Portfolio rebalancing in case of deviation from asset allocation under Defensive consideration:

The Scheme shall ensure adherence to the above asset allocation under normal circumstances. However, due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for short term and defensive considerations as per Para 1.14.1.2 (b) of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation. However, at all times the AMC shall ensure that the portfolio would adhere to the overall investment objective of the scheme.

Portfolio Rebalancing in case of passive deviation from asset allocation:

In accordance with para 2.9 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, as amended from time to time, the scheme shall rebalance the portfolio in case of any deviation to the asset allocation mentioned in the Scheme Information Document (SID) due to passive breaches. In the event of deviation from mandated asset allocation mentioned in the Scheme Information Document (SID) due to passive breaches (occurrence of instances not arising out of omission and commission of AMC's), the portfolio shall be rebalanced within a period of thirty (30) business days.

In case the portfolio of scheme is not rebalanced within the above mandated timelines, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, AMC's shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not to levy exit load, if any, on the investors exiting such scheme(s).

Deployment of Funds collected in New Fund Offer (NFO) period:

As per SEBI Circular dated February 27, 2025, the AMC shall deploy the funds garnered during the NFO within 30 business days from the date of allotment of units. If the AMC is unable to deploy the funds within the 30 business day period, a written explanation, including details of the efforts taken to deploy the funds, must be presented to the Investment Committee of the AMC.

The Investment Committee may extend the deployment timeline by up to 30 business days and will provide recommendations to ensure timely deployment in the future.

In case the funds are not deployed as per the asset allocation mentioned in the SID as per the aforesaid mandated plus extended timelines, AMC shall:

- not be permitted to receive fresh flows in the Scheme till the time the funds are deployed as per the asset allocation mentioned in the SID;
- not be permitted to levy exit load, if any, on the investors exiting the Scheme after 60 business days of not complying with the asset allocation of the scheme;
- inform all investors of the NFO, about the exit option without exit load, via email, SMS or other similar mode of communication;

- report deviation, if any, to Trustees at each of the above stages.

21. Any other instruments / securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with SEBI (MF) Regulations.

The securities mentioned above could be listed, unlisted, publicly offered, privately placed, secured, unsecured, rated, or unrated and of varying maturity. The securities may be acquired through public offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme will invest minimum 80% of its net assets in companies in India, that have better performance based on ESG factors than their sector peers. As per SEBI Guidelines, the Scheme shall invest at least 65% of its AUM in companies which are reporting on comprehensive Business Responsibility and Sustainability Reporting (BRSR) and are also providing assurance on BRSR core disclosures. The balance AUM of the Scheme can be invested in companies having BRSR disclosures. The Scheme may also invest a small portion of its corpus in debt, money market instruments and InvITs to manage its liquidity requirements.

The Scheme will implement an active strategy to have a diversified portfolio focusing on investments in companies having leading performance on ESG factors. ESG assessment will be based on ESG ratings from a SEBI Registered third-party ESG ratings provider, and internal proprietary ESG analysis. Based on this ESG assessment, companies in each sector group will be ranked into deciles. The Scheme would consider investing in companies ranked from first to fifth decile in its sector group from the investment universe.

The Scheme will avoid investing in companies that fail to meet fundamental obligations in the areas of human and labour rights, protecting the environment and ensuring anti-corruption safeguards. Companies involved in alcohol, tobacco, gambling, and high adverse environmental impact would be excluded. This is to enhance scheme's risk management and avoid reputational, regulatory and stranded asset risk.

After using ESG filter of top 5 decile in each sector group to define the potential investment universe, the following are the broad parameters/factors that shall be considered while building the portfolio of companies.

- a) business and economic fundamentals driven by in-depth research
- b) Reputation of the management and track record
- c) long term growth prospects
- d) The financial strength of the companies, as indicated by well recognised financial parameters employing strong stock selection valuation parameters
- e) any other factor affecting a company's business prospects

We may, from time to time, review and modify the Scheme's investment strategy if such changes are in the best interests of the unitholders and if market conditions warrant it.

Portfolio turnover

Portfolio turnover is defined as lesser of purchases and sales as a percentage of the average corpus of the Scheme during a specified period of time. Portfolio turnover would depend upon the market conditions such as volatility of the market and inflows/outflows in the scheme. The Scheme is an open-ended Scheme with subscriptions and redemptions expected on a daily basis. Hence, it will be difficult to estimate the portfolio turnover with any reasonable amount of accuracy.

Trading In Derivatives

The Scheme intend to use derivatives for the purposes, which may be permitted by SEBI (MF) Regulations, from time to time, which will include hedging & portfolio balancing. Hedging does not mean maximisation of returns but only reduction of systematic or market risk inherent in the investment. SEBI has vide Master Circular dated June 27, 2024, specified the guidelines pertaining to trading by Mutual Fund in Exchange Traded Derivatives.

For detailed derivative strategies, please refer to SAI.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the scheme will be benchmarked to the performance of **Nifty 100 ESG TRI**.

Pursuant to Para 1.9 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 ('SEBI Circular on Benchmark'), uniform structure for benchmarking of schemes has been prescribed by SEBI. These uniform benchmarking of schemes indices are termed as first tier benchmark which reflects the category of the scheme.

Further, pursuant to SEBI (MF) Regulations on Benchmark, Association of Mutual Funds in India (AMFI), in consultation with AMFI Valuation Committee, has published the list of benchmark as 1st tier benchmarks for mutual fund schemes and the same is also made available on its website and <https://www.amfiindia.com/research-information/other-data> and <https://www.amfiindia.com/importantupdates>.

Justification for use of benchmark

The aforesaid Benchmark is a fair representation of the portfolio holdings and universe of investment for the Scheme. It is the best available index that is representative of the theme and the portfolio that the Scheme intends to hold.

The aforesaid Benchmark is accordingly the 1st Tier benchmark Index basis the category of the Scheme and in line with the list of benchmarks as notified by AMFI.

The Trustee / AMC reserve the right to change the Benchmark for evaluation of performance of the Scheme from time to time in conformity with the investment objectives and appropriateness of the Benchmark subject to the SEBI (MF) Regulations and other prevailing guidelines, if any.

Note: The monthly portfolio shall be available, once the portfolio has been constructed.

For details of the investments by key personnel and AMC directors including regulatory provisions please refer SAI.

vi. Investments of AMC in the Scheme

The AMC, Trustee, Sponsor, or their associates may invest in the Scheme subject to the SEBI (MF) Regulations & circulars issued by SEBI and to the extent permitted by its Board of Directors from time to time. As per the existing SEBI (MF) Regulations, the AMC will not charge investment management and advisory fee on the investment made by it in the Scheme. The AMC shall based on the risk value assigned to the Scheme, in terms of para 17.4 of SEBI Master dated June 27, 2024, invest minimum amount as a percentage of AUM as per provisions of para 6.9 and 6.10 of SEBI Master circular dated June 27, 2024 as amended from time to time. The details of AMC's investment in the Scheme is provided under this link. <https://www.barodabnp-paribas-mutual-fund.in/disclosure-of-sum-invested-by-amc-and-designated-employees>

(Not applicable since this is a new scheme.)

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit of the options of the Plan(s) under the Scheme will be computed by dividing the net assets of the options of the Plan(s) under the Scheme by the number of Units outstanding under the options of the Plan(s) under the Scheme on the valuation date. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time. In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail. The NAV of the units under each options of the Plan(s) under the Scheme shall be calculated as shown below:

$$\text{NAV per Unit (Rs.)} = \frac{\text{Market or Fair Value of the Plan's Investments} + \text{Current Assets} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under each option of the Plan(s) under the Scheme}}$$

Illustration on Computation of NAV:

Heads	Particulars	Rs.
AUM	Opening AUM	0
NAV	Opening NAV Per Unit	10.0000
Unit capital	Opening Units	0.000
	Closing Units	1000.000
Subscription / redemption Units	Shares Subscribed	1,000.00
	Shares Redeemed	0.00
Subscription / redemption Amounts	Subscription Money	10,000.00
	Redemption Money	0.00
Net New cash	Net Inflow/Outflow Amount (A)	10,000.00
Income	Load	0.00
	Interest/AoD	15.00
	Dividend Income	5.00
	R - Gain / Loss	0.00
	U - Gain /Loss	10.00

Net revenue	Net income (D= B-C)	29.35
AUM	Closing AUM (A+D)	10029.35
NAV	Closing NAV per Unit	10.0294

The NAV of the units under each options of the Plan(s) under the Scheme will be calculated and declared on each Business Day. Separate NAVs will be calculated and announced for each of the Plan(s) & option(s) under the scheme. The NAVs will be rounded off up to 4 decimal places for the Scheme. The units will be allotted up to 3 decimal places.

Valuation of the scheme's assets, calculation of the scheme's NAV and the accounting policies & standards will be subject to such norms and guidelines that SEBI may prescribe from time to time and shall be subject to audit on an annual basis.

Repurchase/Redemption price for each Plan/Option will be calculated on the basis of Applicable NAV and Exit load, if any.

The Repurchase/Redemption Price per Unit will be calculated using the following formula:

Repurchase/Redemption Price = Applicable NAV * (1 – Exit Load, if any)

Example 1: If the applicable NAV is Rs. 10, exit load is 2%, then repurchase/ redemption price will be: Rs. $10 * (1 - 0.02) = \text{Rs. } 9.80$.

Example 2: If the applicable NAV is Rs. 10, exit load is Nil, then repurchase/ redemption price will be: Rs. $10 * (1 - 0) = \text{Rs. } 10$.

Pursuant to Regulation 49 (3) the repurchase Price of the units of an open ended scheme will not be lower than 97% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc, kindly refer SAI.

FEES AND EXPENSES

This section outlines the expenses that will be charged to the respective Plan(s) under the Scheme and also about the transaction charges, if any, to be borne by the investors. The information provided under this Section seeks to assist the investor in understanding the expense structure of the Plan(s) and types of different fees / expenses and their percentage the investor is likely to incur on purchasing and selling the Units of the Plan(s) of the Scheme.

- (c) @ Brokerage and transaction costs which are incurred for the purpose of execution of trade shall be charged to the Scheme, not exceeding 0.12% in case of cash market transactions and 0.05% in case of derivative transactions;

Any payment towards brokerage and transaction costs, over and above the said 12bps and 5bps for cash market and derivatives transactions respectively, shall be charged to the Scheme within the total recurring expenses limit specified under Regulation 52 of SEBI (MF) Regulations. Any expenditure in excess of the said limit will be borne by the AMC/Trustees/Sponsors.

The total expenses charged to the scheme shall be the maximum limit of TER as prescribed under regulation 52.

Investors should note that the total recurring expenses of the scheme excluding issue or redemption expenses, whether initially borne by the Mutual Fund or by the AMC, but including the investment management and advisory fee, shall not exceed the limits as prescribed under Regulation 52 of the SEBI (MF) Regulations. The AMC will charge the Scheme such actual expenses incurred, subject to the statutory limit prescribed in the SEBI (MF) Regulations.

For the actual current expenses being charged, the investor should refer to the website of the mutual fund at the following link <<https://www.barodabnp-paribas-mf.in/downloads/total-expense-ratio-of-mutual-fund-schemes>>.

Any change proposed to the current expense ratio will be updated on the website and communicated to the investors via e-mail or SMS at least three working days prior to the effective date of the change (in accordance with para 10.1.8 of SEBI Master circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024). Further, the disclosure of the expense ratio on a daily basis shall also be made on the website of AMFI viz. www.amfiindia.com.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per SEBI (MF) Regulations. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

An Illustration of impact of expense ratio on Scheme's returns:

If an investor A invests in a regular plan of a Scheme with an expense of 2% p.a. and an investor B invests in Direct Plan of the same scheme with an expense of 1% p.a. Assuming the gross return of this fund is 10% for that given year, investor A will make a return of 8% (post expense) for that year, whereas investor B will make 9% return for same period.

Also, please take a look at below illustration which shows impact of different expense ratio assumed on initial investment of Rs. 10,000 invested over period of 10 years with an average annualized gain of 10% p.a.

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses (@15%pa)	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1,300	1350

Note:

- The purpose of the above illustration is to purely explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments, without considering any impact due to taxation.
- **Investors are requested to note that NAV declaration made by AMC/Mutual Fund on every business day is net of expenses, and consequently scheme performance disclosures made by Mutual Fund, which are based on NAV values of the scheme are also net of expenses but does not consider impact of load and taxes, if any.**

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure please refer to the website of the AMC (www.barodabnpparibasmf.in) or call on the number, 1800-2670-189 or may call your distributor.

TYPE OF LOAD	LOAD CHARGEABLE (% of NAV)
Exit Load	• For redemption/switch out of units upto 10% within 1 year from the date of allotment: 1.00% of applicable NAV. • Redemption/ switch out of units upto 10% of the units allotted within 1 year from date of allotment – Exit load – NIL • For redemption/switch out of units after 1 year from the date of allotment: NIL

The above load shall also be applicable for switches between the schemes of the Fund and all Systematic Investment Plans, Systematic Transfer Plans, Systematic Withdrawal Plans. No load will be charged on units issued upon re-investment of amount of distribution under same IDCW option and bonus units.

There shall be no exit load levied in case of switch of investments i) between the Plans (i.e. Regular and Direct Plans); and/or ii) between the options (i.e. IDCW and Growth options), within the Scheme/Plan. For any change in load structure, the AMC will issue an addendum and display it on the website/ISCs.

I. INTRODUCTION

A. DEFINITION/INTERPRETATION:

Investors may refer to <https://www.barodabnpparibasmf.in/assets/pdf/Definitions.pdf> for definitions/interpretations.

B. RISK FACTORS

Scheme Specific Risk Factors

Risks associated with ESG theme

- The Scheme is thematic in nature. Investing in this Scheme is based on the premise that the Scheme will seek to invest predominantly in companies belonging to ESG theme. This may limit the capability of the Scheme to invest in other companies/themes.
- Being thematic in nature, the Scheme will be affected by the risks associated with the investment in companies with ESG theme. Further, the volatility and/or adverse performance of companies with ESG theme would have a material adverse bearing on the performance of this Scheme.
- Investment in this Scheme carries the risk regarding non-diversification of the portfolio due to the investment universe mainly limited to companies with ESG theme and hence, the scope for diversification could be limited at times and the concentration is expected to be high in companies belonging to ESG theme.
- ESG integration approach may be implemented in a different way by AMCs when setting investment objectives for ESG themed schemes. This means that it may be difficult to compare strategies integrating ESG criteria to the extent that the selection and weightings applied to select investments may be based on metrics that may share the same or similar name but have different underlying meanings.
- In evaluating a security based on the ESG criteria, the AMC would use SEBI registered ESG Rating Provider to provide external ESG rating and related research. Given the evolving nature of the ESG theme, these data sources may for the time being be incomplete, inaccurate, unavailable or updated. Applying ESG criteria as well as norm and sector based responsible investing criteria in the investment process may lead to the exclusion of securities of certain issuers. Consequently, the scheme's financial performance may at times be better or worse than the performance of comparable schemes that do not apply such standards.
- In addition, the proprietary methodologies used to take into account ESG criteria may be subject to reviews in the event of regulatory developments or updates that may lead, in accordance with the applicable regulations, to the increase or decrease of the classification of schemes, of the indicators used or of the minimum investment commitment levels set.

The other Scheme specific risk factors are summarized as follows:

Market Risk:

All mutual funds and securities investments are subject to market risk and there can be no assurance / guarantee that the scheme's objectives will be achieved. The securities that the scheme invests in would be exposed to price changes on a day-to-day basis. These price changes may occur due to instrument-specific factors as well as general macroeconomic conditions. Markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market or economic developments. The scheme may be subject to price volatility due to factors such as interest sensitivity, market perception, and creditworthiness of issuer and market liquidity. Different parts of the market can react differently to these developments. The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole.

Risks associated with Equity shares and equity related instruments:

Investments in equity and equity related instruments are volatile and prone to price fluctuations on a daily basis. The impact of fluctuations is likely to be accentuated for short-term investments. The risk that the performance of one or more companies declines or stagnates may have a negative impact on the performance of the Scheme as a whole at any given time. Investments in equity and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risks.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.

Risks associated with investments in Fixed Income Securities

- **Credit and Counterparty risk:** Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security or honor its contractual obligations).

Counterparty risk refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty to which the scheme has exposures. Losses can occur in particular for the settlement/delivery of financial instruments or the conclusion of financial derivatives contracts.

The value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit and counterparty risk as well as any actual event of default. Changes in financial conditions of an issuer, changes in economic and political conditions in general, or changes in economic or and political conditions specific to an issuer, all of which are factors that may have an adverse impact on an issuer's credit quality and security value.

- **Liquidity Risk:** The liquidity of the scheme's investment is inherently restricted by trading volumes in the securities in which the scheme invests. A lower level of liquidity affecting an individual security or an entire market at the same time, may have an adverse bearing on the value of the scheme's assets. More importantly, this may affect the Fund's ability to sell particular securities quickly enough to minimise impact cost, as and when necessary to meet requirements of liquidity or to sell securities in response to triggers such as a specific economic/corporate event.

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of a few or all of the investments and may affect the liquidity of the investments of the scheme.

The scheme may be unable to implement purchase or sale decisions when the markets turn illiquid, missing some investment opportunities or limiting ability to face redemptions. The lack of liquidity could also lead to the risk that the sale price of a security could be substantially lower than the fair value of the security.

- **Interest Rate Risk & Re-investment Risk:** The value of an investment may be affected by interest rate fluctuations. Interest rates may be influenced by several elements or events, such as monetary policy, the discount rate, inflation, etc. The value of debt and fixed income securities held by the Scheme generally will vary inversely with the changes in prevailing interest rates. In general, price of debt and fixed income securities go up when interest rates fall, and vice versa. Securities of any issuer that has higher duration could be riskier in terms of price movements relative to those with lower duration. Thus, any impact of interest rate changes would be higher on securities with higher duration irrespective of the status of the issuer of the security. The investments made by the Scheme are subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Sovereign risk:** The Central Government of India is the issuer of the local currency debt in India. The Government raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since payment of interest and principal amount has a sovereign status implying least probability of a default, such securities are known as securities with sovereign credit. It also implies that the credit risk on such Government securities is even lower than that on non-government securities with "AAA" rating and hence yields on government securities are even lower than yields on non-government securities with "AAA" rating.
- **Concentration Risk:**
The Scheme may pursue only a limited degree of diversification. It may invest in a limited number of securities or invest a greater proportion of assets in the securities of very few issuers (within the limits permitted by regulation) or be concentrated on a few market sectors as compared to a diversified scheme. The scheme is also expected to have higher market liquidity risk on account of concentration. This could have implications on the performance of the scheme. The scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the scheme.

Risk factors specific to investments in foreign securities:

The Scheme may invest in Foreign Securities including overseas equities / ADRs / GDRs with the approval of RBI/SEBI, subject to such guidelines as may be issued by RBI/SEBI. The net assets, distributions and income of the Scheme may be affected adversely by fluctuations in the value of certain foreign currencies relative to the Indian Rupee to the extent of investments in these securities. Repatriation of such investment may also be affected by changes in the regulatory and political environments. Market risks can be greater with respect to political instability, lack of complete or reliable information, market irregularities or high taxation. The Scheme's NAV may also be affected by a fluctuation in the general and specific level of interest rates internationally, or the change in the credit profiles of the issuers. The liquidation of securities where investments will be made by the schemes shall be subject to the liquidity / settlement issues of the country of investment / settlement. Non-business days in country of investment / settlement may impact the liquidity of the scheme investments.

The Scheme may, where necessary, appoint advisor(s) for providing advisory services for such investments. The appointment of such advisor(s) shall be in accordance with the applicable requirements of SEBI. The fees and expenses would illustratively include, besides the investment management fees, custody fees and

costs, transaction costs and overseas regulatory costs, the fees of appointed advisor(s). The fees related to these services would be borne by the AMC and would not be charged to the Scheme.

Risk Factors associated with investing in Securities Segment and Tri-party Repo trade settlement:

The Mutual Fund is a member of securities segment and Triparty Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus, reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL).

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members. Thus, the Scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations.

In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member). CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/ default losses of another member by CCIL, as a result the Scheme may lose an amount equivalent to its contribution to the default fund.

Risks associated with Derivatives

The Scheme may use various derivative instruments and techniques, permitted within SEBI (MF) Regulations from time to time including but not limited for portfolio balancing and hedging purpose, which may increase the volatility of Scheme's performance. Usage of derivatives will expose the Scheme to certain risks inherent to such derivatives.

Derivative products are specialized instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. There is a possibility that a loss may be sustained by the Scheme as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, interest rates and indices. Even a small price movement in the underlying instrument could have a large impact on their value. This could increase the volatility of the Scheme's performance. In case of hedge, it is possible that derivative positions may not be perfectly in line with the underlying assets they are hedging. As a consequence, the derivative cannot be expected to perfectly hedge the risk of the underlying assets. This also increases the volatility of the Scheme's performance.

Some of the risks inherent to derivatives investments include:

1. **Price Risk:** Despite the risk mitigation provided by various derivative instruments, there remains an inherent price risk which may result in losses exceeding actual underlying.
2. **Default Risk:** This is the risk that losses will be incurred due to default by counter party. This is also known as credit risk or counterparty risk.
3. **Basis Risk:** This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged for e.g., mismatch between the maturity date of the futures and the actual selling date of the asset.
4. **Limitations on upside:** Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
5. **Liquidity risk:** This risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.
6. **Execution Risk:** The prices which are seen on the screen need not be the same at which execution will take place.

Risk associated with investment in ETF:

- ETFs are typically designed to track the performance of certain indices, market sectors or groups of assets such as stocks, bonds or commodities. ETF managers may use different strategies to achieve this goal but in general they do not have the discretion to take defensive positions in declining markets. Investors must be prepared to bear the risk of loss and volatility associated with the underlying index/assets.
- Investments in the securities constituting the Index/commodities are subject to price fluctuation on daily basis. The volatility in the value of those securities is due to various micro and macroeconomic factors like economic and political developments, changes in interest rates, etc. affecting the securities markets. This may have adverse impact on the NAV of Scheme
- The units of the Scheme are to be listed on stock exchanges. However, there can be no assurance that an active secondary market will develop or be maintained.
- Listing and trading of the ETF is undertaken on the Stock Exchanges within the rules, regulation and policy of the Stock Exchange and Regulator. Any change in trading rules, regulation and policy by the regulatory authority would have a bearing on the trading of the units of the ETF and its prices.
- Trading in units of the Scheme on the exchange may be halted due to market conditions or for reasons that in view of the stock exchange or SEBI, trading in the units of the Scheme is not advisable. In addition, trading in units of the scheme is subject to trading halts caused by extraordinary market volatility and pursuant to BSE/NSE and SEBI circuit filter rules. There can be no assurance that the requirements of the market necessary to maintain the listing of units of the Scheme will continue to be met or will remain unchanged.
- Units of the scheme may trade above or below its NAV. The NAV of the scheme will fluctuate with changes in the market value of scheme's portfolio. The trading price of units of the Scheme will change in according with changes in its NAV as well as market supply and demand of units in the scheme. However, given the fact that units of the scheme can be created or redeemed in creation unit directly with the fund, large discounts or premiums to the NAV are not expected to sustain due to the arbitrage opportunity available.
- Any changes in trading regulations by the stock exchange/s or SEBI may affect the ability of the market maker to arbitrage resulting into wider premium/discount to NAV. Although the units are listed on the stock exchanges, the AMC and the Trustee will not be liable for delay in listing of

Units of the scheme on the stock exchanges / or due to the connectivity problems with depositories and/or due to the occurrence of any event beyond their control.

Risk factors associated with repo transactions in corporate bonds

The Scheme may be exposed to counterparty risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However, in repo transactions, the collateral may be sold, and a loss is realized only if the sale price is less than the repo amount.

Risks associated with Short Selling

The Scheme may enter into short selling transactions, subject to SEBI and RBI Regulations.

Short positions carry the risk of losing money and these losses may grow unlimited theoretically if the price of the stock increases without any limit. This may result in major loss to the Scheme.

At times, the participants may not be able to cover their short positions, if the price increases substantially. If numbers of short sellers try to cover their position simultaneously, it may lead to disorderly trading in the stock and thereby can briskly escalate the price even further making it difficult or impossible to liquidate short position quickly at reasonable prices. In addition, short selling also carries the risk of inability to borrow the security by the participants thereby requiring the participants to purchase the securities sold short to cover the position even at unreasonable prices.

Risks associated with Securities Lending

Securities Lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e., the Scheme and the approved intermediary. Such failure to comply can result in a possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities, and this can lead to temporary illiquidity.

Risks associated with investing in mutual fund units:

To the extent of the investments in units of mutual funds, the risks associated with investing in such funds like market risk, credit & default risk, liquidity risk, redemption risk including the possible loss of principal; etc. will exist.

Risk associated with Investments in REITs and InvITs
Price-Risk or Interest-Rate Risk:

REITs & InvITs run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.

Credit Risk:

In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. REITs & InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be prescheduled.

Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid

price and the offer price quoted by a dealer. As these products are new to the market, they are likely to be exposed to liquidity risk.

Reinvestment Risk: Investments in REITs & InvITs may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

Risk of lower-than-expected distributions: The distributions by the REIT or InvIT will be based on the net cash flows available for distribution. The amount of cash available for distribution principally depends upon the amount of cash that the REIT/ InvITs receives as dividends or the interest and principal payments from portfolio assets.

The above are some of the common risks associated with investments in REITs & InvITs. There can be no assurance that investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

Risks associated with Segregated Portfolio

- a) Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
- b) Security(ies) held in segregated portfolio may not realize any value.
- c) Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV

Risks associated with investing in securitised debt:

The scheme may invest in domestic securitized debt such as asset backed securities (ABS) or mortgage-backed securities (MBS). ABS means securitized debts wherein the underlying assets are receivables arising from personal loans, automobile loans, etc. MBS means securitized debts wherein the underlying assets are receivables arising from loans backed by mortgage of properties which can be residential or commercial in nature. ABS / MBS instruments reflect the undivided interest in the underlying of assets and do not represent the obligation of the issuer of ABS / MBS or the originator of the underlying receivables. The ABS / MBS holders have a limited recourse to the extent of credit enhancement provided. Securitized debt may suffer credit losses in the event of the delinquencies and credit losses in the underlying pool exceeding the credit enhancement provided. As compared to the normal corporate or sovereign debt, securitized debt is normally exposed to a higher level of reinvestment risk.

Risks for writing covered call options for equity shares:

- Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing are capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares. Being a covered call, the downside risk is not unlimited, but limited to the extent of change in the price of underlying security held by the Fund.
- The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the Scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the Scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.

- The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received, the Scheme would be at a loss.
- The total gross exposure related to option premium paid and received shall not exceed the regulatory limits of the net assets of the scheme.

Writing Options

- **Benefits of writing an option with underlying stock holding (Covered call writing strategy)**

The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. The strategy offers the following benefits:

- a) Hedge against market risk - Since the fund manager sells a call option on a stock already owned by the mutual fund scheme, the downside from fall in the stock price would be lower to the extent of the premium earned from the call option.
- b) Generating additional returns in the form of option premium in a range bound market. Thus, a covered call strategy involves gains for unit holders in case the strategy plays out in the right direction.

Illustration

Illustration - Covered Call strategy using stock call options:

Suppose a fund manager buys equity stock of XYZ Ltd. For Rs. 1000 and simultaneously sells a call option on the same stock at a strike price of Rs. 1100. The scheme earns a premium of say, Rs. 50. Here, the fund manager does not think that the stock price will exceed Rs. 1100.

Scenario 1: Stock price exceeds Rs. 1100

The call option will get exercised and the fund manager will sell the stock to settle his obligation on the call at Rs.1100 (earning Rs. 100, a return of 10% on the stock purchase price). Also, the scheme has earned a premium of Rs. 50

Net Gain - Rs. 150 (100+50)

Scenario 2: Stock prices stays below Rs. 1100

The call option will not get exercised and will expire worthless. The premium earned on call option will generate alpha for the scheme.

Net Gain - Rs. 50

- **Writing of call option (under the covered call strategy) can be undertaken subject to the following conditions:**
 1. The Scheme may write call options only under a covered call strategy for constituent stocks of NIFTY 50 and BSE SENSEX.
 2. The total notional value (taking into account strike price as well as premium value) of call options written by the Scheme shall not exceed 15% of the total market value of equity shares held in the Scheme. In case of any passive breaches, the Scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the Scheme.
 3. The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the Scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.
 4. In no case, the Scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts.
 5. The premium received shall be within the requirements prescribed in terms of para 12.25.8 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/90 dated June 27, 2024 i.e. the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the Scheme.

6. The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the respective scheme(s) until the position is closed or expired.

Other Risks:

- **Risk associated with inflation:** Over time, yields of short-term investments may not keep pace with inflation, leading to a reduction in an investment's purchasing power.
- **Legal risk:** The scheme may be affected by the actions of government and regulatory bodies. Legislation could be imposed retrospectively or may be issued in the form of internal regulations which the public may not be aware of. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the scheme from pursuing their strategies or which renders an existing strategy less profitable than anticipated. Such actions may take any form, for example nationalization of any institution or restrictions on investment strategies in any given market sector or changing requirements and imposed without prior warning by any regulator.
- **Taxation risk:** The value of an investment may be affected by the application of tax laws, including withholding tax, or changes in government or economic or monetary policy from time to time. As such, no guarantee can be given that the financial objectives will actually be achieved. The tax information described in this Scheme Information Document (SID) is as available under the prevailing taxation laws. This could be changed at any moment by regulation. Further, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the scheme will endure indefinitely.
- **Valuation risk:** This risk relates to the fact that markets, in specific situations and due to lack of volumes of transactions, do not enable an accurate assessment of the fair value of invested assets. In such cases, valuation risk represents the possibility that, when a financial instrument matures or is sold in the market, the amount received is less than anticipated, incurring a loss to the portfolio and therefore impacting negatively the NAV of the scheme.
- **Operational Risk:** Operational risk addresses the risk of trading and back office or administration issues that may result in a loss to the Scheme. This could be the result of oversight, ineffective securities processing procedures, computer systems problems or human error. There could also be risk associated with grouping of orders. For instance, at the time of placing the trades, the fund manager shall group orders on behalf of all schemes managed by him, provided it is unlikely to be detrimental overall for any of the schemes whose orders have been included. However, such grouping may have a detrimental effect to the scheme compared to the execution of an individual order for the scheme.

Risks Factors associated with transaction in Units through stock exchange(s):

In respect of transaction in Units of the Scheme through BSE and / or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by BSE and / or NSE and their respective clearing corporations on which the Fund has no control.

C. RISK MITIGATION STRATEGIES

Risk Mitigation measures for investments in equity / equity related instruments

- The Scheme aims to maintain a well-diversified equity portfolio comprising stocks and across other sectors of the economy, as per asset allocation pattern, so as to maintain optimum diversification. This shall aid in managing concentration risk and sector specific risks.
- The Scheme will maintain a portfolio diversified across a large number of companies. Exposure to individual companies would be in accordance with the risk management and regulatory limits. This diversified portfolio would aid in managing volatility and also improve liquidity of the portfolio.
- Market risk is inherent to an equity scheme. The Scheme may use derivatives to limit this risk.

- As such, the liquidity of stocks that the Scheme invests into could be relatively low. The Scheme will try to maintain a proper asset-liability match to ensure redemption / maturity payments are made on time and not affected by illiquidity of the underlying stocks.

Risk Mitigation measures for investments in debt instruments

The investments in debt and Money Market instruments would be undertaken after assessing the associated credit risk, interest rate risk and liquidity risk. The AMC shall undertake credit evaluation of each investment opportunity and invest in rated papers of companies having a sound background, strong fundamentals and quality of management and financial strength. In addition, the Scheme would endeavor to invest in instruments with a relatively higher liquidity, and will seek to manage the duration of the debt assets on proactive basis to manage interest rate risk and to optimize returns.

Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.

The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI/RBI for the purpose of hedging and portfolio rebalancing.

The above risk control measures shall be implemented by the AMC on best effort basis however there can be no guarantee that such measures can completely mitigate the risks involved in Scheme.

Risk control measures

Investments made by the Scheme would be in accordance with the investment objective of the Scheme and the provisions of the SEBI (MF) Regulations. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. While allocating and choosing securities, the Investment Manager will aim to diversify by gaining broad exposure to different industries and companies in order to reduce risk.

II. INFORMATION ABOUT THE SCHEME

A. WHERE WILL THE SCHEME INVEST

Subject to SEBI (MF) Regulations and other prevailing laws as applicable, the net assets of the Scheme can be invested in any (but not exclusively) of the following securities:-

1. Equity and equity related securities including instruments like Convertible bonds and debentures, Preference shares and warrants carrying the right to obtain equity shares and derivative instruments.
2. Foreign securities (including ADRs/GDRs) /Overseas ETFs / Units of Global Mutual Funds in accordance with SEBI Guidelines.
3. Units of Real Estate Investment Trusts (REITs) and Infrastructure Investment Trusts (InVITs)
4. Money market instruments permitted by SEBI/RBI
5. Open-ended Mutual Fund Schemes registered with SEBI.
6. Commercial Paper (CP), Certificate of Deposits (CD), Treasury Bills, Bills Rediscounting, Tri-party Repo on government securities or T-bills / Reverse Repo.
7. Corporate Bonds include all debt instruments issued by entities such as Banks, Public Sector Undertakings, Government Agencies and other Statutory Bodies, Municipal Corporations, body corporate, companies, trusts/ Special Purpose Vehicles etc and would exclude investments in Government Securities issued by Central and State Government.
8. Investment in Government securities issued by Central and/or State Government to the extent of SEBI prescribed limits. Such securities may be:
 - (i) Supported by the ability to borrow from the Treasury or
 - (ii) Supported by Sovereign guarantee or the State Government or
 - (iii) Supported by Government of India/ State Government in some other way
9. Securities issued by any government agencies, quasi-government or statutory bodies, Public Sector Undertakings, which may or may not be guaranteed or supported by the Central Government or any state government (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
10. Non-convertible securities as well as nonconvertible portion of convertible securities, such as debentures, coupon bearing bonds, zero coupon bonds, deep discount bonds, Mibor-linked or other floating rate instruments, premium notes and other debt securities or obligations of public sector undertakings, banks, financial institutions, corporations, companies and other bodies corporate as may be permitted by SEBI/ RBI from time to time.
11. Securitized debt, pass through obligations, various types of securitization issuances including but not limited to Asset Backed Securitization, Mortgage-Backed Securitization, single loan securitization and other domestic securitization instruments, as may be permitted by SEBI/ RBI from time to time.
12. Derivative Stock/ Index Futures, Stock/ Index Options (Including covered calls) and such other derivative instruments permitted by RBI/ SEBI.
13. Deposits with banks and other bodies corporate as may be permitted by SEBI from time to time.
14. Any other debt and money market instruments that may be available from time to time
15. The Fund may also enter into "Repo", hedging or such other transactions as may be allowed to Mutual Funds from time to time. Investments in Tri-Party Repo on Government Securities or T-bills would be as per the RBI circular dated July 24, 2018.
All investment restrictions stated above shall be applicable at the time of making an investment. Further, any new circular issued by RBI or SEBI on Repo would be applicable from time to time.
16. Mutual fund scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments.
17. The Scheme shall not invest in 'Sensitive Commodities' as defined vide SEBI circular no. SEBI/HO/CDMRD/DMP/CIR/P/2017/84 dated June 27, 2024.
18. Debt instruments includes instruments having Structured Obligations as per SEBI guidelines.

19. The Scheme may also enter into repurchase and reverse repurchase obligations in all securities held by them as per the SEBI (MF) Regulations and guidelines applicable to such transactions.
20. Any other permitted overseas securities/ instruments that may be available from time to time. The scheme shall not invest in foreign securitized debts. Investment in Foreign Securities shall be in accordance with the guidelines issued by SEBI from time to time.
21. Any other instruments / securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant SEBI (MF) Regulations.

The securities mentioned above could be listed, unlisted, publicly offered, privately placed, secured, unsecured, rated, or unrated and of varying maturity. The securities may be acquired through public offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals.

Position of debt & money market in India

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The G-Sec market is the oldest and the largest component of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Sec market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Overnight Call
- Tri-party repo on Government Securities or treasury bills (TREPS).
- Repo/Reverse Repo Agreement
- Treasury Bills
- Government securities
- Commercial Paper
- Certificate of Deposit

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as money market instruments, PSU / DFI / corporate paper with a residual maturity of < 1 year, are actively

traded and offer a viable investment option. The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

Instruments	Current yield as on October 27, 2025 (% per annum)
TREPS	5.45-5.55
3M T-Bill	5.40-5.50
1 Y T-Bill	5.55-5.60
10 Y G Sec	6.50-6.55
3M PSU Bank CD	5.95-6.05
3M NBFC CP	6.40-6.50
1 Y PSU Bank CD	6.40-6.50
1 Y NBFC CP	6.80-6.90
1Y Manufacturing Company CP	6.50-6.60
5 Y AAA Institutional Bond	6.75-6.80
10 Y AAA Institutional Bond	7.05-7.10

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro-economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro-economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

Trading In Derivatives

The Scheme intend to use derivatives for the purposes, which may be permitted by SEBI (MF) Regulations, from time to time, which will include hedging & portfolio balancing. Hedging does not mean maximisation of returns but only reduction of systematic or market risk inherent in the investment. SEBI has vide its Master Circular dated June 27, 2024 specified the guidelines pertaining to trading by Mutual Fund in Exchange Traded Derivatives.

The following information provides a basic idea as to the nature of the derivative instruments proposed to be used by the scheme and the benefits and risks attached therewith.

Equity Derivatives

The Scheme(s) may use various equity derivatives from time to time, as would be available and permitted by SEBI, in an attempt to protect the value of the portfolio and enhance Unitholders' interest. Accordingly, the Scheme(s) may use derivative instruments like futures & options stock indices, future & options on individual securities or such other derivative instruments as may be introduced from time to time as permitted under the SEBI (MF) Regulations.

- 20) The mutual fund shall not borrow except to meet temporary liquidity needs of the mutual fund for the purpose of repurchase, redemption of units or payment of interest or dividend to the unit holders.

Provided that the mutual fund shall not borrow more than 20% of the net asset of the scheme and the duration of such a borrowing shall not exceed a period of six months.

- 21) Indian MF schemes can now invest in Overseas MFs/UT, provided that the total exposure of Overseas MFs/UT in Indian securities is not more than 25% of their net assets as per the provisions of SEBI Circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/149 dated November 04, 2024
- 22) SEBI has permitted Mutual Funds to participate in derivatives trading subject to observance of guidelines issued by it in this behalf. Accordingly, Mutual Funds may use various derivative products from time to time, as would be available and permitted by SEBI. The Mutual Fund would comply with the provisions of SEBI Circular Ref. No. DNPD/Cir-29/2005 dated September 14, 2005 and para 7.5 of SEBI Master circular SEBI/HO/IMD/IMD-PoD1/P/CIR/2024/90 dated June 27, 2024 and such other amendments issued by SEBI from time to time while trading in derivatives. Presently, the position limits for trading in derivatives by Mutual Fund are as follows:

The position limits for Mutual Funds and its schemes shall be under:

- Position limit for Mutual Funds in index options contracts:
 - The Mutual Fund position limit in all index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
 - This limit would be applicable on open positions in all options contracts on a particular underlying index.
- Position limit for Mutual Funds in index futures contracts:
 - The Mutual Fund position limit in all index futures contracts on a particular underlying index shall be Rs.500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
 - This limit would be applicable on open positions in all futures contracts on a particular underlying index.

(iii) Additional position limit for hedging:

In addition to the position limits at point (i) and (ii) above, Mutual Funds may take exposure in equity index derivatives subject to the following limits:

- Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
- Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

(iv) Position limit for Mutual Funds for stock based derivative contracts:

- The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL)
- The MWPL and client level position limits however, would remain the same as prescribed.

(v) Position limit for each scheme of a Mutual Fund:

The scheme-wise position limit requirements shall be:

- For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of:
 - 1% of the free float market capitalization (in terms of number of shares). Or
 - 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
- This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
- For index-based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index

23) Pursuant to para 12.24 and para 12.25 of SEBI Master Circular dated June 27, 2024 the following norms for investment in derivatives shall be applicable.

1. The cumulative gross exposure through equity, debt, derivative positions, Infrastructure Investment Trusts (InvITs), other permitted securities /assets and such other securities/assets as may be permitted by SEBI from time to time (subject to prior approval from SEBI, if any) will not exceed 100% of the net assets of the Scheme.
2. The Scheme shall not write options or purchase instruments with embedded written options.
3. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
4. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
5. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
 - (i) Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - (ii) Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in point 1 above.
 - (iii) Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - (iv) The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
6. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1 above.
7. As per Para 12.25.5 and 12.25.6 of SEBI Master Circular dated June 27, 2024:
 - (a) The Scheme may enter into plain vanilla Interest Rate Swaps (IRS) for hedging purposes. The value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme.
 - (b) In case of participation in IRS is through over the counter transactions, the counter party has to be an entity recognized as a market maker by RBI and exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme. However, if mutual funds are transacting in IRS through an electronic trading platform offered by the Clearing Corporation of India Ltd. (CCIL) and CCIL is the central counterparty for such transactions guaranteeing settlement, the single counterparty limit of 10% shall not be applicable.
8. Definition of Exposure in case of Derivative Positions:

Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts.

The scheme shall comply with the requirements stated in para 12.25.11 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 as amended from time to time.

All investment restrictions shall be applicable at the time of making investment. Apart from the investment restrictions prescribed under the SEBI (MF) Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities. The AMC / Trustee may alter the above investment restrictions from time to time to the extent that changes in the SEBI (MF) Regulations may allow and as deemed fit in the general interest of the unit holders.

Restriction in Writing of Covered Call Options by Mutual Fund Schemes

In terms of para 12.25.8 of SEBI Master Circular on Mutual Funds dated June 27, 2024, mutual funds have been permitted to write call options under a covered call strategy as prescribed below:

Mutual Fund schemes (except Index Funds and ETFs) may write call options only under a covered call strategy for constituent stocks of NIFTY 50 and BSE SENSEX subject to the following:

- The total notional value (taking into account strike price as well as premium value) of call options written by a scheme shall not exceed 15% of the total market value of equity shares held in that scheme.
- The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.
- At all points of time the Mutual Fund scheme shall comply with the provisions at paragraphs (a) and (b) above. In case of any passive breach of the requirement at paragraph (a), the respective scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the said scheme.
- In case a Mutual Fund scheme needs to sell securities on which a call option is written under a covered call strategy, it must ensure compliance with paragraphs (a) and (b) above while selling the securities.
- In no case, a scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts.
- The premium received i.e., the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the scheme.
- The exposure on account of the call option written under the covered call strategy shall not be considered in cumulative gross exposure of the Scheme for computing 100% of the net asset of the scheme.
- The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the respective scheme(s) until the position is closed or expired.

All investment restrictions shall be applicable at the time of making investment. Apart from the investment restrictions prescribed under the SEBI (MF) Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities. The AMC / Trustee may alter the above investment restrictions from time to time to the extent that changes in the SEBI (MF) Regulations may allow and as deemed fit in the general interest of the unit holders.

The Scheme will comply with the other SEBI (MF) Regulations applicable to the investments of Mutual Funds from time to time.

SCHEME INFORMATION DOCUMENT

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

All the investment restrictions will be applicable at the time of making investments. Further, pursuant to SEBI circular dated June 26, 2025, deviation of prudential limits due to passive breaches (occurrence of instances not arising out of omission and commission of AMC) should be rebalanced within 30 business days. If such passive deviations of prudential limits are not rebalanced within 30 business days, justification in writing, including details of efforts taken to rebalance the passive breach shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing of passive breach up to sixty (60) Business Days from the date of completion of mandated rebalancing period. In case the passive deviation of prudential limits is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, reporting and disclosure requirements as specified in para 2.9 of SEBI Master Circular dated June 27, 2024.

The credit of the converted units shall be reflected in the transaction statement provided by the DP to its client. Similarly, request for redemption or any other non – financial request shall be submitted directly to the DP and not to the AMC/ RTA of the Fund. 4. For the units held in demat form investors will receive an account statement from their respective DPs not from AMC / RTA of the Fund. 5. Units will be credited in the demat account only based on fund realization.

	6. The facility of availing the units in demat / remat form is available subject to such processes, operating guidelines and terms & conditions as may be prescribed by the DPs and the depositories from time to time. 7. Presently, the option to hold units in demat form shall not be available for systematic transactions like Systematic Transfer Plan (STP), Systematic Withdrawal Plan (SWP) etc. Such investors shall be mandatorily allotted units in physical form. As per para 14.4.2 of SEBI Master Circular dated June 27, 2024 an option to hold units in demat form shall be available for SIP transactions. However, the units will be allotted based on the applicable NAV as per the SID and will be credited to investors demat account on weekly basis upon realization of funds. For e.g., units will be credited to investors demat account every Monday (or immediate next business day in case Monday happens to be a non-business day) for realization status received in last week from Monday to Friday. If an investor has opted to hold units in demat form for SIP transactions, he will be able to redeem / transfer only those units which are credited to his demat account till the date of submission of redemption / transfer request. Accordingly, redemption / transfer request shall be liable to be rejected in case of non-availability of sufficient units in the investor's demat account as on date of submission of redemption / transfer request.
Minimum Target amount (This is the minimum amount required to operate the scheme and if this is not collected during the NFO period, then all the investors would be refunded the amount invested without any return.)	The minimum subscription (target) amount under the Scheme shall be Rs.10,00,00,000/- (Ten crore) during the New Fund Offer Period. Therefore, subject to the applications being in accordance with the terms of this offer, full and firm allotment will be made to the Unit holders.
Maximum Amount to be raised (if any)	Not Applicable
Dividend Policy (IDCW)	Distribution of amounts under IDCW option shall be in line with provisions mentioned under Chapter 11 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, read with further guidelines/clarifications issued by SEBI from time to time.
Allotment (Detailed procedure)	All applicants including applications received through ASBA on or before the date of closure of the NFO of the scheme will receive full and firm allotment of Units, provided the applications are complete in all respects and are found to be in order, subject to the collection of the minimum target amount. All allotments will be provisional, subject to realisation of payment instrument and subject to the AMC having been reasonably satisfied about receipt of clear funds. Allotment to NRIs/FIIs will be subject to RBI

	approval, if required. NRIs should also attach a copy of the payment cheque / FIRC / Debit Certificate to ascertain the repatriation status of the amount invested. NRI Applicants should also clearly tick on account type as NRE or NRO or FCNR to determine the repatriation status of the investment amount. The AMC /RTA may ascertain the repatriation status purely based on the details provided in the application form under Investment and Payment details and will not be liable for any incorrect information provided by the applicants. Applicants will have to coordinate with their authorized dealers and banks to repatriate the investment amount as and when needed. The process of allotment of units will be completed within 5 business days from the date of closure of the NFO Period. For investors holding units under dematerialised mode, the statement of account shall be sent by the Depository Participant in accordance with SEBI (Depositories and Participants) Regulations, 1996. The AMC shall send confirmation specifying the number of units allotted to the applicant by way of an email and/or SMS's to the applicant's registered email address and/or mobile number as soon as possible but not later than five working days from the date of closure of the NFO Period (NFO) and / or from date of receipt of the request from the unit holder. The Trustee / AMC retain the sole and absolute discretion to reject any application. The AMC / Trustee may require or obtain verification of identity or such other details regarding any subscription or related information from the investor/unit holders as may be required under any law, which may result in delay in dealing with the applications, units, benefits, distribution, etc.
Refund	If application is rejected, full amount will be refunded within 5 working days of closure of NFO. If refunded later than 5 working days @ 15% p.a. for delay period will be paid and charged to the AMC.

The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.	As the Scheme is an open-ended Scheme, this provision is not be applicable.
Restrictions, if any, on the right to freely retain or dispose of units being offered.	Restriction of Repurchase/Redemption (including switch-out) facility under the Scheme: In terms of para 1.12 of SEBI Master circular dated June 27, 2024, the repurchase/redemption (including switch-out) of units of the Scheme may be restricted under any of the following circumstances: • Liquidity issues - When market, at large, becomes illiquid affecting almost all securities rather than any issuer specific security. • Market failures, exchange closures: when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies. • Operational issues: when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g., a black out) Further, such restriction on redemption (including switch-out) may be imposed for a specified period of time not exceeding 10 working days in any 90 days period. Restriction of repurchase/redemption facility under the Scheme shall be made applicable only after the approval from the Board of Directors of the AMC and the Trustees. The approval from the AMC Board and the Trustees giving details of circumstances and justification for the proposed action shall also be informed to SEBI immediately. Further, where such restriction of repurchase/redemption facility under the Scheme is imposed, the Trustee / AMC may, in the

	interest of the Unit holders of the Scheme, keeping in view the unforeseen circumstances / unsure conditions, limit the total amount of redemption which may be redeemed on any business day as the Trustee / AMC may decide in any particular case, provided: 1. No redemption requests upto Rs. 2 lakh shall be subject to such restriction. 2. Where redemption requests are above Rs. 2 lakh, AMCs shall redeem the first Rs. 2 lakh without such restriction and remaining part over and above Rs. 2 lakh shall be subject to such restriction. Subject to provisions of aforesaid SEBI Master circular dated June 27, 2024 and SEBI (MF) Regulations, Trustee / AMC reserves the right to determine the operational procedure concerning such restriction on redemption and the same shall be notified to the investors by display of public notice at various investor service centres of AMC and its website (www.barodabnp-paribas-mf.in). The AMC / Trustee reserve the right to change / modify the aforesaid provisions pertaining to Restriction of Repurchase/Redemption (including switch-out) facility under the Scheme. Freezing / Seizure of Accounts: Investors may note that under the following circumstances the Trustee / AMC may at its sole discretion (and without being responsible and/or liable in any manner whatsoever) freeze/seize a unit holder's account (or deal with the same in the manner the Trustee / AMC is directed and/or ordered) under a Scheme: • Under any requirement of any law or regulations for the time being in force. • Under the direction and/or order (including interim orders) of any regulatory/statutory authority or any judicial authority or any quasi-judicial authority or such other competent authority having the powers to give direction and/or order. Suspension of Sale of the Units: The Sale of units of the Scheme may be suspended temporarily or indefinitely under any of the following circumstances: • During the period of book closure, if any • Stock markets stop functioning or trading is restricted • Periods of extreme volatility in the stock markets, which in the opinion of the Investment Manager is prejudicial to the interest of the unit holders. • A complete breakdown or dislocation of business in the major financial markets • Natural calamities • Declaration of war or occurrence of insurrection, civic commotion or any other serious or sustained financial, political or industrial emergency or disturbance • SEBI, by orders, so direct
--	---

	• Temporary Suspension of Sale due to monitoring of limits for investments in Overseas securities: The AMC /Trustee reserve the right to temporarily suspend subscriptions /switches/SIPs/STPs etc. into the Scheme if the limits prescribed by SEBI for overseas investments, as below, are exceeded or are expected to exceed, subject to the SEBI (MF) Regulations and approvals and the same shall be notified to the investors by display of public notice at various investor service centres of AMC and its website (www.barodabnpparibasmf.in). Pursuant to para 12.19 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 : - The current limit for overseas investments by the Mutual Fund is equivalent to USD 1 billion - During the NFO, the Scheme intends to collect a maximum amount equivalent to USD 100 million. The said limit shall be valid for a period of six months from the date of closure of NFO Thereafter on an ongoing basis, after six months from closure of NFO, the AMC is allowed to invest in overseas securities upto 20% of the average Asset Under Management ('AUM') in overseas securities of the previous three calendar months subject to maximum limit of USD 1 Billion at Fund house level. The Trustee / AMC reserves the right in its sole discretion to withdraw the facility of sale of the units of the Scheme [including any one Plan/Option of the Scheme], temporarily or indefinitely, if AMC views that changing the size of the corpus may prove detrimental to the existing unit holders of the Scheme. In the above eventualities, the time limits indicated, for processing of requests for subscription of units will not be applicable.

In the event of failure of such dispatch within the stipulated 7 business days period, the AMC shall be liable to pay interest @ 15 per cent per annum to the unit holders and the interest for the delayed payment for amounts distributed under IDCW option shall be calculated from the record date. Investors shall also be informed about the rate and amount of interest paid to them.	
Redemption	The redemption or repurchase proceeds shall be dispatched to the unitholders within three working days from the date of redemption or repurchase. A penal interest of 15% per annum or such other rate as may be prescribed by SEBI from time to time, will be paid in case the redemption proceeds are not despatched within 3 business days of the date of valid redemption / repurchase request. For list of exceptional circumstances refer para 14.1.3 of SEBI Master Circular for Mutual Funds dated June 27, 2024	
Bank Mandate	Bank Account Details:	

	In order to protect the interest of Unit Holders from fraudulent encashment of cheques, the SEBI (MF) Regulations have made it mandatory for investors to mention in their application / redemption request, their bank name and account number. The normal processing time may not be applicable in situations where such details are not provided by investors / Unit Holders. The AMC will not be responsible for any loss arising out of fraudulent encashment of cheques and / or any delay / loss in transit. Investors would be required to submit any one of the following documents, in case the cheque provided along with fresh subscription/new folio creation does not belong to the bank mandate specified in the application form: (i) Original cancelled cheque or photocopy of the cheque having the First Holder name printed on it; (ii) Original cancelled cheque or photocopy of the cheque without having the name printed on it and either of (a) Original bank statement reflecting the First Holder Name, Bank Account Number and Bank Name as specified in the application (b) Photocopy of the bank statement/ bank pass book duly attested by the bank manager/ authorized official and bank seal (c) Bank Confirmation for the name and Bank Account Number of the First Holder along with MICR & IFSC details duly signed by the bank manager/authorized official. In case, the application for subscription does not comply with the above requirements, the AMC may, at its sole and absolute discretion, reject/not process such application and refund the subscription amount to the bank account from where the investment was made and shall not be liable for any such rejection/refund. Registration of multiple bank accounts: Unitholders can also register multiple bank accounts in his folio. The "Change of Bank Mandate & Registration of Multiple Bank Account Form" shall be used by the unitholders for change in existing bank mandate or for registration of multiple bank account details for all investments held in the specified folio (existing or new). Individuals and HUF investors can register up to 5 bank accounts and non-individuals can register upto 10 bank accounts by filling up the Multiple Bank Registration Form. AMC / RTA shall adopt the same process of verification for the above registration as is applicable for change of bank mandate.
Delay in payment of redemption / repurchase proceeds/dividend	The AMC shall be liable to pay interest to the unitholders at such rate as may be specified vide clause 14.2 of SEBI Master Circular for Mutual Funds dated June 27, 2024 by SEBI for such delays (presently @ 15% per annum).
Unclaimed Redemption and Income	The treatment of Unclaimed Redemption and IDCW amount shall be as per para 14.3 of Master Circular dated June 27, 2024. For more details refer "SAI"

Disclosure w.r.t investment by minors	In case of minor's application, AMC will register standing instructions till the date of the minor attaining majority, though the instructions may be for a period beyond that date. Prior to minor attaining majority, AMC shall send advance notice to the registered correspondence address advising the guardian and the minor to submit an application form along with prescribed documents to change the status of the account to "major". The account shall be frozen for operation by the guardian on the day the minor attains the age of majority and no fresh transactions shall be permitted till the documents for changing the status are received. As per SEBI Master Circular dated June 27, 2024, Investments (including through existing SIP registrations) in the name of minors shall be permitted only from bank account of the minor, parent or legal guardian of the minor or from a joint account of the minor with the parent or legal guardian. Further to note that the redemption/ Income Distribution cum Capital Withdrawal (IDCW) proceeds for investments held in the name of Minor shall continue to be transferred to the verified bank account of the minor (i.e. of the minor or minor with parent/ legal guardian) only. Therefore, investors must ensure to update the folios with minor's bank account details as the 'Pay-out Bank account' by providing necessary documents before tendering redemption requests / for receiving IDCW distributions. Please refer "SAI" for disclosures w.r.t investment by minors

Based on the para 16.6 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, to comply with the requirements of RTA inter-operable Platform for enhancing investors' experience in Mutual Fund transactions / service requests, the Qualified RTAs (QRTA's), Kfin Technologies Limited (Kfintech) and Computer Age Management Services Limited (CAMS) have jointly developed MFCentral - A digital platform for Mutual Fund investors.

MFCentral is created with an intent to be a one stop portal / mobile app for all Mutual fund investments and service-related needs that significantly reduces the need for submission of physical documents by enabling various digital / phygital services to Mutual fund investors across fund houses subject to applicable Terms & Conditions of the MFCentral platform. MFCentral will be enabling various features and services in a phased manner. MFCentral may be accessed using link <https://mfcentral.com/> (or its app in future).

SCHEME INFORMATION DOCUMENT

With a view to comply with all provisions of the aforesaid circular, AMC/the Fund designates MFCentral as its Official Points of Acceptance of Transactions (OPAT) w.e.f. September 23, 2021.

Any registered user of MFCentral, requiring submission of physical document as per the requirements of MFCentral, may do so at any of the designated Investor Service centres or collection centres of Kfintech or CAMS.
