I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors

- (i) Investments in mutual fund units involves investment risks such as market risk, credit & default risk, liquidity risk, trading volumes, settlement risk, including the possible loss of principal.
- (ii) As the price/ value/ interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down. The various factors which impact the value of the scheme's investments include, but are not limited to, fluctuations in the stock markets, bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the companies and issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes etc.
- (iii) Past performance of the Sponsor/ AMC/ Mutual Fund does not guarantee future performance of the scheme.
- (iv) Baroda BNP Paribas Nifty SDL December 2026 Index Fund is the name of the scheme and does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- (v) The sponsor / associates are not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 10,00,000/- (Rupees Ten lakhs only) to the corpus of the Mutual Fund made by it towards setting up the Fund.
- (vi) The present scheme is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors

The Scheme specific risk factors are summarized as follows:

Risks associated with investing in fixed income securities:

- **Credit and Counterparty risk:** Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security or honor its contractual obligations).

Counterparty risk refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty to which the scheme has exposures. Losses can occur in particular for the settlement/delivery of financial instruments or the conclusion of financial derivatives contracts.

The value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit and counterparty risk as well as any actual event of default. Changes in financial conditions of an issuer, changes in economic and political conditions in general, or changes in economic or and political conditions specific to

an issuer, all of which are factors that may have an adverse impact on an issuer's credit quality and security value.

- **Liquidity Risk:** The liquidity of the scheme's investment is inherently restricted by trading volumes in the securities in which the scheme invests.

A lower level of liquidity affecting an individual security or an entire market at the same time, may have an adverse bearing on the value of the scheme's assets. More importantly, this may affect the Fund's ability to sell particular securities quickly enough to minimise impact cost, as and when necessary to meet requirements of liquidity or to sell securities in response to triggers such as a specific economic/corporate event.

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of a few or all of the investments and may affect the liquidity of the investments of the scheme.

The scheme may be unable to implement purchase or sale decisions when the markets turn illiquid, missing some investment opportunities or limiting ability to face redemptions. The lack of liquidity could also lead to the risk that the sale price of a security could be substantially lower than the fair value of the security.
- **Interest Rate Risk & Re-investment Risk:** The value of an investment may be affected by interest rate fluctuations. Interest rates may be influenced by several elements or events, such as monetary policy, the discount rate, inflation, etc. The value of debt and fixed income securities held by the Scheme generally will vary inversely with the changes in prevailing interest rates. In general, price of debt and fixed income securities go up when interest rates fall, and vice versa. Securities of any issuer that has higher duration could be more risky in terms of price movements relative to those with lower duration. Thus any impact of interest rate changes would be higher on securities with higher duration irrespective of the status of the issuer of the security. The investments made by the Scheme are subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Sovereign risk:** The Central Government of India is the issuer of the local currency debt in India. The Government raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since payment of interest and principal amount has a sovereign status implying least probability of a default, such securities are known as securities with sovereign credit. It also implies that the credit risk on such Government securities is even lower than that on non-government securities with "AAA" rating and hence yields on government securities are even lower than yields on non-government securities with "AAA" rating.
- **Concentration Risk:** The Scheme may pursue only a limited degree of diversification. It may invest in a limited number of securities or invest a greater proportion of assets in the securities of very few issuers (within the limits permitted by regulation) or be concentrated on a few market sectors as compared to a diversified scheme. The scheme is also expected to have higher market liquidity risk on account of concentration. This could have implications on the performance of the scheme. The scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the scheme.

Risk associated with investment in Government securities and Triparty repo on Government securities or treasury bills:

- The mutual fund is a member of securities segment and Triparty repo on Government securities or treasury bills trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Triparty repo on Government securities or treasury bills trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counter party risks considerably for transactions in the said segments.
- The members are required to contribute towards margin obligation (Initial / Mark to Market etc.) as per bye-laws of CCIL as also an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in discharging their obligation. As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members as determined by CCIL.
- Thus, the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).
- CCIL maintains two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty repo on Government securities or treasury bills trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, if the contribution of the mutual fund is called upon to absorb settlement/ default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

Tracking Error Risk:

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance and changes to the underlying index and regulatory restrictions, lack of liquidity which may result in Tracking Error. Hence it may affect AMC's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible.

Tracking errors are inherent in any index fund and such errors may cause the scheme to generate returns which are not in line with the performance of the NIFTY SDL December 2026 Index or one or more securities covered by / included in the NIFTY SDL December 2026 Index and may arise from a variety of factors including but not limited to:

1. Any delay in the purchase or sale of securities due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of dividend, etc.
2. The index reflects the prices of securities at a point in time, which is the price at close of business day on the stock exchange. The scheme, however, may trade the securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of each scrip on that day on the respective stock exchange. In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from the closing price considered in the Index.
3. NSE Indices Limited undertakes periodic reviews of the securities that are represented in the NIFTY SDL December 2026 Index and from time to time may exclude existing securities or include new ones. In such an event, the scheme will reallocate its portfolio to mirror the changes. However, there allocation process may not occur instantaneously and may not permit precise mirroring of the NIFTY SDL December 2026 Index during this period.
4. The potential of trades to fail may result in the scheme not having acquired the security at the price necessary to mirror the index.
5. Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.
6. Being an open ended scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet on going redemptions.
7. The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to circuit filters in the securities, liquidity and volatility in security prices.

The Scheme will disclose the tracking error based on past one year rolling data, on a daily basis, on the website of AMC and AMFI. In case the Scheme has been in existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data.

Tracking Difference: The tracking difference i.e. the annualized difference of daily returns between the index and the NAV of the Scheme will be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units.

The annualized tracking difference averaged over one year period shall not exceed 1.25%. In case the average annualized tracking difference over one year period for the Scheme is higher than 1.25%, the same will be brought to the notice of trustees with corrective actions taken by the AMC, if any.

Passive Investments:

The Scheme is not actively managed. Since the Scheme is linked to index, it may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

Risk factors associated with processing of transaction in case of investors investing in mutual fund units through Stock Exchange Mechanism

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognized stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing / settlement, etc. upon which the Fund and the AMC have no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s) upon which the Fund and the AMC have no control. Accordingly, there could be negative impacts to the investors such as delay or failure in allotment / redemption of Units. The Fund and the AMC are not responsible for the negative impacts.

Risk Management:

In accordance with SEBI & AMFI guidelines (issued from time to time), the AMC has implemented the following measures to manage various risk in the schemes.

Potential Risk Matrix:

The Potential Risk Class Matrix reflects the maximum risk fund manager can take in the scheme in terms of maximum interest rate risk (measured by Macaulay duration of scheme) and maximum credit risk (measured by Credit Risk value of the scheme). The threshold for

values of interest rate risk & credit risk would determine the maximum risk the scheme can take.

i. Maximum Weighted Average Interest Rate Risk of the scheme (measured in terms of Macaulay Duration):

1. Class I: MD ≤ 1 year;
2. Class II: MD ≤ 3 years;
3. Class III: Any Macaulay duration

ii. Maximum Weighted Average Credit Risk of the scheme (measured in terms of Credit Risk Value assigned to each security in portfolio):

1. Class A: CRV ≥ 12
2. Class B: CRV ≥ 10
3. Class C: CRV < 10

Liquidity Risk Management Framework: It takes into account the Liquidity Risk arising from the liability side & covers all potential liquidity risk scenarios upto 99% confidence interval. Two types of liquid assets shall be maintained by Open ended debt schemes. Both these ratios are calculated & liquid assets are maintained on a daily basis at a scheme level for all open-ended debt schemes (except Overnight Fund, Gilt Fund and Gilt Fund with constant duration). In the case where liquid assets in a scheme fall below the minimum required threshold then portfolio manager cannot buy any other assets apart from liquid assets till time the liquid assets are replenished, as per the SEBI guidelines.

Stress Testing: Stress testing in open-ended debt schemes addresses the asset side risk from an Interest Rate Risk, Credit Risk & Liquidity Risk perspective at an aggregate portfolio level in terms of its impact on Net Asset Value of the scheme. The AMC conducts Stress testing for all open-ended debt schemes (except overnight Fund) on a fortnightly basis. The model portfolio for each category of fund is defined. In case the stress in the actual portfolio is greater than stress in model portfolio then corrective action is taken within the defined timeline.

Asset Liability Mismatch: The AMC monitors the Asset Liability Mismatch (ALM) requirement which address potential liquidity risk. The liability side covers all possible outflow scenarios with a 95% confidence interval over 90 days period. The asset side is rigoured based on Risk-o-meter liquidity scores in an exponential manner, to penalize assets with higher Risk-o-meter scores more than proportionately. With the above liquidity management tools, the redemption risk in the scheme can be addressed to a certain extent. However, for extraneous scenarios like 2008- financial crisis, 2019 covid crisis, or during market dislocation a swing pricing mechanism has been introduced at industry level which covers all types of investors (existing, new & outgoing investors).

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the scheme. However, if such limit is breached during the NFO of the scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the scheme complies with these two conditions. In case the scheme does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the Regulations would become applicable automatically without any reference from SEBI and accordingly the scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25 %

limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the scheme on the applicable Net Asset Value on the 15th day of the notice period. The scheme shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS

1. From time to time, the sponsor, their affiliates, associates, subsidiaries, the Mutual Fund and the AMC may invest directly or indirectly in the Scheme. These entities may acquire a substantial portion of the Scheme's units and collectively constitute a major investor in the Scheme. The Trustee, AMC, Mutual Fund, their directors, officers or their employees shall not be liable for any such tax consequences that may arise.

In view of the above, the Trustee has the right, in its sole discretion, to limit Redemptions (including suspending Redemptions) under certain circumstances, as described under the section pertaining to 'Restriction of Repurchase/Redemption under the Scheme'.

ABOUT FATCA and CRS DISCLOSURE - Foreign Account Tax Compliance Act

India and US have signed an agreement on July 9, 2015 on the terms of an Inter-Governmental Agreement ("IGA") to implement Foreign Accounts Tax Compliance Act ("FATCA"). Further, the Organization of Economic Development ("OECD") along with G-20 countries has released a 'Standard for Automatic Exchange of Financial Account Information in Tax Matters' commonly known as Common Reporting Standard ('CRS'). India is amongst the first signatories to the Multilateral Competent Authority Agreement ("MCAA") for the purposes of CRS.

The AMC/Mutual Fund is classified as "Foreign Financial Institution" under the FATCA provisions. The intention of FATCA is that the details of U.S. investors holding assets outside the U.S. will be reported by financial institutions to the United States Internal Revenue Service (IRS), as a safeguard against U.S. tax evasion. As a result of FATCA, and to discourage non-U.S. financial institutions from staying outside this regime, financial institutions that do not enter and comply with the regime will be subject to a 30% withholding tax with respect to certain U.S. source income. Under the FATCA regime, this withholding tax applies to payments that constitute interest, dividends and other types of income from the US sources.

The AMC/Mutual Fund would be required to collect relevant information(s) from the investors towards FATCA / CRS compliance and report information on the holdings or investment to the relevant authorities as per the stipulated timelines. The information disclosed may include (but is not limited to) the identity of investors and their direct or indirect beneficiaries, beneficial owners and controlling persons

The FATCA requirements are effective from July 1, 2014. Investors can get more details on FATCA requirements at <http://www.irs.gov/Business/Corporations/Foreign-Account-Tax-Compliance-Act-FATCA>.

It may be noted that cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. The Scheme shall replicate the underlying debt index subject to the requirements as specified under para 12.18 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023. No single issuer limit shall be applicable for an index based on G-Sec and SDLs.

The scheme will not invest in derivatives, securitized debt instruments, repo/reverse repo transactions in corporate debt securities, unrated debt instruments, debt instruments having Structured Obligations / Credit Enhancements, Credit Default Swaps, REITs and InvITs and debt instruments with special features as prescribed under para 12.2 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

According to Para 12.16 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023), pending deployment of funds of the Scheme in securities in terms of investment objective of the Scheme, the Mutual Fund may invest the funds of the Scheme in short term deposits of scheduled commercial banks subject to restrictions laid down under the SEBI Regulations from time to time.

It may be noted that AMC has to adhere to the asset allocation pattern indicated in the Scheme Information Document under normal circumstances.

Portfolio rebalancing

As per para 3.5.4.3 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, portfolio with residual maturity of up to 5 years shall be considered to be replicating the index if, the deviation in duration is either +/- 3 months or +/- 10% of duration, whichever is higher. However, at no point of time, the residual maturity of the security forming part of the portfolio shall be beyond the target maturity date of the Scheme.

Further, the AMC would monitor that the annualized tracking difference averaged over one year period does not exceed 1.25%. In case the average annualized tracking difference over one year period for the Scheme is higher than 1.25%, the same shall be brought to the notice of trustees with corrective actions taken by the AMC, if any.

Any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

Portfolio rebalancing in case of deviation from asset allocation under Defensive consideration:

The scheme shall rebalance the portfolio in case of any deviation to the asset allocation as per Para 1.14.1.2 (b) of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023. Such rebalancing shall be done within 7 days from the date of occurrence of deviation. In the event of the scheme not being rebalanced within the aforesaid period, justification for the same shall be placed before Investment Committee of the AMC and reasons for the same shall be recorded in writing. Investment Committee shall then decide on the course of action and may suggest rebalancing of the portfolio. However, at all times the AMC shall ensure that the portfolio would adhere to the overall investment objective of the scheme.

Tracking Error

While the objective of the Scheme is to track the index, the performance may not be commensurate with the performance of the Nifty SDL December 2026 Index on any given day or over any given period. Such variations are commonly referred to as the tracking error. Tracking errors may result from a variety of factors including but not limited to:

- Any delay experienced in the purchase or sale of securities due to illiquidity of the market, settlement and realisation of sale proceeds and / or the registration of any securities transferred and resulting delays in reinvesting them.
- The Nifty SDL December 2026 Index reflect the prices of securities at close of business hours.
- However, the Scheme may buy or sell the securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices considered in the Index.
- NSE Indices Limited undertakes the periodical review of the scrips that comprise the Nifty SDL December 2026 Index and may either exclude or include new securities. In such an event, the Scheme will reallocate its portfolio but the available investment/ disinvestment

opportunities may not permit precise mirroring of the Nifty SDL December 2026 Index in a short period of time.

- The charging of expenses to the Scheme including investment management fees and custodian fees.
- The potential for trades to fail, which may result the Schemes not having acquired shares at a price necessary to track the index.
- The holding of a cash position and accrued income prior to distribution and accrued expenses.
- Disinvestments to meet redemptions, recurring expenses, payout of IDCW etc.

The Scheme will disclose the tracking error based on past one year rolling data, on a daily basis, on the website of AMC and AMFI. In case the Scheme has been in existence for a period of less than one year, the annualized standard deviation will be calculated based on available data.

How are the schemes different from one another?

Baroda BNP Paribas Nifty SDL December 2026 Index Fund is an open-ended Target Maturity Index Fund replicating / tracking the NIFTY SDL December 2026 Index. Baroda BNP Paribas Mutual Fund does not have any other Index Fund.

For further details on asset allocation and investment pattern and investment strategy of each of the above schemes, please refer to the Scheme Information Document of the respective scheme.

E. WHAT ARE THE INVESTMENT STRATEGIES?

The scheme is a target maturity index fund tracking the Nifty SDL December 2026 Index. The Scheme will be passively managed employing an investment strategy that tracks the performance of the underlying index, subject to tracking error. Normally, the fund would buy and hold the securities till maturity, in line with the maturity of the index. However, this would be subject to any selling to meet redemption requirements or re-balancing the portfolio.

The Scheme may or may not hold all of the eligible securities which are part of the Index, subject to suitability and availability of the eligible securities from time to time.

During the 6 months prior to the maturity of the Scheme, the Fund Manager will endeavor to replicate the index. However, where the same is not possible, the Scheme will invest as follows:

- The Scheme will invest in any other security of the same issuer maturing on or before the maturity date of the Index
- In case the above mentioned option is not available then the proceeds shall be invested in T-bills having the maturity date less than the maturity date of the Scheme.
- If T-bills are also not available the proceeds shall be invested in TREPS

During normal circumstances, the Scheme's exposure to money market instruments will be in line with the asset allocation table. However, in case of maturity of securities in the Scheme portfolio, the reinvestment will be in line with the index methodology.

As per para 3.5.4.3 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, portfolio with residual maturity of up to 5 years shall be considered to be replicating the index if, the deviation in duration is either +/- 3 months or +/- 10% of

duration, whichever is higher. However, at no point of time, the residual maturity of the security forming part of the portfolio shall be beyond the target maturity date of the Scheme.

The annualized tracking difference averaged over one year period shall not exceed 1.25% upon completion of 1 year.

Tracking error /Tracking Difference could be the result of a variety of factors including but not limited to:

- Delay in the purchase or non-availability of securities which are part of the Index
- Due to timing of transactions either on RFQ platforms or in open market
- Due to investment in out of index investments or where available funds may not be invested at all times as the Scheme may keep a portion of the funds in cash to meet Redemptions, or corporate actions or otherwise.
- Expenditure incurred by the Fund.
- Issuers/Issuances which do not form part of the underlying Index.
- Due to over-weight / under-weight investment in issuances which are part of the Index
- Due to mismatch in the weight of the issuers forming part of the Index and the Scheme throughout life of the Scheme.
- As permitted under the Asset Allocation pattern upto 5% of the Total Assets may be invested in money market instrument.
- Difference in valuation of underlying securities by the Index Provider and AMC's valuation providers.

Risk control measures

Investments made by the Scheme would be in accordance with the investment objective of the Scheme and the provisions of the SEBI (MF) Regulations. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. While allocating and choosing securities, the Investment Manager will aim to diversify by gaining broad exposure to different industries and companies in order to reduce risk.

Risk Mitigation Measures:

The Scheme will invest in SDLs which are constituents of the underlying Index viz. NIFTY SDL December 2026 Index. Based on the availability of issuances, it is expected that the portfolio allocation could be different than that of underlying index allocation and could result in Tracking Error. That said, broad risk parameters of the portfolio of the Scheme such as credit rating, weighted average YTM, weighted average maturity, asset allocation etc. are expected to be similar to the Underlying Index.

The Scheme's exposure to money market instruments will be in line with the asset allocation table.

This allocation will be monitored periodically, and it shall be ensured that investments are made in accordance with the Scheme objective and within the regulatory and internal investment restrictions prescribed from time to time.

Since disciplined investing requires risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The Scheme has a detailed

SCHEME INFORMATION DOCUMENT

process to identify, measure, monitor and manage various portfolio risks. The objective is to understand these risks and mitigate them wherever possible.

Further, the AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. There is a Board level Risk Management Committee which reviews overall risk management function.

Risk & Description specific to the Scheme	Risk mitigants / Management Strategy
Market/Volatility Risk: Risk arising due to price fluctuations and volatility, having material impact on the overall returns of the Scheme.	The Scheme, being a Target Maturity Date index fund structure, is expected to follow a Buy and Hold investment strategy in a passive manner. Based on that, we expect to mitigate intermittent price volatility in the underlying assets. Investors who remain invested until the maturity of the Scheme are expected to mitigate market / volatility risk to large extent.
Credit risk: Risk associated with repayment of investment	The Scheme intends to invest in SDLs issued by State governments. SDLs are issued and serviced by the RBI. SDLs are eligible for SLR investments. These bonds are considered safe
Liquidity risk: Risk arising due to inefficient Asset Liability Management, resulting in high impact costs	The Scheme intends to invest in SDLs issued by State governments. In general, SDLs enjoy higher level of secondary market liquidity.

Portfolio turnover

Portfolio turnover is defined as lesser of purchases and sales as a percentage of the average corpus of the Scheme during a specified period of time. Portfolio turnover would depend upon the market conditions such as volatility of the market and inflows/outflows in the scheme. The Scheme is an open ended Scheme with subscriptions and redemptions expected on a daily basis. Hence, it will be difficult to estimate the portfolio turnover with any reasonable amount of accuracy.

Position of debt & money market in India

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The G-Sec market is the oldest and the largest component of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Sec market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Overnight Call
- Tri-party repo on Government Securities or treasury bills (TREPS).
- Repo/Reverse Repo Agreement
- Treasury Bills
- Government securities
- Commercial Paper
- Certificate of Deposit

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as money market instruments, PSU / DFI / corporate paper with a residual maturity of < 1 year, are actively traded and offer a viable investment option. The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

Instruments	Current yield as on October 9th, 2023 (% per annum)
TREPS	6.75-6.80
3M T-Bill	6.85-6.90
1 Y T-Bill	7.10-7.15
10 Y G Sec	7.35-7.40
3M PSU Bank CD	7.15-7.20
3M NBFC CP	7.55-7.60
1 Y PSU Bank CD	7.55-7.60
1 Y NBFC CP	7.80-7.90
1Y Manufacturing Company CP	7.70-7.80
5 Y AAA Institutional Bond	7.75-7.80
10 Y AAA Institutional Bond	7.70-7.75

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro-economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the

macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

PROVISIONS FOR CREATION OF SEGREGATED PORTFOLIO

SEBI has, vide para 4.4 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, permitted creation of segregated portfolio of debt and money market instruments by mutual funds schemes, in order to ensure fair treatment to all investors in case of a credit event and to deal with liquidity risk.

Explanations:

- 1) The term 'segregated portfolio' means a portfolio, comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme.
- 2) The term 'main portfolio' means the scheme portfolio excluding the segregated portfolio.
- 3) The term 'total portfolio' means the scheme portfolio including the securities affected by the credit event.

Creation of segregated portfolio shall be subject to guidelines specified by SEBI from time to time and includes the following:

- 1) Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:
 - a) Downgrade of a debt or money market instrument to 'below investment grade', or
 - b) Subsequent downgrades of the said instruments from 'below investment grade', or
 - c) Similar such downgrades of a loan rating
- 2) In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as mentioned above and implemented at the ISIN level.
- 3) Segregated portfolio of unrated debt or money market instruments may be created only in case of actual default of either the interest or principal amount.
- 4) Creation of segregated portfolio is optional and is at the discretion of the AMC.

The AMC shall inform AMFI immediately about the actual default by the issuer. Upon being informed about the default, AMFI shall immediately inform the same to all AMCs. Pursuant to dissemination of information by AMFI about actual default by the issuer, the AMC may segregate the portfolio of such instrument.

Process for Creation of Segregated Portfolio:

- 1) On the date of credit event or actual default, AMC should decide on creation of segregated portfolio. Once AMC decides to segregate portfolio, it would:
 - a) seek approval of the Trustees prior to creation of the segregated portfolio.
 - b) immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors. Baroda BNP Paribas Mutual Fund will also disclose that the segregation shall be subject to Trustee approval. Additionally, the said press release will be prominently disclosed on the website of the AMC (www.barodabnpparibasmf.in).
 - c) ensure that till the time the Trustee approval is received, which in no case shall exceed 1 business day from the day of credit event or actual default, the subscription and redemption in the scheme will be suspended for processing with respect to creation of units and payment on redemptions.
- 2) Once Trustee approval is received by the AMC:
 - a) Segregated portfolio will be effective from the day of credit event or actual default.
 - b) AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information will also be submitted to SEBI.
 - c) An e-mail or SMS will be sent to all unit holders of the concerned scheme.

- d) The NAV of both segregated portfolio and main portfolio will be disclosed from the day of the credit event or actual default.
- e) All existing investors in the scheme as on the day of the credit event or actual default will be allotted equal number of units in the segregated portfolio as held in the main portfolio.
- f) No redemption and subscription will be allowed in the segregated portfolio. However, upon recovery of any money from segregated portfolio, it will be immediately distributed to the investors in proportion to their holding in the segregated portfolio.
- g) AMC should enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests
- h) Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
- 3) If the Trustees do not approve the proposal to segregate portfolio, AMC will issue a press release immediately informing investors of the same.
- 4) In case Trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

Processing of Subscription and Redemption Proceeds:

Notwithstanding the decision to segregate the debt and money market instrument, the valuation process shall take into account the credit event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI MF Regulations, 1996 and circular(s) issued thereunder.

All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing SEBI guidelines/circular on applicability of NAV as under:

- 1) Upon Trustees' approval to create a segregated portfolio -
 - Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
 - Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
- 2) In case Trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

Disclosure:

In order to enable the existing as well as the prospective investors to take informed decision, the following, as mandated under para 4.4.7 SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 shall be adhered to:

- 1) A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event or actual default shall be communicated to the investors within 5 working days of creation of the segregated portfolio.
- 2) Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme.
- 3) The NAV of the segregated portfolio shall be declared on daily basis.
- 4) The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.
- 5) The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance shall clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event or actual default and the said fall in NAV along with recovery(ies), if any, shall be disclosed as a footnote to the scheme performance.

- 6) The disclosures at point (4) and (5) above regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/ written-off.
- 7) The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

Monitoring by Trustees:

In order to ensure timely recovery of investments of the segregated portfolio, the Trustee shall ensure that:

- The AMC puts in sincere efforts to recover the investments of the segregated portfolio.
- Upon recovery of money, whether partial or full, it shall be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio.
- An Action Taken Report (ATR) on the efforts made by the AMC to recover the investments of the segregated portfolio is placed in every Trustee meeting till the investments are fully recovered/ written-off.
- The Trustee shall monitor the compliance of the same as per the SEBI Master circular and disclose in the half-yearly trustee reports filed with SEBI, the compliance in respect of every segregated portfolio created.

In order to avoid mis-use of segregated portfolio, Trustees will put in place a mechanism to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs) etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of AMC, including claw back of such amount to the segregated portfolio of the scheme.

Total Expense Ratio (TER) for the Segregated Portfolio:

- 1) AMC will not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- 2) The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence. In addition to the TER mentioned above, the legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio as mentioned below.
- 3) The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
- 4) The costs related to segregated portfolio shall in no case be charged to the main portfolio.

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the scheme will be benchmarked to the performance of NIFTY SDL December 2026 Index.

Pursuant to Para 1.9 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 ('SEBI Circular on Benchmark'), uniform structure for benchmarking of schemes has been prescribed by SEBI. These uniform benchmarking of schemes indices are termed as first tier benchmark which reflects the category of the scheme. The index is computed using the total return methodology including price return and coupon return.

Further, pursuant to SEBI circular on Benchmark, Association of Mutual Funds in India (AMFI), in consultation with AMFI Valuation Committee, has published the list of benchmark as 1st tier benchmarks for mutual fund schemes and the same is also made available on its website <https://www.amfiindia.com/research-information/other-data> and <https://www.amfiindia.com/importantupdates>.

Justification for use of benchmark

The Scheme seeks to invest in the constituents of NIFTY SDL December 2026 Index and similar securities in line with the para 3.5.2.4. of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023. Therefore, the composition of NIFTY SDL December 2026 Index makes it most suited to compare the performance of the **Scheme**.

About the Index

Nifty SDL Dec 2026 Index seeks to measure the performance of portfolio of 10 State Development Loans (SDLs) maturing during the six month period ending December 31, 2026.

The index is computed using the total return methodology including price return and coupon return.

The index has a base date of MMM DD, YYYY and a base value of 1000.

Methodology

The methodology is in compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by para 3.5 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023

Eligibility Norms

SDL should not be a special security

State/UT Selection

10 states/UTs are selected based on the highest composite liquidity score as on December 07, 2022 maturing during the six month period ending December 31, 2026. The composite liquidity score is calculated by allocating 80% weight to aggregate trading value, 10% weight to number of days traded and 10% weight to number of trades of all the eligible SDLs of the state/UT during the twelve month period ending to December 07, 2022

Security Selection

As on December 07, 2022, for every selected state/UT, SDL with longest maturity maturing during the six month period ending December 31, 2026 is selected to be part of the index. These selected 10 securities will continue to remain in the index till they mature.

Only one SDL per state/UT to be part of the index

Weight Assignment

Each state/UT that is part of the index is given equal weight as on the base date of the index. Subsequently, the security level weights may drift due to price movement and will not get reset. Any coupon amount received is assumed to be reinvested in the portfolio on the same date, in the proportion of the existing weights.

Index Rebalancing and Reconstitution

On a semi-annual basis, index will be screened for compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by para 3.5 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023. In case of non-compliance, suitable corrective measures will be taken to ensure compliance with the norms.

As the index includes securities that shall mature during the six month period ending on the final maturity date of the index, any proceeds from the security redemption prior to the final maturity date of the index shall be re-invested using the following waterfall approach:

The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (SDL in case of state/UT) and maturing on or just before the index maturity date with the same weightage. This will be subject to the single issuer limit in compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by SEBI vide para 3.5 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023. In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to the single issuer limit in compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by SEBI vide para 3.5 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023. In case due to any reason, it is not possible to meet any norms as prescribed by para 3.5 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date.

If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate tracked by Nifty 1D Rate Index for any subsequent days till the maturity of the index.

Index Termination

The index shall mature on December 31, 2026. If the index matures on a holiday, the index value will be computed till the prior working day.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per SEBI (Mutual Funds) Regulations, 1996. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

An Illustration of impact of expense ratio on Scheme's returns:

If an investor A invests in a regular plan of a Scheme with an expense of 1% p.a. and an investor B invests in Direct Plan of the same scheme with an expense of 0.65% p.a. Assuming the gross return of this fund is 10% for that given year, investor A will make a return of 9% (post expense) for that year, whereas investor B will make 9.35% return for same period.

Also, please take a look at below illustration which shows impact of different expense ratio assumed on initial investment of Rs. 10,000 invested over period of 10 years with an average annualized gain of 15% p.a.

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses (@10%pa)	1,000	1,000
Expenses other than Distribution Expenses	65	65
Distribution Expenses	35	-
Returns after Expenses at the end of the Year	900	935
% Returns on Investment (Post Expenses)	9%	9.35%

Note:

- The purpose of the above illustration is to purely explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments, without considering any impact due to taxation.
- Investors are requested to note that NAV declaration made by AMC/Mutual Fund on every business day is net of expenses, and consequently scheme performance disclosures made by Mutual Fund, which are based on NAV values of the scheme are also net of expenses but does not consider impact of load and taxes, if any.

a) SEBI vide its Show cause Notice (SCN) bearing reference no. SEBI/HO/EAD-3/JS/DJ/OW/P/3577/ 1/2019 dated May 29, 2019 had alleged that BNP Paribas Asset Management India Private Limited (AMC) has traded in the scrip of Manappuram Finance Limited when in possession of Unpublished Price Sensitive information in violation of Section 12A(d) and 12A(e) of the SEBI Act, 1992 read with Regulation 3(i), 3A and 4 of the SEBI (Prohibition of Insider Trading) Regulations, 1992 read with Regulation 12(2) of (Prohibition of Insider Trading) Regulations, 2015. A reply to the said SCN denying the allegations stated therein has been filed with SEBI. A reply to the said SCN denying the allegations stated therein was been filed with SEBI by AMC. Thereafter, vide SEBI order dated March 26, 2020, the SCN in the matter was disposed off by SEBI **without any penalty for the AMC.**

b) The Bank was one of the bankers to the public issue of shares of Jaltarang Motels Limited ("Jaltarang") in December 1995. SEBI, by its order dated January 19, 2000 directed the Bank to refund the sum of Rs. 4,031,018/- being the application money for the shares released by the Bank to the Jaltarang with interest at 15% from March 25, 1996 i.e. the day the Bank allowed withdrawal of the funds by Jaltarang in respect of funds collected from the public issue. The Bank preferred an appeal before the Securities Appellate Tribunal and the Tribunal, by order dated July 27, 2000, rejected the appeal. The Bank has filed an appeal (Appeal No.2 of 2000) before the High Court, Mumbai against the said order of the Tribunal. The High Court, Mumbai, on November 13, 2000, granted interim relief of stay of the operation of the orders dated July 27, 2000 of the Securities Appellate Tribunal and January 19, 2000 of SEBI and has further applied for the matter be placed on the board for final hearing. The matter is still pending.

c) The merchant banking division of the Bank was the pre-issue lead manager for the public issue of shares of Trident Steels Limited ("Trident") in November 1993. SEBI issued a show cause notice dated April 29, 2004 calling upon the merchant banking division of the Bank to show cause why action should not be taken against it for failing in its duty to exercise due diligence in the abovementioned public issue. SEBI alleged that the merchant banking division of the Bank did not disclose the material fact that 750,000 shares out of the pre issue capital of Trident had been pledged by the directors and holders of those shares to the Industrial Finance Branch of the Bank towards enhancement of various credit facilities extended by the Bank to Trident. In October 1989, the directors and holders of those shares had given an undertaking that as long as the dues of Trident to the Bank are not paid in full, they will not transfer, deal with or dispose of equity or preference shares held by them in the company or any shares that might be acquired in future, without prior written consent of the Bank. BOB Capital Markets Ltd., in its reply to the show cause notice, has submitted that it was the obligation of Trident to give true disclosures and that any punitive action will lie solely against Trident, its promoters and directors. The matter is still pending.

d) The Bank had acted as lead managers to the public issue of Kraft Industries Limited ("Kraft") in May 1995. It is alleged that the Managing Director and Promoter of Kraft did not possess the qualifications as mentioned in the prospectus. SEBI has asked for qualification certificates/copies from the Bank. The Managing Director of Kraft has reported of having lost the certificates in transit. The Bank has replied accordingly to SEBI. Inquiry is still pending.

e) M.S. Shoes East Limited (MS Shoes) came out with a public issue of 17,584,800 zero interest unsecured fully convertible debentures at Rs. 199 each aggregating Rs. 3,499,375,000/- in February 1995. The Bank was one of the lead managers to the issue with responsibility for post-issue management and had underwritten the issue up to Rs. 150,000,000/-. After the closure of the issue, MS Shoes complained to the underwriters that some of the cheques accompanying the application for subscription were returned unpaid resulting in the collected amount falling short of the minimum subscription amount. Therefore, MS Shoes called upon the underwriters to discharge their underwriting liability to the extent of proportionate devolution and raised a claim on the Bank for Rs. 116,665,043/- towards devolution of underwriting liability. The Bank declined the liability on the ground that since the issue was declared oversubscribed by the Registrars to the issue, no liability can devolve on the Bank under its underwriting commitment. SEBI had issued an enquiry notice dated July 20, 1995 to the Bank, but closed the matter, vide letter dated June 17,

1996, without imposing any penalty on the Bank. Pursuant to a complaint filed on behalf of MS Shoes, FIR No. 415 of 2000 dated October 1, 2000 was registered by Vikaspuri Police Station Delhi under sections 406 and 420 of the Indian Penal Code against BOB Capital Markets Limited, the Bank, its principal officers including the then CMD, and others, alleging cheating and breach of trust. In the complaint, it has been submitted that the accused fraudulently and illegally induced MS Shoes to bring cheques from its associates and acquaintances so as to close the issue within four days, thereby representing to the public that the issue had been subscribed in full within the first four days. On this basis, the issue

was represented to have been more than 90% subscribed and was closed by the accused. It is further submitted that the subscription having fallen down to about 40% within 30 days of the closure of the public issue, the underwriters were called to subscribe for the same in proportion, but many of the underwriters including the Bank did not obtain subscription as per the agreed underwriting amount. The High Court, New Delhi, by order dated December 11, 2000 in Criminal Writ No. 1221 of 2000 and Criminal Writ No. 1219 of 2000, ordered transfer of FIR No. 415 of 2000 to the Central Bureau of Investigation (CBI) and the same has been registered with the CBI, New Delhi as Crime No. RC.SIA-2001-E-0002 dated March 9, 2001. Investigation by the CBI is still pending.
