*Monthly AAUM and AUM - Excluding inter-scheme Investments, if any, by other schemes of Baroda BNP Paribas Mutual Fund, as may be applicable

Data as on March 31, 2025

ABOUT THE FUND

- The scheme intends to seek long term capital growth by investing in equity and equity related securities, debt & money market instruments, REITs / InvITS and Gold ETF.
- The scheme intends to give access to multiple asset classes, which saves the hassle of investing, tracking and maintaining investments in multiple strategies / funds.
 - a. Investing in Equities aim to provide Capital Appreciation, build wealth in the long term and helps to meet long term financial goals of an investor.
 - b. Investing in fixed income asset class aims to help with income generation and help to mitigate the volatility of the equity market by diversifying in fixed income instrument.
 - c. Gold is an international asset class and may help with growth in the long run. It is used to hedge against inflation and the adverse impact of geo-political events.
- Due to the unique characteristics of each asset class, each of them is suited for a different but complementary role in the portfolio.

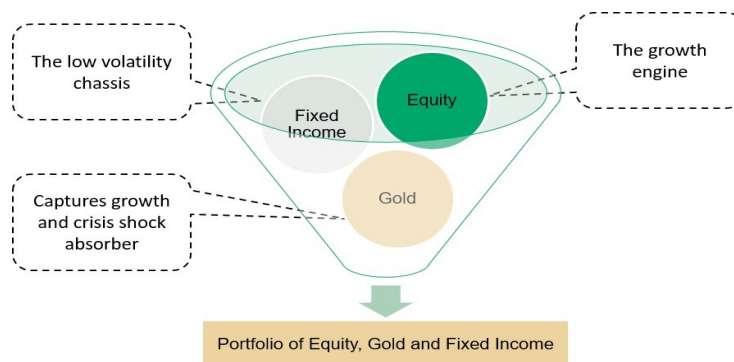

PORTFOLIO POSITIONING

Equity

- Over the past 1 year, Gold is up nearly 32% for FY25 versus a 6.4% return for the NSE200 TRI. The month of March-25 also saw an upside of ~5% on gold partly tempered by the appreciation of the INR versus the USD. We continue to be near the top end of our 14-16% band on gold exposure at this point of time (~15.6%).
- Our near-term preference for large caps is reflected here as well with ~82.6% of the equity exposure in large caps (up 60bps). The bounce in equity in March-25 resulted in equity now being placed at 69.2% (Up ~60bps). REIT's & INVIT's account for ~1.3%.
- Over the course of the month, we added to weights on industrials & telecoms. A reduction in IT weights broadly funded this increase. We continue to reduce our underweight on financials and are now closer to Neutral stance there. We continue to be marginally overweight industrials & IT sectors here.

Debt

- US is Going to announce their plans on reciprocal tariff globally next month.
- Gold prices have reached an all-time high of \$3,150 per ounce, there is a tremendous demand globally in gold over the uncertainty on the trade and tariff implications.
- Trade and geopolitical tensions have kept the global markets volatile.
- We have allocated a small amount in AAA REITS and INVITS with an intention to generate alpha over debt returns from a medium-term perspective.
- The scheme invested in short-to-medium-term corporate bonds and G-sec of various tenors
- The intend to maintain the duration of 2.25-3.25 according to current interest rates view.
- The scheme remains open to taking tactical duration calls.
