*Monthly AAUM and AUM - Excluding inter-scheme Investments, if any, by other schemes of Baroda BNP Paribas Mutual Fund, as may be applicable

Data as on January 30, 2026

ABOUT THE FUND

- The scheme intends to seek long term capital growth by investing in equity and equity related securities, debt & money market instruments, InVITs and Gold ETF.
- The scheme intends to give access to multiple asset classes, which saves the hassle of investing, tracking and maintaining investments in multiple strategies / funds.
 - Investing in Equities aim to provide Capital Appreciation, build wealth in the long term and helps to meet long term financial goals of an investor.
 - Investing in fixed income asset class aims to help with income generation and help to mitigate the volatility of the equity market by diversifying in fixed income instrument.
 - Gold is an international asset class and may help with growth in the long run. It is used to hedge against inflation and the adverse impact of geo-political events.
- Due to the unique characteristics of each asset class, each of them is suited for a different but complementary role in the portfolio.

PORTFOLIO POSITIONING

Equity

- The multi asset product is currently running a portfolio of ~67.3% equity exposures (lower by ~130bps over the prior month). Large caps account for ~71.5% of the equity component (up ~10bps over December) with the SMID space accounting for the balance.
- As mentioned above, equity declined marginally not because of material selling but because of the parabolic increase in gold prices. The "gold rush" continued on the yellow metal with 1mth/3mth/12mth returns now at a staggering 22.8%/37.1%/102.9% respectively. A small part of this appreciation also came from the weakness of the INR versus the USD. This pushed up the gold exposures to ~16.3% (flat m-o-m despite a large amount of exposure unwinding on our part as we booked part profits into this meteoric rise). INVIT's account for ~46bps of the portfolio.
- Within the equity book the weakness in the USD globally prompted us to add to exposures in IT and metals. We also added to certain exposures in consumer services by trimming some consumer retailing exposures resulting in some increase in our staples weights. We also marginally cut back on consumer discretionary and healthcare by booking some profits though we stay positive on these sectors.
- Debt**
 - The investment objective of the scheme is to seek to generate long term capital growth by investing in equity and equity related securities, debt & money market instruments, InVITs and Gold ETF
 - The fixed income portion intends to keep the duration of the fund in the range of 3.50 years - 4.50 years as per constructive interest rate view.
 - To achieve the same, we have allocated in mix of ~75%-25% strategy in terms of GSEC and Cash: Corporate bond composition.
 - The Fund also intends to maintain its allocation to units of InVits to enhance the potential return of the fund.
 - Further, we will be open to taking tactical duration calls whenever opportunity arises.

SIP PERFORMANCE

Period	Amount Invested (In ₹)	Baroda BNP Multi Asset Fund Reg Plan - Growth		65% of Nifty 500 TRI + 20% of NIFTY Composite Debt Index + 15% of INR Price of Gold
		Returns (% CAGR*)	₹	Returns (% CAGR*)
Since Inception	3,80,000	15.86	4,86,839	17.15
10 Year SIP	N.A.	N.A.	N.A.	N.A.
5 Year SIP	N.A.	N.A.	N.A.	N.A.
3 Year SIP	3,60,000	15.75	4,54,556	17.14
1 Year SIP	1,20,000	18.17	1,31,460	19.40

If the investor had invested ₹ 10,000 on the first working day of every month.

Past performance may or may not be sustained in future and is not a guarantee of any future returns.

Where returns are not available for a particular period, they have not been shown.

*% Compounded Annual Growth Rate (CAGR) Returns are computed after accounting for the cash flow by using the XIRR method

Income Distribution cum Capital Withdrawal (IDCW) HISTORY (Regular Plan - IDCW Option)

Record Date	Distribution Rate Per Unit (₹) Individual/others	Cum--IDWC NAV (₹)
28-Mar-22	0.75	12.30
27-Mar-23	0.83	11.80
27-Mar-25	1.09	13.83

Last 3 IDCW declared for IDCW option.

Pursuant to distribution under Income Distribution cum Capital Withdrawal ("IDCW") option, NAV of the IDCW option of the scheme(s) would fall to the extent of pay-out and statutory levy (if applicable). The amounts under IDCW options can be distributed out of investors' capital (Equalization Reserve), which is part of sale price that represents realized gains. **Past performance may or may not be sustained in future and is not a guarantee of any future returns.** The above stated distribution rate per unit is net distribution rate after deducting applicable taxes. The above distribution rates are on face value of ₹ 10 per unit. Face value may change depending upon Fair Value of the scheme.

DISCLAIMERS

Debt Quants - The information contained in this report has been obtained from sources considered to be authentic and reliable. The quantitative data does not purport to be an offer for purchase and sale of mutual fund units.

Portfolio Positioning, Top 10 Sectors/Stocks - details contained herein is for general information purposes only and does not indicate assurance of future Scheme performance. The sector(s)/stock(s) mentioned in this document do not constitute any recommendation of the same and Baroda BNP Paribas Mutual Fund may or may not have any future position in these sector(s)/stock(s). Further, the portfolio of the Scheme is subject to changes within the provisions and limitations of Scheme Information Document (SID). For further details on asset allocation, investment strategy and risk factors of the Scheme please refer to SID available on our website (www.barodabnp-paribasmf.in).

Market Capitalization as per SEBI - : Large Cap: 1st - 100th company, Mid Cap: 101st - 250th company and Small Cap: 251st company onwards in terms of full market capitalization.

NAV Movement (Rs. 10,000 Invested at Inception) - All returns are for Regular Plan - Growth Option. **Past performance may or may not be sustained in future and is not a guarantee of any future returns** Returns do not take into account the load, if any.

SIP Performance - Returns do not take into account the load and taxes, if any. The data assumes investments in Regular Plan - Growth option. % CAGR Returns are computed after accounting for the cash flow by using the XIRR method (investment internal rate of return), the above investment simulation is for illustrative purpose only and should not be construed as a promise on minimum returns and safeguard of capital. the AMC/ Mutual fund is not guaranteeing or forecasting or promising any return. SIP does not assure a profit or guarantee protection against loss in a declining market

Concept of Macaulay duration - The Macaulay Duration is a measure of a bond's sensitivity to interest rate changes. It is expressed in annual terms. It is the weighted average term to maturity of the cash flows from a bond. The weight of each cash flow is determined by dividing the present value of the cash flow by the price. Factors like a bond's price, maturity, coupon, yield to maturity among others impact the calculation of Macaulay duration. The Macaulay duration can be viewed as the economic balance point of a group of cash flows. Another way to interpret the statistic is that it is the weighted average number of years an investor must maintain a position in the bond until the present value of the bond's cash flows equals the amount paid for the bond. As it provides a way to estimate the effect of certain market changes on a bond's price, the investor can choose an investment that will better meet his future cash needs

The risks associated with investments in equities include fluctuations in prices, as stock markets can be volatile and decline in response to political, regulatory, economic, market and stock-specific development etc. Please refer to Scheme Information Document for detailed Risk Factors, asset allocation, investment strategy etc. The material contained herein has been prepared without regard to the individual financial circumstances and objectives of persons who receive it.
