Data as on April 30, 2025

ABOUT THE FUND

- Baroda BNP Paribas Small Cap fund will invest minimum 65% of the net assets into small cap companies.
- The fund aims to build wealth of investors by tapping into companies which have the potential to become leading companies of the future.
- The fund will follow bottom-up stock picking approach.
- Emphasis will be on selecting companies with strong fundamentals, quality business models and reputation management.
- The fund will not be biased towards any sector.

PORTFOLIO POSITIONING

- Utilities, Industrials, Consumer Staples and Consumer Discretionary are key overweight sectors. Within utilities, we have significant exposure to gas utilities where we find valuations attractive.
- We are underweight in Materials, Healthcare and Financials. We are cautious on bulk commodities like metals and minerals where we believe that external demand environment remains subdued. Our underweight in healthcare emanates from hospitals where we are selective. Our underweight in financials emanates from reducing exposure to capital market plays which could witness high volatility due to near term uncertainty.
- The allocation to small cap companies is at 71%. Allocation to Large & Mid cap companies is 19%. Our cash position is 10%. (Exposure as % of net assets as on April 30, 2025).
- We follow the bottom up approach in small cap investing which is about identifying the champions of tomorrow.

STAR^ FRAMEWORK FOR PORTFOLIO CONSTRUCTION
