as we are likely to witness growth revival. With normal monsoons, we expect discretionary consumption to start seeing uptick as well.
- We are underweight on Financials Utilities and Materials. Most of our underweight in Financials comes from capital markets sub-sector where we are cautious at this point of time. Within materials, our underweight in materials emanates from chemicals space where we are still looking out for turnaround, even though some initial green shoots are visible. Our underweight stance in Utilities emanates from current volatility in energy prices.
- The allocation to small cap companies is at 12.1% while allocation to large cap companies is at 6.8%. Exposure to mid-cap companies is at 76%. We have decreased our cash holding to 5.1%. (Exposure as % of net assets as on July 31, 2025).
- Within the midcap universe, our focus is on identifying companies with sustainable earnings growth, leading market share, better return ratios and healthy cash flows as well as on having a blend of companies with healthy balance sheets and attractive valuations going through a favourable cycle.

Data as on July 31, 2025

Income Distribution cum Capital Withdrawal (IDCW) HISTORY (Regular Plan - IDCW Option)

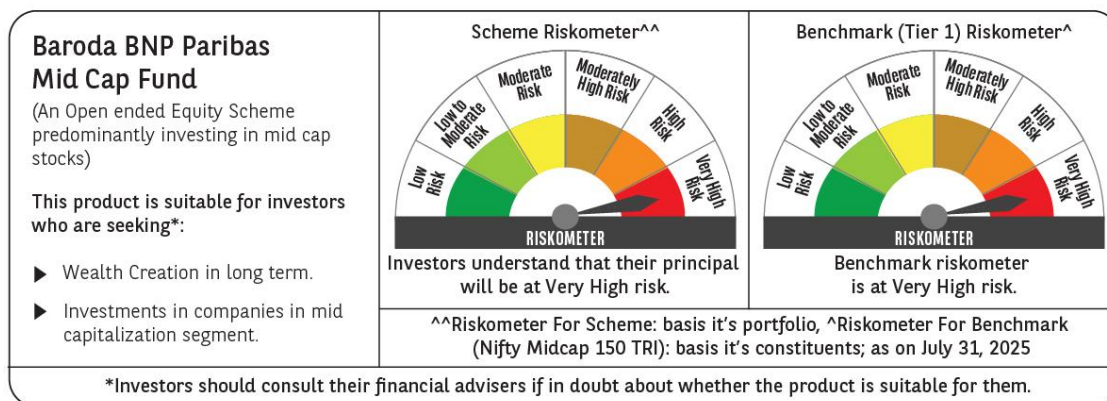

Record Date	Distribution Rate Per Unit (₹) Individual/others	Cum--IDWC NAV (₹)
27-Mar-23	3.39	41.85
27-Mar-24	4.98	57.38
27-Mar-25	5.09	57.78

Last 3 IDCW declared for IDCW option.

Pursuant to distribution under Income Distribution cum Capital Withdrawal ("IDCW") option, NAV of the IDCW option of the scheme(s) would fall to the extent of pay-out and statutory levy (if applicable). The amounts under IDCW options can be distributed out of investors' capital (Equalization Reserve), which is part of sale price that represents realized gains. **Past performance may or may not be sustained in future and is not a guarantee of any future returns.** The above stated distribution rate per unit is net distribution rate after deducting applicable taxes. The above distribution rates are on face value of Rs 10 per unit. Face value may change depending upon FV of the scheme.

DISCLAIMERS

Key Statistical Ratios - The information contained in this report has been obtained from sources considered to be authentic and reliable. This quantitative data does not purport to be an offer for purchase and sale of mutual fund units. The Standard Deviation is used to measure the volatility of returns. Sharpe Ratio is the measure of the risk - adjusted performance. Beta is the measure of the portfolio's volatility to its respective benchmark. The risk free rate of return considered for calculation of Sharpe ratio is 5.54%, as per 1 day MIBOR rate on the last business day of the month. Sharpe ratio, Volatility/Standard deviation is annualised based on 36 monthly data points. Beta is based on last 36 monthly data points. Information ratio aims to show consistency in generating excess returns relative to benchmark, which is measured by the tracking error. Tracking error is the measure of the deviation from the benchmark.

Market Capitalization as per SEBI - Large Cap: 1st - 100th company, Mid Cap: 101st - 250th company and Small Cap: 251st company onwards in terms of full market capitalization

Portfolio Positioning, Top 10 Sectors/Stocks - details contained herein is for general information purposes only and does not indicate assurance of future Scheme performance. The sector(s)/stock(s) mentioned in this document do not constitute any recommendation of the same and Baroda BNP Paribas Mutual Fund may or may not have any future position in these sector(s)/stock(s). Further, the portfolio of the Scheme is subject to changes within the provisions and limitations of Scheme Information Document (SID). For further details on asset allocation, investment strategy and risk factors of the Scheme please refer to SID available on our website (www.barodabnp-paribasmf.in).

NAV Movement (Rs. 10,000 Invested at Inception) - All returns are for Regular Plan - Growth Option. **Past performance may or may not be sustained in future and is not a guarantee of any future returns and is not a guarantee of any future returns** Returns do not take into account the load, if any.

SIP Performance - Returns do not take into account the load and taxes, if any. The data assumes investments in Regular Plan - Growth option. % CAGR Returns are computed after accounting for the cash flow by using the XIRR method (investment internal rate of return). the above investment simulation is for illustrative purpose only and should not be construed as a promise on minimum returns and safeguard of capital. the AMC/ Mutual fund is not guaranteeing or forecasting or promising any return. SIP does not assure a profit or guarantee protection against loss in a declining market.

The risks associated with investments in equities include fluctuations in prices, as stock markets can be volatile and decline in response to political, regulatory, economic, market and stock-specific development etc. Please refer to Scheme Information Document for detailed Risk Factors, asset allocation, investment strategy etc.
