<p>*Money Market Instruments will include treasury bills and government securities having a residual maturity upto one year, Tri-Party Repos, Repo in government securities and treasury bills and any other like instruments as specified by the Reserve Bank of India from time to time.</p> <p>During normal circumstances, the Scheme's exposure to debt and money market instruments will be in line with the asset allocation table. However, in case of addition/deletion of instruments in the Scheme portfolio, the reinvestment will be in line with the index methodology. As per para 12.24 of SEBI Master Circular dated June 27, 2024, the cumulative gross exposure through Equity, debt, derivatives and money market instruments will not exceed 100% of the net assets of the scheme.</p> <p>The scheme may take exposure to derivative instruments on underlying index (stock/ index futures) up to 20% of the Net Assets. Derivatives shall mean derivatives instruments as permitted by SEBI, including derivative exposure in accordance with SEBI Master Circular dated June 27, 2024 and such other amendments issued by SEBI from time to time. The Scheme may take an exposure to equity derivatives of constituents of the underlying Basket when securities of the Basket are unavailable, insufficient or for rebalancing at the time of change in Basket or in case of corporate actions, for a short period of time, subject to derivative limits. Such exposure to derivatives will be rebalanced within seven calendar days. The Scheme may use derivative instruments such as stock/index futures and stock/index options contracts, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objective of the Scheme.</p> <p>The scheme shall also undertake stock lending for up to 20% of its Net Assets. The same shall be in accordance with para 12.11 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.</p> <p>The Scheme will not invest in Foreign Securities. The Scheme will not indulge in short selling. The scheme shall not participate in reverse repurchase agreements in corporate debt securities, Credit Default Swaps (CDS) for Corporate Bonds, Structured Obligation and Credit Enhancement, debt derivatives, securitised debt, investment in debt instruments with special features (AT1 and AT2 bonds) and investment in REITs & InvITs.</p> <p>The Scheme may enter into repos/reverse repos as may be permitted by RBI other than repo in corporate debt securities. From time to time, the Scheme may hold cash. A part of the net assets may be invested in Tri-Party repo or repo or in an alternative investment as may be provided by RBI. However, with reference to SEBI letter No. SEBI/HO/IMD-II/DOF3/OW/P/2021/31487/1 dated November 03, 2021, cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. Cash equivalent shall consist of following securities having residual maturity of less than 91 days:</p> <ol style="list-style-type: none"> 1. Government securities 2. T- Bills and 3. Repo on Government Securities <p>It may be noted that AMC has to adhere to the asset allocation pattern indicated in the Scheme Information Document under normal circumstances.</p>				

According to para 12.16 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, pending deployment of funds of the Scheme in securities in terms of investment objective of the Scheme, the Mutual Fund may invest the funds of the Scheme in short term deposits of scheduled commercial banks subject to restrictions laid down under the SEBI Regulations from time to time.

<p>Portfolio Rebalancing Strategy in case of passive deviation:</p> <p>(a) The Scheme shall seek to replicate the index completely at all times. (b) In the event of index reconstitution and rebalance, the scheme shall complete the rebalance of its portfolio within 7 calendar days from the date of occurrence of deviation.</p> <p>In case of change in constituents of the index due to periodic review, the portfolio of the scheme shall be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time. At all times the AMC shall ensure that the portfolio will adhere to the overall investment objective of the Scheme.</p> <p>In the event of involuntary corporate action, the Scheme shall dispose the security not forming part of the underlying index within 7 Days from the date of allotment/ listing, whichever is later.</p> <p>Portfolio rebalancing under defensive consideration As per para 3.6.7.1 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be rebalanced within 7 calendar days from the date of deviation and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.</p> <p>Tracking Error Tracking error is defined as the standard deviation of the difference between the daily returns of the Underlying index and NAV of the scheme. The scheme's returns may deviate from the underlying benchmark index for the following reasons:</p> <ol style="list-style-type: none"> 1. Fees & expenditure incurred by the scheme. 2. Cash held by the scheme due to subscriptions or to meet redemptions, expenses etc. 3. Corporate Actions 4. Halting of trading in underlying securities by exchange 5. Methodology of calculation of settlement price of the index. The benchmark or underlying index reflects the Volume Weighted Average Price (VWAP) of securities in the last half hour. However the scheme may buy and sell at different points in time during the trading session at the then prevailing prices which may not correspond to the closing prices on the exchange. 					

		<p>6. Inability to acquire the securities due to various reasons like circuit filters, lack of liquidity etc.</p> <p>7. Delay in replicating the portfolio during times of high volatility and reconstitution/rebalancing of index.</p> <p>8. Rounding off securities for buying or selling as compared to the underlying index.</p> <p>The AMC and fund manager would monitor the tracking error of the scheme on an ongoing basis and would seek to keep tracking error as low as possible. Under normal circumstances and as per SEBI regulation, it would not cross 2% per annum. However, in case of various market events beyond the control of AMC or fund manager like dividend issuance by constituent members, rights issuance by constituent members, market volatility during reconstitution and rebalancing of portfolio and any abnormal circumstances, tracking error may exceed the prescribed limits. . In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. There can be no assurance or guarantee that the scheme will achieve any particular level of tracking error relative to performance of the Underlying Index</p> <p>Disclosure of Tracking Error & Tracking Difference: The Scheme will disclose the tracking error based on past one year rolling data, on a daily basis, on the website of AMC and AMFI. In case the Scheme has been in existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data. Tracking Difference is the annualized difference of daily returns between the index and NAV of the scheme. It shall be disclosed on a monthly basis on website of AMC and AMFI for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units.</p> <p>For details please refer Annexure 1</p>

** In accordance with SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2018/15 dated February 02, 2018, AMC shall not charge any additional expense of upto 0.05% as per Regulation 52(6A) (c), if exit load is not being levied under the Scheme.

b. The AMC may charge GST on investment management and advisory service fees ('AMC Fees') which shall be borne by the Scheme in addition to the total expense ratio mentioned in table above;

c. @Brokerage costs which are incurred for the purpose of execution of trade shall be charged to the Scheme, not exceeding 0.12% in case of cash market transactions and 0.05% in case of derivative transactions;

Any payment towards brokerage costs, over and above the said 12bps and 5bps for cash market and derivatives transactions respectively, shall be charged to the Scheme within the total recurring expenses limit specified under Regulation 52 of SEBI Mutual Fund Regulations, 1996. Any expenditure in excess of the said limit will be borne by the AMC/Trustees/Sponsors.

The total expenses charged to the scheme shall be the maximum limit of TER as prescribed under regulation 52. All scheme related expenses including commission paid to distributors, if any, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars, subject to the clarifications provided by SEBI to AMFI vide letter dated February 21, 2019 as amended from time to time on implementation of SEBI Circular dated October 22, 2018 on Total

Expense Ratio (TER) and performance disclosure for Mutual Fund.

Investors should note that the total recurring expenses of the scheme excluding issue or redemption expenses, whether initially borne by the Mutual Fund or by the AMC, but including the investment management and advisory fee, shall not exceed the limits as prescribed under Regulation 52 of the SEBI Regulations. The AMC will charge the Scheme such actual expenses incurred, subject to the statutory limit prescribed in the Regulations.

For the actual current expenses being charged, the investor should refer to the website of the mutual fund at the following link <<https://www.barodabnpparibasmf.in/downloads/total-expense-ratio-of-mutual-fund-schemes>>. Any change proposed to the current expense ratio will be updated on the website and communicated to the investors via e-mail or SMS at least three working days prior to the effective date of the change (in accordance with para 10.1.8 of SEBI Master circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024). Further, the disclosure of the expense ratio on a daily basis shall also be made on the website of AMFI viz. www.amfiindia.com.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per SEBI (Mutual Funds) Regulations, 1996. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

<p>What are the Investment Strategies?</p>	<p>The scheme is an Exchange Traded Fund (ETF) tracking the Nifty Bank Total Returns Index. The Scheme will be passively managed employing an investment strategy that seeks to track/replicate the performance of the underlying index, subject to tracking error. The scheme seeks to achieve this goal by investing in the securities constituting the Nifty Bank Total Returns Index in the same proportion as in the Index.</p> <p>The scheme may take exposure to derivative instruments on underlying index (stock/ index futures) up to 20% of the Net Assets. Derivatives shall mean derivatives instruments as permitted by SEBI, including derivative exposure in accordance with SEBI Master Circular dated June 27, 2024 and such other amendments issued by SEBI from time to time. The Scheme may take an exposure to equity derivatives of constituents of the underlying Basket when securities of the Basket are unavailable, insufficient or for rebalancing at the time of change in Basket or in case of corporate actions, for a short period of time, subject to derivative limits. Such exposure to derivatives will be rebalanced within seven calendar days. The Scheme may use derivative instruments such as stock/index futures and stock/index options contracts, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objective of the Scheme. Derivative limit subject to limit of 20% of net assets.</p>
<p>Where will the Scheme invest?</p>	<p>The Scheme may invest its funds in the following securities:</p> <ul style="list-style-type: none"> • Equity and equity related instruments including equity and index derivatives. • Money market instruments permitted by SEBI/RBI, having maturities of up to one year or in alternative investment for the call money market as may be provided by the RBI to meet the liquidity requirements. • Certificate of Deposits (CDs), Commercial Paper (CPs), Bill – Rediscounting (BRDS). • Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). • Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills); • Money market instruments as permitted by SEBI/RBI. • Any other domestic fixed income securities as permitted by SEBI/ RBI from time to time (subject to the required approval if any) • Tri-Party Repo or repo or any alternative investment as may be provided by RBI. <p>Any other instruments / securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations.</p> <p>Position of debt & money market in India</p> <p>The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt</p>

market. The latter is further classified as market for PSU bonds and private sector bonds.

The G-Sec market is the oldest and the largest component of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Sec market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Overnight Call
- Tri-party repo on Government Securities or treasury bills (TREPS).
- Repo/Reverse Repo Agreement
- Treasury Bills
- Government securities
- Commercial Paper
- Certificate of Deposit

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as money market instruments, PSU / DFI / corporate paper with a residual maturity of < 1 year, are actively traded and offer a viable investment option. The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

NAV Disclosure	<p><u>Disclosure Timings:</u></p> <p>The AMC/Mutual Fund shall declare the Net Asset Value of the Scheme on every business day on AMFI's website (www.amfiindia.com) by 11 p.m. of the following calendar day and also on its website (www.barodabnpparibasmf.in). The NAV shall be calculated for all business days. In case of any delay, the reasons for such delay would be explained to AMFI and SEBI in writing and the number of such instances would also be reported to SEBI on quarterly basis. If the NAVs are not available before the commencement of business hours of the following day due to any reason, the Mutual Fund shall issue a press release providing reasons and explaining when the Mutual Fund would be able to publish the NAVs. The NAV shall also be made available to Unit Holders through SMS upon receiving a specific request in this regard on its website. Indicative NAV, henceforth known as iNAV is NAV per unit calculated using the current market value of its portfolio during market hours. It will be disclosed on a continuous basis on the AMC and stock exchange where the units of the Scheme are listed and traded and as per para 3.6.5. of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-z/P/CIR/2023/74 dated June 27, 2024. Accordingly, iNAV disclosed for Bank ETFs may either be static or dynamic depending upon the availability of the underlying price iNAV will not have any bearing on the subscription or redemption of units directly with the Scheme by Authorized participant / Large Investor.</p> <p><u>Disclosure pertaining to illustration on computation of NAV and Methodology for calculation of sale and re-purchase price of the units of mutual fund scheme:</u></p> <p>The Net Asset Value (NAV) per Unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding under the Scheme on the valuation date. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time. Risk factors	<p>Scheme Specific Risk Factors</p> <p>The scheme tracks benchmark index which may comprise of large Indian banking stocks. The scheme being passively managed invests in stocks of the underlying index and will therefore be subject to the risks associated with concentration of investments in a particular company/sector. The weightage of each stock is capped at the time of rebalancing of index, which may help in limiting concentration risk. In addition, the scheme may be subject to following sector specific risks including but not limited to:</p>														

- The performance of the banking sector has a direct correlation to the performance of the economy. The sector is vulnerable to the adverse impacts on domestic as well as the global economy. Events such as recession, war, monsoon, political upturn, etc. may adversely affect the banks.
- The sector is highly regulated in terms of capital and liquidity requirements, recognition and provisioning requirement for advances, valuation of investments, etc. Hence, changes in such requirements may adversely affect performance of banks.
- Changes in Government/Reserve Bank of India policy/regulation/reforms etc. affecting banking sector may have a significant bearing on performance of the banks.
- Macroeconomic factors like changes in interest rate, inflation rate, etc. can have direct impact on the performance of banks or the companies which have been provided funding by banks.
- The volatility and/or performance of the said sector and/or of the companies belonging to this sector may have a material adverse bearing on the performance of the Scheme

Right to Limit Redemptions: The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with para 1.12 of SEBI Master circular dated June 27, 2024.

Risks associated with investing in Equities:

- Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods, and such periods may be extended significantly by unforeseen circumstances. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.
- The value of the Schemes' investments in Equity & equity related instruments may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Schemes may fluctuate and can go up or down.
- The Mutual Fund may not be able to sell securities, which can lead to temporary illiquidity. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to be collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.
- Investors may note that IDCW is due only when declared and there is no assurance that a company (even though it may have a track record of payment of IDCW in the past) may continue paying IDCW in future. As such, the schemes are vulnerable to instances where investments in securities may not earn IDCW or where lesser IDCW is declared by a company in subsequent years in which investments are made by schemes. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay IDCW, the performance of the schemes may be adversely affected due to such factors.
- While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.
- Fund manager endeavors to generate returns based on certain past statistical trend. The performance of the schemes may get affected if there is a change in the said trend. There can be no assurance that such historical trends will continue.

- The schemes are also vulnerable to movements in the prices of securities invested by the schemes which again could have a material bearing on the overall returns from the schemes. These stocks, at times, may be relatively less liquid as compared to growth stocks.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Schemes or business prospects of the Company in any particular sector.
- The Scheme may find itself invested in unlisted securities due to external events or corporate actions. This may increase the risk of the portfolio as these unlisted securities are inherently illiquid in nature and carry larger liquidity risk as compared to the listed securities or those that offer other exit options to the investors.

Risks associated with ETF:

- Investments in the securities constituting the Index are subject to price fluctuation on daily basis. The volatility in the value of those securities is due to various micro and macroeconomic factors like economic and political developments, changes in interest rates, etc. affecting the securities markets. This may have adverse impact on the NAV of Scheme.
- As the units of the ETF are listed on the Stock Exchange, trading in the units may be halted due to market conditions or for reasons that in the view of the Exchange Authorities or Regulator. There could also be trading halts caused by extraordinary market volatility and pursuant to Exchange Authorities and Regulator circuit filter rules and the ETF's would not be able to buy/sell securities in case of subscriptions/redemptions, which may impact the Scheme. Further, there can be no assurance that the requirements of the exchange necessary to maintain the listing of the ETF's will continue to be met or will remain unchanged.
- Listing and trading of the ETF's are undertaken on the Stock Exchanges within the rules, regulation and policy of the Stock Exchange and Regulator. Any change in trading rules, regulation and policy by the regulatory authority would have a bearing on the trading of the units of the ETF's and its prices.
- The NAV of the ETF's and or Index funds reflect the valuation of its investment and any changes in market value of its investments would have a bearing on its NAV. When the units are traded on the Stock Exchange, the units of the ETF's may trade at prices which can be different from the NAV due to various factors like demand and supply for the units of the ETF's, perceived trends in the market outlook, etc.
- Market Risk: The ETF's and or Index funds NAV will react to stock market movements. The value of investments in the scheme may go down over a short or long period due to fluctuations in ETF's and or Index funds NAV in response to factors such as performance of companies whose stock comprises the underlying portfolio, economic and political developments, changes in government policies, changes in interest rates, inflation and other monetary factors causing movement in prices of underlying investments.
- Index-Related Risk: The ETF's and or Index funds invests in securities of the Nifty Bank Total Returns Index and in the same proportion as the securities have in the Index. Hence, the risk associated with the corresponding Index would be applicable to the ETF's and or index funds. The Index may have its own criteria and policy for inclusion/exclusion of securities from the Index, its maintenance thereof and effecting corporate actions. The ETF's and or Index funds would invest in the securities of the Index regardless of investment merit, research, without taking a view of the market and without adopting any defensive measures. The ETF's and or Index funds would not select securities in which it wants to invest but is guided by the Index. As such the ETF's and or Index funds is not actively managed but is passively managed. There is no guarantee that the ETF's and or Index funds will achieve a high degree of correlation to the Underlying Index and therefore achieve its investment objective.

- **Management Risk.** As the ETF's and or Index funds may not fully replicate the Underlying Index, it is subject to the risk that investment strategy may not produce the intended results.
 - **Concentration Risk.** The ETF's and or Index funds may be susceptible to an increased risk of loss, including losses due to adverse occurrences affecting the ETF's and or index funds more than the market, to the extent that the investments are concentrated in the securities of a particular issuer or issuers, country, group of countries, region, market, industry, group of industries, sector or asset class...
 - In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the ETF to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the ETF portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the ETF.
 - **Passive Investments:** The ETF's and or Index funds is not actively managed. Since the Scheme is linked to an index, it may be affected by a general decline in the securities constituting that index. The Scheme as per its investment objective invests in the securities of the underlying index regardless of their investment merit.
 - **Equity Securities Risk:** Equity securities are subject to changes in value and their values may be more volatile than those of other asset classes.
- Risks associated with investing in fixed income securities:**
- **Credit and Counterparty risk:** Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security or honor its contractual obligations).
Counterparty risk refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty to which the scheme has exposures. Losses can occur in particular for the settlement/delivery of financial instruments or the conclusion of financial derivatives contracts.
The value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit and counterparty risk as well as any actual event of default. Changes in financial conditions of an issuer, changes in economic and political conditions in general, or changes in economic or and political conditions specific to an issuer, all of which are factors that may have an adverse impact on an issuer's credit quality and security value.
 - **Liquidity Risk:** The liquidity of the scheme's investment is inherently restricted by trading volumes in the securities in which the scheme invests.
A lower level of liquidity affecting an individual security or an entire market at the same time, may have an adverse bearing on the value of the scheme's assets. More importantly, this may affect the Fund's ability to sell particular securities quickly enough to minimize impact cost, as and when necessary to meet requirements of liquidity or to sell securities in response to triggers such as a specific economic/corporate event.
Trading volumes, settlement periods and transfer procedures may restrict the liquidity of a few or all the investments and may affect the liquidity of the investments of the scheme.
The scheme may be unable to implement purchase or sale decisions when the markets turn illiquid, missing some investment opportunities or limiting ability to face redemptions. The lack of liquidity could also lead to the risk that the sale price of a security could be substantially lower than the fair value of the security.
 - **Interest Rate Risk & Re-investment Risk:** The value of an investment may be affected by interest rate fluctuations. Interest rates may be influenced by several elements or events, such as monetary policy, the discount rate, inflation, etc. The value of debt and fixed income securities held by the Scheme generally will vary inversely with the changes in prevailing interest rates. In general, price of debt and fixed income securities go up when interest rates fall, and vice versa. Securities of any issuer that has

higher duration could be riskier in terms of price movements relative to those with lower duration. Thus, any impact of interest rate changes would be higher on securities with higher duration irrespective of the status of the issuer of the security. The investments made by the Scheme are subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

- **Sovereign risk:** The Central Government of India is the issuer of the local currency debt in India. The Government raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since payment of interest and principal amount has a sovereign status implying least probability of a default, such securities are known as securities with sovereign credit. It also implies that the credit risk on such Government securities is even lower than that on non-government securities with "AAA" rating and hence yields on government securities are even lower than yields on non-government securities with "AAA" rating.
- **Concentration Risk:** The Scheme may pursue only a limited degree of diversification. It may invest in a limited number of securities or invest a greater proportion of assets in the securities of very few issuers (within the limits permitted by regulation) or be concentrated on a few market sectors as compared to a diversified scheme. The scheme is also expected to have higher market liquidity risk on account of concentration. This could have implications on the performance of the scheme. The scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the scheme.

Risk Factors associated with Investments in Derivatives:

The Scheme(s) may use various derivative instruments and techniques, permitted within SEBI (Mutual Funds) Regulations, 1996 from time to time including but not limited for portfolio balancing and hedging purpose, which may increase the volatility of Scheme's performance. Usage of derivatives will expose the Scheme(s) to certain risks inherent to such derivatives.

Derivative products are specialized instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. There is a possibility that a loss may be sustained by the Scheme(s) as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, interest rates and indices. Even a small price movement in the underlying instrument could have a large impact on their value. This could increase the volatility of the Scheme's performance.

In case of hedge, it is possible that derivative positions may not be perfectly in line with the underlying assets they are hedging. As a consequence the derivative cannot be expected to perfectly hedge the risk of the underlying assets. This also increases the volatility of the Scheme's performance. Some of the risks inherent to derivatives investments include:

1. **Price Risk:** Despite the risk mitigation provided by various derivative instruments, there remains an inherent price risk which may result in losses exceeding actual underlying.
2. **Default Risk:** This is the risk that losses will be incurred due to default by counter party. This is also known as credit risk or counterparty risk.

3. **Basis Risk:** This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged for e.g., mismatch between the maturity date of the futures and the actual selling date of the asset.

4. **Limitations on upside:** Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.

5. **Liquidity risk:** This risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

6. **Systematic Risk:** The risk inherent in the capital market due to macro economic factors like Inflation, GDP, Global events

7. **System Risk:** The risk arising due to failure of operational processes followed by the exchanges and OTC participants for the derivatives trading.

Risks associated with investments in mutual fund units

To the extent of the investments made by the scheme in mutual funds units, the risks associated with investing in such funds like market risk, credit & default risk, liquidity risk, redemption risk including the possible loss of principal; etc. will exist.

Other Risks:

- **Risk associated with inflation:** Over time, yields of short-term investments may not keep pace with inflation, leading to a reduction in an investment's purchasing power.
- **Legal risk:** The scheme may be affected by the actions of government and regulatory bodies. Legislation could be imposed retrospectively or may be issued in the form of internal regulations which the public may not be aware of. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the scheme from pursuing their strategies or which renders an existing strategy less profitable than anticipated. Such actions may take any form, for example nationalization of any institution or restrictions on investment strategies in any given market sector or changing requirements and imposed without prior warning by any regulator.
- **Taxation risk:** The value of an investment may be affected by the application of tax laws, including withholding tax, or changes in government or economic or monetary policy from time to time. As such, no guarantee can be given that the financial objectives will actually be achieved. The tax information described in this Scheme Information Document (SID) is as available under the prevailing taxation laws. This could be changed at any moment by regulation. Further, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the scheme will endure indefinitely.
- **Valuation risk:** This risk relates to the fact that markets, in specific situations and due to lack of volumes of transactions, do not enable an accurate assessment of the fair value of invested assets. In such cases, valuation risk represents the possibility that, when a financial instrument matures or is sold in the market, the amount received is less than anticipated, incurring a loss to the portfolio and therefore impacting negatively the NAV of the scheme.
- **Operational Risk:** Operational risk addresses the risk of trading and back office or administration issues that may result in a loss to the Scheme. This could be the result of oversight, ineffective securities processing procedures, computer systems problems or human error. There could also be risk associated with grouping of orders. For instance, at the time of placing the trades, the fund manager shall group orders on behalf of all schemes managed by him, provided it is unlikely to be detrimental overall for any of the schemes whose orders have been included. However, such grouping may have a detrimental effect to the scheme compared to the execution of an individual order for the scheme.

Risk factors associated with processing of transaction in case of investors investing in mutual fund units

through Stock Exchange Mechanism: The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognized stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing / settlement, etc. upon which the Fund and the AMC have no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s) upon which the Fund and the AMC have no control. Accordingly, there could be negative impacts to the investors such as delay or failure in allotment / redemption of Units. The Fund and the AMC are not responsible for the negative impacts.

Tracking Error Risk: Tracking error is defined as the standard deviation of the difference between the daily returns of the Underlying index and NAV of the scheme. The scheme's returns may deviate from the underlying benchmark index for the following reasons:

- Fees & expenditure incurred by the scheme.
- Cash held by the scheme due to subscriptions or to meet redemptions, expenses etc.
- Corporate Actions
- Halting of trading in underlying securities by exchange
- Methodology of calculation of settlement price of the index. The benchmark or underlying index reflects the Volume Weighted Average Price (VWAP) of securities in the last half hour. However, the scheme may buy and sell at different points in time during the trading session at the then prevailing prices which may not correspond to the closing prices on the exchange.
- Inability to acquire the securities due to various reasons like circuit filters, lack of liquidity etc.
- Delay in replicating the portfolio during times of high volatility and reconstitution/rebalancing of index.
- Rounding off securities for buying or selling as compared to the underlying index.

The AMC and fund manager would monitor the tracking error of the scheme on an ongoing basis and would seek to keep tracking error as low as possible. Under normal circumstances and as per SEBI regulation, it would not cross 2% per annum. However, in case of various market events beyond the control of AMC or fund manager like dividend issuance by constituent members, rights issuance by constituent members, market volatility during reconstitution and rebalancing of portfolio and any abnormal circumstances, tracking error may exceed the prescribed limits. There can be no assurance or guarantee that the scheme will achieve any particular level of tracking error relative to performance of the Underlying Index

Tracking Difference: The tracking difference i.e. the annualized difference of daily returns between the index and the NAV of the Scheme will be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units.

Risks associated with segregated portfolio:

- Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
- Security comprises of segregated portfolio may not realise any value.
- Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.
- Trading in the units of segregated portfolio on the Exchange may be halted because of market conditions, including any halt in the operations of Depository Participants or for reasons that in view of the Exchange Authorities or SEBI, trading in the units is suspended and / or restricted. In addition, trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange rules of 'circuit filter'. There can be no assurance that the requirements of Stock Exchange necessary to maintain the listing of units of scheme will continue to be met or will remain unchanged.

Passive Investments:

The Scheme is not actively managed. Since the Scheme is linked to index, it may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective

	<p>invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.</p> <p>Risk control measures For the Scheme, risks would be the impact cost on securities, the delayed communication of weightage changes by the index service providers and the delayed calculation of net change in assets of the Scheme, amongst others. It is proposed to manage the risks by placing limit orders for basket trades and other trades, proactive follow-up with the service providers for daily change in weights in index as well as monitor daily inflows and outflows to and from the Fund closely. While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC. The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by RBI/SEBI, in an attempt to protect the value of portfolio and enhance Unitholder's interest.</p> <p>C. Risk Mitigation Measures: The Scheme will invest in various securities / instruments which carry various risks such as inability to sell securities, trading volumes and settlement periods, market risk, interest rate risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification and hedging. In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in securities market. Further, the AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. Internal limits are defined and judiciously monitored. Risk indicators on various parameters are computed and are monitored on a regular basis. There is a Board level Committee, the Risk Management Committee of the Board, which enables a dedicated focus on risk factors and the relevant risk mitigants.</p>

As Units may not be held by any person in breach of the SEBI Regulations, any law or requirements of any governmental, statutory authority including, without limitation, exchange control regulations, the Mutual Fund / Trustee / AMC may mandatorily redeem all the Units of any Unitholder where the Units are held by a Unitholder in breach of the same.</p> <p>The Mutual Fund / Trustee / AMC may redeem Units of any Unitholder in the event it is found that the Unitholder has submitted information either in the application or otherwise that is false, misleading or incomplete. .</p>
<p>The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.</p>	<p>As the Scheme is an open ended Scheme, this provision may not be applicable.</p>
<p>Restrictions, if any, on the right to freely retain or dispose of units being offered.</p>	<p>Restriction of Repurchase/Redemption (including switch-out) facility under the Scheme:</p> <p>In terms of para 1.12 of SEBI Master circular dated June 27, 2024. the repurchase/redemption (including switch-out) of units of the Scheme may be restricted under any of the following circumstances:</p> <ul style="list-style-type: none"> • Liquidity issues - When market, at large, becomes illiquid affecting almost all securities rather than any issuer specific security. • Market failures, exchange closures: when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies • Operational issues: when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out) <p>Further, such restriction on redemption (including switch-out) may be imposed for a specified period of time not exceeding 10 working days in any 90 days period.</p> <p>Restriction of repurchase/redemption facility under the Scheme shall be made applicable only after the approval from the Board of Directors of the AMC and the Trustees. The approval from the AMC Board and the Trustees giving details of circumstances and justification for the proposed action shall also be informed to SEBI immediately.</p> <p>Further, where such restriction of repurchase/redemption facility under the Scheme is imposed, the Trustee / AMC may, in the interest of the Unit holders of the Scheme, keeping in view the unforeseen circumstances / unsure conditions, limit the total amount of redemption which may be redeemed on any business day as the Trustee / AMC may decide in any particular case, provided:</p> <ol style="list-style-type: none"> 1. No redemption requests upto Rs. 2 lakh shall be subject to such restriction. 2. Where redemption requests are above Rs. 2 lakh, AMCs shall redeem the first Rs. 2 lakh without such restriction and remaining part over and above Rs. 2 lakh shall be subject to such restriction. <p>Subject to provisions of aforesaid SEBI circular dated June 27, 2024 and SEBI (Mutual Funds) Regulations, 1996, Trustee / AMC reserves the right to determine the operational procedure concerning such restriction on redemption and the same shall be notified to the investors by display of public notice at various investor service centres of AMC and its website (www.barodabnp-paribasmf.in).</p> <p>The AMC / Trustee reserve the right to change / modify the aforesaid provisions pertaining to Restriction of Repurchase/Redemption (including switch-out) facility under the Scheme.</p> <p>Freezing / Seizure of Accounts:</p> <p>Investors may note that under the following circumstances the Trustee / AMC may at its sole discretion (and without being responsible and/or liable in any manner whatsoever) freeze/seize</p>

	<p>a unit holder's account (or deal with the same in the manner the Trustee / AMC is directed and/or ordered) under a Scheme:</p> <ul style="list-style-type: none"> • Under any requirement of any law or regulations for the time being in force. • Under the direction and/or order (including interim orders) of any regulatory/statutory authority or any judicial authority or any quasi-judicial authority or such other competent authority having the powers to give direction and/or order. <p>Suspension of Sale of the Units: The Sale of units of the Scheme may be suspended temporarily or indefinitely under any of the following circumstances:</p> <ul style="list-style-type: none"> • During the period of book closure, if any • Stock markets stop functioning or trading is restricted • Periods of extreme volatility in the stock markets, which in the opinion of the Investment Manager is prejudicial to the interest of the unit holders. • A complete breakdown or dislocation of business in the major financial markets • Natural calamities • Declaration of war or occurrence of insurrection, civic commotion or any other serious or sustained financial, political or industrial emergency or disturbance • SEBI, by orders, so direct <p>The Trustee / AMC reserves the right in its sole discretion to withdraw the facility of sale of the units of the Scheme, temporarily or indefinitely, if AMC views that changing the size of the corpus may prove detrimental to the existing unit holders of the Scheme. In the above eventualities, the time limits indicated, for processing of requests for subscription of units will not be applicable.</p>
<p>Cut off timing for subscriptions/ redemptions/ switches This is the time before which your application (complete in all respects) should reach the official points of acceptance.</p>	<p>In case of Purchase / Redemption directly with Mutual Fund (By Authorized Participants and Large Investors):</p> <p>Direct transaction in ETFs through AMCs Direct transaction with AMCs shall be facilitated for investors only for transactions above a specified threshold. In this regard, to begin with any order placed for redemption or subscription directly with the AMC must be of creation unit size. All direct transactions in units of ETFs by Market Makers or other eligible investors (as mentioned above) with AMCs shall be at intra-day NAV based on the actual execution price of the underlying portfolio.</p> <p>For Redemption of units directly with the Mutual Fund (other than Authorized Participants and Large Investors): Investors can directly approach the AMC for redemption of units of ETF, for transaction less than creation unit size without any exit load, in case of the following scenarios:</p> <ol style="list-style-type: none"> viii. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or ix. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or x. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days. <p>In case of the above scenarios, applications received from investors for redemption up to 3.00 p.m. on any trading day, shall be processed by the AMC at the closing NAV of the day. Such instances shall be tracked by the AMC on an ongoing basis and in case any of the above mentioned scenario arises, the same shall be disclosed on the website of the Mutual Fund.</p> <p>Settlement of Purchase/Sale of Units of the Scheme on NSE/ BSE Buying/Selling of Units of the Scheme on NSE/ BSE is just like buying/selling any other normal listed security. If an investor has bought Units, an investor has to pay the purchase amount to the broker/sub-broker such that the amount paid is realized before the funds pay-in day of the settlement cycle on the Stock Exchange(s). If an investor has sold Units, an investor has to deliver the Units to the broker/sub-broker before the securities pay- in day of the settlement cycle on the Stock Exchange(s). The Units (in the case of Units bought) and the funds (in the case of Units sold) are paid out to the broker on the pay-out day of the settlement cycle on the Stock</p>

	<p>Exchange(s). The Stock Exchange(s) regulations stipulate that the trading member should pay the money or Units to the investor within 24 hours of the pay-out.</p> <p>If an investor has bought Units, he should give standing instructions for 'Delivery-In' to his /her/its DP for accepting Units in his/her/its beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her/its DP to his/ her/its trading member. The trading member will transfer the Units directly to his/her/ its beneficiary account on receipt of the same from NSE's/ BSE's Clearing Corporation.</p> <p>An investor who has sold Units should instruct his/her/its Depository Participant (DP) to give 'Delivery Out' instructions to transfer the Units from his/her/its beneficiary account to the Pool Account of his/her/its trading member through whom he/she/it have sold the Units. The details of the Pool A/C (CMBP-ID) of his/her trading member to which the Units are to be transferred, Unit quantity etc. should be mentioned in the Delivery Out instructions given by him/her to the DP. The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the Delivery Out instructions should be given at least 24 hours prior to the cutoff time for the prescribed securities pay-in to avoid any rejection of instructions due to data entry errors, network problems, etc.</p>
Minimum balance to be maintained and consequences of non-maintenance	There is no such requirement
Accounts Statements	<p>The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 working days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number (whether units are held in demat mode or in account statement form).</p> <p>The CAS shall be generated on a monthly basis and shall be issued on or before 15th of the immediately succeeding month to the unit holder(s) in whose folio(s) transaction(s) has/have taken place during the month. In case there is no transaction in any of the mutual fund folios then CAS detailing holding of investments across all schemes of all Mutual Funds will be issued on half yearly basis [at the end of every six months (i.e. September/ March)] and shall be issued on or before 21st of the immediately succeeding month.</p> <p>Investors having MF investments and holding securities in Demat account shall receive a CAS containing details of transactions across all Mutual Fund schemes and securities from the Depository by email / physical mode. Investors having MF investments and not having Demat account shall receive a CAS from the MF Industry containing details of transactions across all Mutual Fund schemes by email / physical mode.</p> <p>For further details, refer SAI.</p>
Dividend/ IDCW	Not currently applicable in the Scheme. Distribution of amounts under IDCW option if any, shall be in line with provisions mentioned under Chapter 11 of SEBI Master Circular dated June 27, 2024, read with further guidelines/clarifications issued by SEBI from time to time.
Redemption	<p>The redemption or repurchase proceeds shall be dispatched to the unitholders within three working days from the date of redemption or repurchase.</p> <p>For details refer para 14.1.3 of SEBI Master Circular for Mutual Funds dated June 27, 2024</p>
Bank Mandate	Unitholders can also register multiple bank accounts in his folio. The "Change of Bank Mandate & Registration of Multiple Bank Account Form" shall be used by the unitholders for change in existing bank mandate or for registration of multiple bank account details for all investments held in the specified folio (existing or new). Individuals and HUF investors can register up to 5 bank accounts and non-individuals can register upto 10 bank accounts by filling up the Multiple Bank Registration Form. AMC / RTA shall adopt the same process of verification for the above registration as is applicable for change of bank mandate.
Delay in payment of redemption/ repurchase proceeds/dividend	<p>The AMC shall be liable to pay interest to the unitholders at such rate as may be specified vide clause 14.2 of SEBI Master Circular for Mutual Funds dated June 27, 2024, by SEBI for such delays</p> <p>For further details, refer SAI.</p>

Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount	<p>The treatment of Unclaimed Redemption and IDCW amount shall be as per para 14.3 of Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.</p> <p>For further details, refer SAI.</p>
Disclosure w.r.t investment by minors	<p>Investments in the name of minors shall be permitted only from bank account of the minor, parent or legal guardian of the minor or from a joint account of the minor with the parent or legal guardian.</p> <p>In case of minor's application, AMC will register systematic transactions (SIP/STP/SWP/etc.) till the date of the minor attaining majority, though the instructions may be for a period beyond that date. Prior to minor attaining majority, AMC shall send advance notice to the registered correspondence address advising the guardian and the minor to submit an application form along with prescribed documents to change the status of the account to "major". The account shall be frozen for operation by the guardian on the day the minor attains the age of majority and no fresh transactions shall be permitted till the documents for changing the status are received.</p> <p>Further to note that the redemption/ Income Distribution cum Capital Withdrawal (IDCW) proceeds for investments held in the name of Minor shall continue to be transferred to the verified bank account of the minor (i.e. of the minor or minor with parent/ legal guardian) only. Therefore, investors must ensure to update the folios with minor's bank account details as the 'Pay-out Bank account' by providing necessary documents before tendering redemption requests / for receiving IDCW distributions. Please refer "SAI" for disclosures w.r.t investment by minors.</p>
Principles of incentive structure for market makers (for ETFs)	<ul style="list-style-type: none"> • AMC shall appoint at least two Market Makers (MMs) who are members of the stock exchanges for ETFs to provide continuous liquidity on the stock exchange platform. MMs shall transact with AMC only in multiples of creation unit size. • AMC shall have an approved policy regarding market making in ETFs based on the framework for market making provided by SEBI at para 3.6.1.2 of Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 • Incentive Structure: <ol style="list-style-type: none"> 5.
