- **Lakshya SIP**

'Lakshya SIP' is a facility provided to investors to invest regularly in a disciplined manner through SIP and enjoy the benefits of regular cash flows via Systematic Withdrawal Plan (SWP) post completion of SIP period, thereby aiming for financial freedom. The steps involved are as below:

a) Initiate monthly SIP in a selected source scheme which can be a single scheme or a combination of schemes for a tenor of 8, 10, 12 or 15 years. The minimum amount for SIP shall be the minimum monthly SIP instalment amount for the respective schemes.

b) On completion of the selected SIP period, the units accumulated through SIP shall be switched out to the selected target scheme. In case the source and target scheme are the same, there would be no switch out. The switch shall take place within T+5 working days or next business day where it is a non-business day (T being last SIP instalment date).

c) Post the switch out, SWP has to be activated for an amount as per the below matrix:

Payment Matrix		Illustration	
SIP Tenure	SWP Amount	SIP Amount	SWP Amount
8 Years	1.0 x monthly SIP instalments	10,000	10,000
10 Years	1.5 x monthly SIP instalments	10,000	15,000
12 Years	2.0 x monthly SIP instalments	10,000	20,000
15 Years	3.0 x monthly SIP instalments	10,000	30,000
8 Years	1.0 x monthly SIP instalments	10,000	10,000

Note:

- i) The investor can decide the SIP amount. The SWP amount will vary based on SIP amount and SIP tenure selected by the investor.
- ii) The source and the target scheme can be the same.
- iii) Only monthly frequency is available for SIP & SWP.
- iv) The SWP date would be the same as the SIP date.

The facility is available under the Growth Option of the Regular and Direct Plans of the selected schemes. The source schemes will include selected equity/hybrid/thematic schemes of the Fund and target schemes will be selected hybrid schemes of the Fund as mentioned in the SAI.

• **IDCW SWEEP FACILITY**

Portfolio Rebalancing:**Portfolio rebalancing in case of deviation from asset allocation under Defensive consideration:**

The scheme shall rebalance the portfolio in case of any deviation to the asset allocation as per Para 1.14.1.2 (b) of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. Such rebalancing shall be done within 30 days from the date of occurrence of deviation. However, at all times the AMC shall ensure that the portfolio would adhere to the overall investment objective of the scheme.

Portfolio Rebalancing in case of passive deviation from asset allocation:

In accordance with para 2.9 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, as amended from time to time, the Scheme shall rebalance the portfolio in case of any deviation to the asset allocation mentioned in the Scheme Information Document (SID) due to passive breaches. In the event of deviation from mandated asset allocation mentioned in the Scheme Information Document (SID) due to passive breaches (occurrence of instances not arising out of omission and commission of AMCs), the portfolio shall be rebalanced within a period of thirty (30) business days.

In case the portfolio of scheme is not rebalanced within the above mandated timelines, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not to levy exit load, if any, on the investors exiting such scheme(s).

B. WHERE WILL THE SCHEME INVEST?

Subject to SEBI Regulations and other prevailing laws as applicable, the net assets of the Scheme can be invested in any (but not exclusively) of the following securities:

1. Units of BNP Paribas Funds Aqua (Lux).
2. Money market instruments
3. Short term deposits of scheduled commercial banks

The securities mentioned above and such other securities that the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated and of any maturity. The securities may be acquired through initial public offerings (IPOs), follow on offers, secondary market operations and private placement, rights offers or negotiated deals.

Policy on Offshore Investments by the Scheme:

SEBI vide para 12.19.2 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 has issued guidelines pertaining to investments in overseas financial assets.

In line with para 12.19 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 and all applicable regulations/ guidelines/directives/notifications, as may be stipulated by SEBI and RBI from time to time, the Scheme shall predominantly invest in units of BNP Paribas Funds Aqua (Lux) which, in turn, will invest in foreign securities as listed hereunder (or any such overseas instrument as may be permitted by SEBI/RBI/other regulatory authorities from time to time):

- i. ADRs/ GDRs issued by Indian or foreign companies
- ii. Equity of overseas companies listed on recognized stock exchanges overseas
- iii. Initial and follow on public offerings for listing at recognized stock exchanges overseas
- iv. Foreign debt securities in the countries with fully convertible currencies, short term as well as long term debt instruments with rating not below investment grade by accredited/registered credit rating agencies

- v. Money market instruments rated not below investment grade
- vi. Repos in the form of investment, where the counter party is rated not below investment grade; repos should not however, involve any borrowing of funds by mutual funds
- vii. Government securities where the countries are rated not below investment grade
- viii. Derivatives traded on recognized stock exchanges overseas only for hedging and portfolio balancing with underlying as securities
- ix. Short term deposits with banks overseas where the issuer is rated not below investment grade
- x. (a) Real Estate Investment Trusts (REITs) listed in recognized stock exchanges overseas or (b) unlisted overseas securities (not exceeding 10% of their net assets).

Further, pursuant to para 12.19 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 , the following limits shall be applicable for making investments in the above mentioned overseas securities:

- Mutual Funds can make overseas investments subject to a maximum of US \$ 1 billion per Mutual Fund, within the overall industry limit of US \$ 7 billion. Further, US \$ 50 million would be reserved for each Mutual Fund individually, within the overall industry limit of US \$ 7 billion.
- Mutual Funds can make investments in overseas Exchange Traded Fund (ETF(s)) subject to a maximum of US \$ 300 million per Mutual Fund, within the overall industry limit of US \$ 1 billion.

In terms of para 12.19 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 , Baroda BNP Paribas Aqua Fund of Fund intends to invest US \$100 million in overseas securities, subject to maximum limits as specified above. The Scheme shall have an investment headroom of 20% of the average AUM in Overseas securities / Overseas ETFs of the previous three calendar months for that month to invest in Overseas securities / Overseas ETFs subject to maximum limits specified in aforesaid para 12.19 of SEBI Master circular.

The AMC /Trustee reserve the right to temporarily suspend subscriptions /switches/SIPs/STPs etc. into the Scheme if the limits prescribed by SEBI for overseas investments, as below, are exceeded or are expected to exceed, subject to the SEBI Regulations and approvals and the same shall be notified to the investors by display of public notice at various investor service centres of AMC and its website (www.barodabnpparibasmf.in).

The Fund may employ various measures (as permitted by SEBI/RBI from time to time), including but not restricted to currency hedging (such as currency futures and such others currency hedging tools as permitted by SEBI/RBI from time to time), to manage foreign exchange movements arising out of such investments. Service of custodian and other intermediaries/advisors of international repute will be used for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would include, besides the investments management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs and overseas regulatory costs.

Offshore investments will be made subject to any/ all approvals/conditions thereof as may be stipulated by SEBI/ RBI/ other regulatory authorities. Boards of asset management companies (AMCs) and Trustees shall exercise due diligence in making investment decisions as required under Regulation 25(2). They shall make a detailed analysis of risks and returns of investment in foreign securities and how these investments would be in the interest of investors. Investment must be made in liquid actively traded securities/instruments and such other types of securities/instruments as may be permitted by SEBI from time to time. Boards of AMCs and trustees may prescribe detailed parameters for making such investments, which may include identification of countries, country rating, country limits, etc. They shall satisfy themselves that the AMC has experienced key personnel, research facilities and infrastructure for making such investments. Other specialised agencies and service providers associated with such investments e.g. custodian, bank, advisors, etc. should also have adequate expertise and infrastructure facilities. Their past track record of performance and regulatory compliance record, if they are registered with foreign regulators, may also be considered. Necessary agreements may be entered into with them as considered necessary. All investment decisions shall be recorded in accordance with para 12.23 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 . Such investments shall be disclosed while disclosing half-yearly portfolios in the prescribed format by making a separate heading "Foreign Securities/overseas ETFs." Scheme-wise percentage of investments made in such securities shall be disclosed while publishing half-yearly results in the prescribed format, as a footnote.

It is the investment manager's belief that overseas securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks.

BBNPPAQFOF: The Scheme shall not invest in foreign securitised debts, although the Underlying Fund may have such investments.

For detailed definition/description of instruments and applicable regulations/guidelines for instruments please refer

Section II.

Investment in overseas securities shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time.

C. WHAT ARE THE INVESTMENT STRATEGIES?

This is an actively managed Scheme. **The Scheme will invest predominantly in units of BNP Paribas Funds Aqua (Lux).** The Scheme may also invest a certain portion of its corpus in Money Market Instruments and/or money market/overnight/liquid schemes of the Mutual Fund, in order to meet liquidity requirements from time to time.

Risk control measures

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The Scheme would predominantly invest in units of BNP Paribas Funds Aqua (Lux); hence the risks of the Underlying Fund will exist. The investors should note that these risks cannot be diffused as these are international funds. However, as part of our due diligence, we have chosen funds, which have long term performance track record, stability of fund management team. For investments in fixed income instruments, a credit evaluation of each investment opportunity will be undertaken to manage credit risk. The AMC will utilise ratings of recognised rating agencies as an input in the decision making process. The fund manager shall follow the asset allocation pattern in SID under normal circumstances and residual cash may be invested in the tri-party repo on Government Securities or treasury bills / repo market, units of mutual fund which seeks to ensure liquidity in the scheme under normal circumstances. There can however be no guarantee against liquidity risk within the scheme.

The AMC may also implement certain internal control procedures / risk & exposure limits etc. for controlling risks which may be varied from time to time.

The above risk control measures shall be implemented by the AMC on best effort basis however there can be no guarantee that such measures can completely mitigate the risks involved in Scheme.

Portfolio turnover

Portfolio turnover is defined as lesser of purchases and sales as a percentage of the average corpus of the Scheme during a specified period of time. Portfolio turnover would depend upon the market conditions such as volatility of the market and inflows/outflows in the scheme. The Scheme is an open ended Scheme with subscriptions and redemptions expected on a daily basis. Hence, it will be difficult to estimate the portfolio turnover with any reasonable amount of accuracy.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the scheme will be benchmarked to the performance of **MSCI World Index (Total Return Index)**

The Scheme shall invest in units of BNP Paribas Funds Aqua (Lux) (Underlying Fund). The benchmark used for the Underlying Fund is MSCI World Index. Hence, the same will be followed for BBNPPAQFOF also after converting it in Indian Rupee.

About the index: The MSCI World Index captures large and mid-cap representation across 23 Developed Markets (DM) countries. With 1,583 constituents, the index covers approximately 85% of the free float-adjusted market capitalization in each country. It aims to represent a broad cross-section of global markets. (Dated: February 2021)

Pursuant to Para 1.9 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, uniform structure for benchmarking of schemes has been prescribed by SEBI. These uniform benchmarking of schemes indices are termed as first tier benchmark which reflects the category of the scheme.

In furtherance of the SEBI circular on Benchmark, Association of Mutual Funds in India (AMFI), has published the list of benchmarks to be used as Tier 1 benchmarks for mutual fund schemes and vide its email dated March 31, 2022, has published the list of benchmarks to be used as Tier 1 benchmarks for open ended debt schemes as per Potential Risk Class (PRC) Matrix and the list for the same has also been published on the AMFI website at <https://www.amfiindia.com/research-information/other-data/collatedprcbenchmarks>

Justification for use of benchmark

The aforesaid Benchmark is accordingly the 1st Tier benchmark Index basis the category of the scheme and in line with the list of benchmark as notified by AMFI.

Performance comparisons for the Scheme will be made vis-à-vis the aforesaid Benchmark. However, the Scheme's performance may not be strictly comparable with the performance of the Benchmark due to the inherent differences in the construction of the portfolios. The Trustee / AMC reserve the right to change the Benchmark for evaluation of

SCHEME INFORMATION DOCUMENT

performance of the Scheme from time to time in conformity with the investment objectives and appropriateness of the Benchmark subject to the SEBI Regulations, and other prevailing guidelines, if any.

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit of the options of the Plan(s) under the Scheme will be computed by dividing the net assets of the options of the Plan(s) under the Scheme by the number of Units outstanding under the options of the Plan(s) under the Scheme on the valuation date. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time. In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail.

The NAV of the units under each options of the Plan(s) under the Scheme shall be calculated as shown below:

$$\text{NAV per Unit (Rs.)} = \frac{\text{Market or Fair Value of the Plan's Investments} + \text{Current Assets} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under each option of the Plan(s) under the Scheme}}$$

The NAV of the units under each options of the Plan(s) under the Scheme will be calculated and declared on each Business Day. Separate NAVs will be calculated and announced for each of the Plan(s) & option(s) under the scheme. The NAVs will be rounded off up to 4 decimal places for the Scheme. The units will be allotted up to 3 decimal places.

Valuation of the scheme's assets, calculation of the scheme's NAV and the accounting policies & standards will be subject to such norms and guidelines that SEBI may prescribe from time to time and shall be subject to audit on an annual basis.

Pursuant to Regulation 49 (3) the repurchase Price of the units of an open ended scheme will not be lower than 97% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc, kindly refer SAI.

The AMC will calculate and disclose the first NAV of the Plan(s) not later than 5 Business Days from the allotment of units of the respective Plan(s). Subsequently, the NAV of the Scheme will be calculated and disclosed as of the close of every Business Day. Separate NAVs will be calculated and disclosed for each of the options of the Plan(s) under the Scheme.

Since this Scheme invests predominantly in BNP Paribas Funds Aqua (Lux) (Underlying Fund), the NAV of the Scheme will be based on the NAV of the Underlying Fund. Since the NAV of the Underlying Fund would normally be declared on the next business day, the Scheme will declare the NAV of the day on the next Business Day, based on the NAV of the Underlying Fund.

Valuation of Foreign Exchange Conversion:

On the valuation day, all the assets and liabilities in foreign currency will be valued in Indian Rupees on the basis of Foreign Exchange rate which will be the RBI Reference rate as at the close of the Banking hours on that day in India. In case the RBI reference rate is not available, Foreign Exchange rate quoted on Bloomberg/Reuters around India markets close time

SCHEME INFORMATION DOCUMENT

(which is currently around 3:30 p.m. IST) shall be considered. The Trustees/AMC reserves the right to change the source for determining the exchange rate. The reasons for the change in the source for determining the exchange rate will be recorded in writing. The Rupee value of Investments valued in the manner described above and other assets and liabilities represented in foreign currency shall be obtained by multiplying the aforesaid rate.

FEES AND EXPENSES

This section outlines the expenses that will be charged to the respective Plan(s) under the Scheme and also about the transaction charges, if any, to be borne by the investors. The information provided under this Section seeks to assist the investor in understanding the expense structure of the Plan(s) and types of different fees / expenses and their percentage the investor is likely to incur on purchasing and selling the Units of the Plan(s).

B. NEW FUND OFFER (NFO) EXPENSES

This section does not apply to the Scheme, as the ongoing offer of the Scheme has commenced after the NFO, and the Units are available for continuous subscription and redemption.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses incurred for the respective Plan(s) under the Scheme. These expenses include but are not limited to Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee including costs related to providing accounts statement, dividend/redemption cheques/warrants etc., marketing and selling costs marketing & selling expenses including agents commission and statutory advertisement, brokerage & transaction cost pertaining to the distribution of units, audit fees, fees and expenses of trustees, costs related to investor communications, costs of fund transfer from location to location etc., listing fee, custodial fees etc.

The maximum recurring expenses including the investment management and advisory fee that can be charged to the Scheme shall be subject to a percentage limit of average daily net assets as given in the table below.

The AMC has estimated that upto 2.25% of the daily net assets of the scheme will be charged to the scheme as expenses as per the table below:

Particulars	% of daily Net Assets* (Estimated p.a.)
Investment Management & Advisory Fee	Upto 2.25%

Other Expenses^	
Maximum Total Expense Ratio (TER) permissible under Regulation 52 (6) (a) (ii)##	Upto 2.25%
Additional expenses under regulation 52 (6A) (c)**	Upto 0.05%

the same shall be calculated as weighted average of the total expense ratio levied by the Underlying Fund

Provided that the total expense ratio to be charged over and above the weighted average of the total expense ratio of the Underlying Fund shall not exceed two times the weighted average of the total expense ratio levied by the Underlying Fund.

^Expenses charged under the said parameters shall be in line with the Regulation 52 of SEBI (MF) Regulations or such other basis as specified by SEBI from time to time.

Investors are requested to note that they will be bearing the recurring expenses of the fund of funds scheme, in addition to the expenses of Underlying Fund in which the fund of funds scheme makes investments.

Further, the Direct Plan shall have a lower expense ratio excluding distribution expenses, commission etc. since no commission shall be paid from this plan. Further, all fees and expenses charged in the Direct Plan (in percentage terms) under various heads including the Investment Management and Advisory Fee shall not exceed the fees and expenses charged under such heads in the Regular Plan.

Further, the following costs or expenses shall be charged to the Scheme (in addition to the limits specified as per Regulation 52(6) (a) (ii) of SEBI (MF) Regulations):

- (a) **additional expenses under Regulation 52(6A) (c) at 0.05%;
- In accordance with para 10.1.7 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024,, AMC shall not charge any additional expense of upto 0.05% as per Regulation 52(6A) (c), if exit load is not being levied under the Scheme.
- (b) The AMC may charge GST on investment management and advisory service fees ('AMC Fees') which shall be borne by the Scheme in addition to the total expense ratio mentioned in table above;

The total expenses charged to the scheme shall be the maximum limit of TER as prescribed under regulation 52. Investors should note that the total expense ratio of the scheme excluding issue or redemption expenses, whether initially borne by the Mutual Fund or by the AMC, but including the investment management and advisory fee, shall not exceed the limits as prescribed under Regulation 52 of the SEBI Regulations. The AMC will charge the Scheme such actual expenses incurred, subject to the statutory limit prescribed in the Regulations.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per SEBI Regulations. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

For the actual current expenses being charged, the investor should refer to the website of the mutual fund at the following link <<https://www.barodabnp-paribas-mf.in/downloads/total-expense-ratio-of-mutual-fund-schemes>>. Any change proposed to the current expense ratio will be updated on the website and communicated to the investors via e-mail or SMS at least three working days prior to the effective date of the change (In accordance with para 10.1.8 of SEBI Master circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024). Further, the disclosure of the expense ratio on a daily basis shall also be made on the website of AMFI viz. www.amfiindia.com.

An Illustration of impact of expense ratio on Scheme's returns:

If an investor A invests in a regular plan of a Scheme with an expense of 2% p.a. and an investor B invests in Direct Plan of the same scheme with an expense of 1% p.a. Assuming the gross return of this fund is 10% for that given year, investor A will make a return of 8% (post expense) for that year, whereas investor B will make 9% return for same period.

Also, please take a look at below illustration which shows impact of different expense ratio:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses (@15%pa)	1,500	1,500
Expenses other than Distribution Expenses	150	150

Note:

- The purpose of the above illustration is to purely explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments, without considering any impact due to taxation.

- Investors are requested to note that NAV declaration made by AMC/Mutual Fund on every business day is net of expenses, and consequently scheme performance disclosures made by Mutual Fund, which are based on NAV values of the scheme are also net of expenses but does not consider impact of load and taxes, if any.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. (This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses.) Load amounts are variable and are subject to change from time to time. For the current applicable structure please refer to the website of the AMC (www.barodabnpparibasmf.in) or call on the number, 1800-2670-189 or may call your distributor.

Type of Load	Load chargeable (as %age of NAV)
Exit	<ul style="list-style-type: none"> • 1 If units of the Scheme are redeemed or switched out within 12 months from the date of allotment - 1% of the applicable NAV; • If units of Scheme are redeemed or switched out after 12 months from the date of allotment - Nil.

The above load shall also be applicable for switches between the schemes of the Fund and all Systematic Investment Plans, Systematic Transfer Plans, Systematic Withdrawal Plans. No load will be charged units allotted upon reinvestment of Income Distribution cum Capital Withdrawal (i.e. dividend re-investment units) and bonus units.

There shall be no exit load levied in case of switch investments:

- between the plans (i.e. Regular and Direct Plans) and/or
- between the options (i.e. IDCW and Growth options), within the Scheme/Plan

The exit load charged, net of Goods and Services Tax (GST), if any, shall be credited to the Scheme.

For any change in load structure, the AMC will issue an addendum and display it on the website/ISCs.

I. INTRODUCTION

A. DEFINITION/INTERPRETATION

Investors may refer to <https://www.barodabnpparibasmf.in/assets/pdf/Definitions.pdf> for definitions/interpretations.

B. RISK FACTORS

Scheme Specific Risk Factors

INVESTORS MAY PLEASE NOTE THAT THEY WILL BE BEARING THE RECURRING EXPENSES OF THE RELEVANT FUND OF FUNDS SCHEME IN ADDITION TO THE EXPENSES OF THE UNDERLYING FUND IN WHICH THE FUND OF FUNDS SCHEME MAKES INVESTMENT.

RISK FACTORS SPECIFIC FOR INVESTMENTS IN BARODA BNP PARIBAS AQUA FUND OF FUND:

- As the assets of the scheme are primarily invested in shares / units of BNP Paribas Funds Aqua (Lux), there may be risks associated with currency movements, restrictions on repatriation and transaction procedures in overseas market, lack of complete or reliable information, market irregularities or high taxation. Further, the repatriation of capital to India may also be hampered by changes in regulations or political circumstances.
- Since the Fund intends to invest predominantly in units/shares of BNP Paribas Funds Aqua (Lux), there is a country risk which includes events such as introduction of extraordinary exchange controls, economic deterioration, bi-lateral conflict leading to immobilization of the overseas financial assets, political uncertainty, prevailing laws and policy matters including prevalent tax laws of the respective jurisdiction for execution of trades through which settlement of such transactions will take place. The fund will be exposed to settlement risk, as the country where investment will be made have different settlement periods.
- The scheme will primarily invest in the overseas mutual funds. For every such investment, the risk factors of the Underlying Fund will be relevant and must be treated as risk factors of Baroda BNP Paribas Aqua Fund of Fund. The

risk in such Underlying Fund may relate to factors such as performance of underlying stocks, bonds, derivative instruments, offshore investments, interest rates risks and exchange risks to name a few.

- Market risks can be greater with respect to political instability, lack of complete or reliable information, market irregularities or high taxation.
- As the investment will be in securities, which are denominated in foreign currencies, fluctuation in the exchange rates of the foreign currencies may have an impact on the income and value of the fund.
- The Underlying Fund's assets may be invested in securities denominated in currencies other than the base currency of Underlying Fund and any income from these investments will be received in those currencies. The performance of Underlying Fund may therefore be affected by movement in the exchange rate between the currencies the assets are held and the base currency of Underlying Fund and hence there can be the prospect of additional gain or loss for the Unit holder than what may be normally derived from the assets in which Underlying Fund's invests. The performance of Underlying Fund may also be affected by change in exchange control regulations
- The liquidation of securities where investments will be made by the Underlying Fund shall be subject to the liquidity / settlement issues of the country of investment / settlement. Non-Business Days in country of investment / settlement may impact the liquidity of the scheme investments.
- If the Underlying Fund declares a shut/record date/ book closure as may be applicable to the Underlying Fund as per the terms of the prospectus/ regulations/legal provisions, there could be delay in remitting the redemption proceeds to the scheme which in turn may result in the delay for payment of redemption amount to the unit holder.
- It may be noted that if rupee appreciates, it will lead to reduction in yield to investor.
- Investments in the Underlying Fund, which is an equity fund, will have all the risk associated with investments in equity of that country.
- The investors shall bear the recurring expenses of the Scheme in addition to those of the Underlying Fund. Therefore, the returns that they may receive may be materially impacted or may, at times, be lower than the returns that the investors directly investing in the Underlying Fund could obtain.
- The disclosures of portfolio for the Scheme will be limited to the particulars of the Underlying Fund and money market securities where the Scheme has invested. Investors may, therefore, not be able to obtain specific details of the investments of the Underlying Fund.
- Any change in the investment policies or fundamental attributes of any Underlying Fund is likely to affect the performance of the Scheme.
- If the Underlying Fund winds up the scheme for any reason, the scheme may have to find the similar alternative scheme. Until such alternative is found and investments transferred into it, the scheme may not earn scheme objective related return.
- The investment restrictions for investments in foreign securities currently applicable to Mutual Fund are as under para 12.19 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 . In the event where the overall limit for the Mutual Fund in overseas securities is reached, the fund Manager may not be able to deploy money in the underlying Fund which is likely to affect the performance of the scheme.

Accounting and Taxation

- Accounting, auditing and financial reporting standards, practices and disclosure requirements applicable to some countries in which Underlying Fund invests may differ from those applicable in India or Luxembourg due to which less information may be available to investors and such information may be out of date.
- Investors should note in particular that the proceeds from the sale of securities in some markets or the receipt of any dividends and other income may be or may become subject to tax, levies, duties or other fees or charges imposed by the authorities in that market, including taxation levied by withholding at source. As a result, Underlying Fund (and therefore the Scheme) could become subject to additional taxation in such countries that is not anticipated either at the date of this SID or when investments are made, valued or disposed of
- Investors should note that there may be additional taxes, charges or levies applied in respect of the Scheme's investment in Underlying Fund depending on the location of assets of Underlying Fund and the jurisdiction in which Underlying Fund is located, registered or operated. Investors should also note that Underlying Fund's investment managers and the Scheme's ability to provide tax information and audited accounts in respect of Underlying Fund to Unit holders of the Scheme is dependent on relevant tax and other information being provided by Underlying Fund in timely fashion. Accordingly, delays may occur in respect of delivery of such information to the Scheme's Unit Holders.

- RISKS ASSOCIATED WITH INVESTING IN FIXED INCOME SECURITIES (DOMESTIC):

1. **Credit and Counterparty risk:** Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security or honor its contractual obligations).

Counterparty risk refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty to which the scheme has exposures. Losses can

occur in particular for the settlement/delivery of financial instruments or the conclusion of financial derivatives contracts. The value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit and counterparty risk as well as any actual event of default. Changes in financial conditions of an issuer, changes in economic and political conditions in general, or changes in economic or and political conditions specific to an issuer, all of which are factors that may have an adverse impact on an issuer's credit quality and security value.

2. **Liquidity Risk:** The liquidity of the scheme's investment is inherently restricted by trading volumes in the securities in which the scheme invests.

A lower level of liquidity affecting an individual security or an entire market at the same time, may have an adverse bearing on the value of the scheme's assets. More importantly, this may affect the Fund's ability to sell particular securities quickly enough to minimise impact cost, as and when necessary to meet requirements of liquidity or to sell securities in response to triggers such as a specific economic/corporate event.

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of a few or all of the investments and may affect the liquidity of the investments of the scheme.

The scheme may be unable to implement purchase or sale decisions when the markets turn illiquid, missing some investment opportunities or limiting ability to face redemptions. The lack of liquidity could also lead to the risk that the sale price of a security could be substantially lower than the fair value of the security.

3. **Interest Rate Risk & Re-investment Risk:** The value of an investment may be affected by interest rate fluctuations. Interest rates may be influenced by several elements or events, such as monetary policy, the discount rate, inflation, etc. The value of debt and fixed income securities held by the Scheme generally will vary inversely with the changes in prevailing interest rates. In general, price of debt and fixed income securities go up when interest rates fall, and vice versa. Securities of any issuer that has higher duration could be more risky in terms of price movements relative to those with lower duration. Thus any impact of interest rate changes would be higher on securities with higher duration irrespective of the status of the issuer of the security. The investments made by the Scheme are subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
4. **Sovereign risk:** The Central Government of India is the issuer of the local currency debt in India. The Government raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since payment of interest and principal amount has a sovereign status implying least probability of a default, such securities are known as securities with sovereign credit. It also implies that the credit risk on such Government securities is even lower than that on non-government securities with "AAA" rating and hence yields on government securities are even lower than yields on non-government securities with "AAA" rating

- **RISK FACTORS SPECIFIC FOR BNP PARIBAS FUNDS AQUA (LUX) (UNDERLYING FUND)**

Being a feeder fund, investments in the Scheme will have all the risks associated with the Underlying Fund, which are briefly summarised as follows:

• **Specific Market Risks:**

- ♦ **Equity Risk:** The risks associated with investments in equity (and similar instruments) include significant fluctuations in prices, negative information about the issuer or market and the subordination of a Company's shares to its bonds. Moreover, such fluctuations are often exacerbated in the short-term. The risk that one or more companies suffer a downturn or fail to grow can have a negative impact on the performance of the overall portfolio at a given time. There is no guarantee that investors will see an appreciation in value. The value of investments and the income they generate may go down as well as up and it is possible that investors will not recover their initial investment.

The Fund may invest in initial public offerings ("IPOs"). IPO risk is the risk that the market values of IPO shares may experience high volatility from factors such as the absence of a prior public market, unseasoned trading, the limited number of shares available for trading and limited information about the issuer. Additionally, Fund may hold IPO shares for a very short period of time, which may increase a Fund's expenses. Some investments in IPOs may have an immediate and significant impact on a Fund's performance.

Funds investing in growth stocks may be more volatile than the market in general and may react differently to economic, political and market developments and to specific information about the issuer. Growth stocks traditionally show higher volatility than other stocks, especially over short periods. These stocks may also be more expensive in relation to their profits than the market in general. Consequently, growth stocks may react with more volatility to variations in profit growth.

- ♦ **Environmental, Social and Governance (ESG) Investment Risk:** The lack of common or harmonized definitions and labels integrating ESG and sustainability criteria at EU level may result in different approaches by managers when setting ESG objectives. This also means that it may be difficult to compare strategies integrating ESG and sustainability criteria to the extent that the selection and weightings applied to select investments may be based on metrics that may share the same name but have different underlying meanings. In evaluating a security based on the ESG and sustainability criteria, the Investment Manager may also use data sources provided by external ESG research providers. Given the evolving nature of ESG, these data sources may for the time being be incomplete, inaccurate or unavailable.

Applying responsible business conduct standards in the investment process may lead to the exclusion of securities of certain issuers. Consequently, the Fund's performance may at times be better or worse than the performance of reliable funds that do not apply such standards

- Specialised or Restricted Sectors Risk: Funds investing in specialised or restricted sectors are likely to be subject to a higher than average volatility due to a high degree of concentration, greater uncertainty because less information is available, there is less liquidity, or due to greater sensitivity to changes in market conditions.
- **Counterparty Risk:** Counterparty risk is the risk to each party of a contract that the counterparty will fail to perform its contractual obligations and/or to respect its commitments under the term of such contract, whether due to insolvency, bankruptcy or other cause. When over-the-counter (OTC) or other bilateral contracts are entered into (inter alia OTC derivatives, repurchase agreements, security lending, etc.), the Company may find itself exposed to risks arising from the solvency of its counterparties and from their inability to respect the conditions of these contracts. If counterparty does not live up to its contractual obligations, it may affect investor returns.
- **Credit Risk:** Credit risk, a fundamental risk relating to all fixed income securities as well as Money Market Instruments, is the risk that an issuer will fail to make principal and interest payments when due. Issuers with higher credit risk typically offer higher yields for this added risk. Conversely, issuers with lower credit risk typically offer lower yields. Generally, government securities are considered to be the safest in terms of credit risk, while corporate debt, especially those with poorer credit ratings, have the highest credit risk. Changes in the financial condition of an issuer, changes in economic and political conditions in general, or changes in economic and political conditions specific to an issuer (particularly a sovereign or supranational issuer), are all factors that may have an adverse impact on an issuer's credit quality and security values. Related to credit risk is the risk of downgrade by a rating agency. Rating agencies such as Standard & Poor's, Moody's and Fitch, among others, provide ratings for a wide array of fixed income securities (corporate, sovereign, or supranational) which are based on their creditworthiness. The agencies may change their ratings from time to time due to financial, economic, political, or other factors, which, if the change represents a downgrade, can adversely impact the value of the affected securities.
- **Derivatives Risk:** The performance of derivative instruments depends largely on the performance of an underlying currency, security, index or other reference asset, and such instruments often have risks similar to the underlying instrument, in addition to other risks. A Fund may use options, futures, options on futures, and forward contracts on currencies, securities, indices, interest rates or other reference assets for hedging, efficient portfolio management and/or investment purposes. Derivative instruments involve costs and can create economic leverage in the Fund's portfolio which may result in significant volatility and cause the Sub-Fund to participate in losses (as well as gains) in an amount that significantly exceeds the Fund's initial investment.
- **Liquidity Risk:** There is a risk that investments made by the funds may become illiquid due to an over-restricted market (often reflected by a very broad bid-ask spread or by substantial price movements), if their "rating" declines or if the economic situation deteriorates; consequently, it may not be possible to sell or buy these investments quickly enough to prevent or minimize a loss in these sub-funds. Moreover, it may not be possible to sell or buy these investments.
- **Custody Risk:** Assets of the Company are safe kept by the Custodian and Investors are exposed to the risk of the custodian not being able to fully meet its obligation to reconstitute in a short timeframe all of the assets of the Company in the case of bankruptcy of the Custodian. The assets of the Company will be identified in the Custodian's books as belonging to the Company. Securities and debt obligations held by the Custodian will be segregated from other assets of the Custodian which mitigates but does not exclude the risk of non-restitution in case of bankruptcy. However, no such segregation applies to cash which increases the risk of non-restitution in case of bankruptcy. The Custodian does not keep all the assets of the Company itself but uses a network of Sub-Custodians which are not part of the same group of companies as the Custodian. Investors are also exposed to the risk of bankruptcy of the Sub-Custodians. A Fund may invest in markets where custodial and/or settlement systems are not fully developed.
- **Currency Exchange Risk:** A fund may hold assets denominated in currencies that differ from its Accounting Currency, and may be affected by exchange rate fluctuations between the Accounting Currency and the other currencies and by changes in exchange rate controls. If the currency in which a security is denominated appreciates in relation to the Accounting Currency of the fund, the exchange value of the security in the Accounting Currency will appreciate; conversely, a depreciation of the denomination currency will lead to a depreciation in the exchange value of the security. When the manager is willing to hedge the currency exchange risk of a transaction, there is no guarantee that such operation will be completely effective.
- **Risk linked to FDI transferred to central counterparty clearing house:** The fund may also enter into financial derivatives instruments that could be cleared to a central counterparty clearing house but concluded with a clearing member. The relationship with the clearing member may lead the fund to grant indemnity under specific circumstances such as in case of default of central counterparty clearing houses. Clearing members of a fund and their directors, managers, officers and employees may benefit from an indemnification under the relevant clearing agreement and could therefore, in certain circumstances, be indemnified out of the relevant fund's assets against liabilities, costs, expenses (including, e.g., legal expenses).
- **Market Risk:** Market risk is a general risk that affects all investments. Price for financial instruments are mainly determined by the financial markets and by the economic development of the issuers, who are themselves affected by the overall situation of the global economy and by the economic and political conditions prevailing in each relevant country.

- **Legal Risk:** There is a risk that agreements and derivatives techniques are terminated due, for instance, to bankruptcy, illegality, change in tax or accounting laws. In such circumstances, a Fund may be required to cover any losses incurred. Furthermore, certain transactions are entered into on the basis of complex legal documents. Such documents may be difficult to enforce or may be the subject to a dispute as to interpretation in certain circumstances. Whilst the rights and obligations of the parties to a legal document may be governed by Luxembourg law, in certain circumstances (insolvency proceedings) other legal systems may take priority which may affect the enforceability of existing transactions. The use of derivatives may also expose a Sub-Fund to the risk of loss resulting from changing laws or from the unexpected application of a law or regulation, or because a court declares a contract not legally enforceable
- **Inflation Risk:** Over time, yields of investments may not keep pace with inflation, leading to a reduction of investor's purchasing power.
- **Interest Rate Risk:** The value of an investment may be affected by interest rate fluctuations. Interest rates may be influenced by several elements or events, such as monetary policy, the discount rate, inflation, etc. The investor's attention is drawn to the fact that an increase in interest rates results in a decrease in the value of investments in bonds and debt instruments.
- **Low Interest Rate Consequence:** A very low level of interest rates may affect the return on short term assets held by monetary funds which may not be sufficient to cover management and operating costs leading to a structural decrease of the net asset value of the fund.
- **Taxation Risk:** The value of an investment may be affected by the application of tax laws in various countries, including withholding tax, changes in government, economic or monetary policy in the countries concerned. As such, no guarantee can be given that the financial objectives will actually be achieved.
- **Emerging Markets Risk:** A Fund may invest in less developed or emerging markets. These markets may be volatile and illiquid and the investments of the Fund in such markets may be considered speculative and subject to significant delays in settlement. Practices in relation to settlement of securities transactions in emerging markets involve higher risks than those in developed markets, in part because the Fund will need to use brokers and counterparties which are less well capitalised, and custody and registration of assets in some countries may be unreliable. Delays in settlement could result in investment opportunities being missed if a Fund is unable to acquire or dispose of a security. The risk of significant fluctuations in the net asset value and of the suspension of redemptions in those Funds may be higher than for Sub-Funds investing in major world markets. In addition, there may be a higher than usual risk of political, economic, social and religious instability and adverse changes in government regulations and laws in emerging markets and assets could be compulsorily acquired without adequate compensation. The assets of a Sub-Fund investing in such markets, as well as the income derived from the Fund, may also be affected unfavourably by fluctuations in currency rates and exchange control and tax regulations and consequently the net asset value of Shares of that Fund may be subject to significant volatility. Some of these markets may not be subject to accounting, auditing and financial reporting standards and practices comparable to those of more developed countries and the securities markets of such countries may be subject to unexpected closure.
- **Risks related to investments in some countries:** Investments in some countries (e.g. China, Greece, India, Indonesia, Japan, Saudi Arabia, and Thailand) involve risks linked to restrictions imposed on foreign investors and counterparties, higher market volatility and the risk of lack of liquidity for some lines of the portfolio. Consequently, some shares may not be available to the fund due to the number of foreign shareholders authorised or if the total investments permitted for foreign shareholders have been reached. In addition, the repatriation by foreign investors of their share of net profits, capital and dividends may be restricted or require the approval of the government. The Company will only invest if it considers that the restrictions are acceptable. However, no guarantee can be given that additional restrictions will not be imposed in future.
- **Specific Risks Related To Investments In Mainland China**
Fund may invest in Chinese domestic securities market, i.e. China A-Shares, debt instruments traded on the China Interbank Bond market and other permitted domestic securities in accordance with the investment policies of the fund. Investing in the PRC ("People's Republic of China") carries a high degree of risk. Apart from the usual investment risks, investing in the PRC is also subject to certain other inherent risks and uncertainties like high level of Government intervention and restriction, Government control of cross-border currency conversion and future movements in exchange rates., different Accounting and Reporting Standards in PRC as compared to international standard, changes in Tax Laws etc..

- **RISKS ASSOCIATED WITH INVESTING IN UNITS OF MUTUAL FUND:**

To the extent of the investments in units of mutual fund, the risks associated with investing in units of mutual fund like market risk, credit & default risk, liquidity risk, redemption risk including the possible loss of principal; etc. will exist. It would be the endeavour of the Fund Manager to invest in the selected Mutual Fund scheme to manage the liquidity requirement, the scheme will have to incur the expense ,load etc. of mutual fund schemes.

- **RISKS ASSOCIATED WITH INVESTING IN FOREIGN SECURITIES:**

The Scheme may invest in Foreign Securities including overseas debt / equities / ADRs / GDRs with the approval of RBI/SEBI, subject to such guidelines as may be issued by RBI/SEBI. The net assets, distributions and income of the

Scheme may be affected adversely by fluctuations in the value of certain foreign currencies relative to the Indian Rupee to the extent of investments in these securities. Repatriation of such investment may also be affected by changes in the regulatory and political environments. Market risks can be greater with respect to political instability, lack of complete or reliable information, market irregularities or high taxation. The Scheme's NAV may also be affected by a fluctuation in the general and specific level of interest rates internationally, or the change in the credit profiles of the issuers. The liquidation of securities where investments will be made by the schemes shall be subject to the liquidity / settlement issues of the country of investment / settlement. Non-business days in country of investment / settlement may impact the liquidity of the scheme investments

The Scheme may, where necessary, appoint advisor(s) for providing advisory services for such investments. The appointment of such advisor(s) shall be in accordance with the applicable requirements of SEBI. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, transaction costs and overseas regulatory costs, the fees of appointed advisor(s). The fees related to these services would be borne by the AMC and would not be charged to the Scheme.

- **RISKS ASSOCIATED WITH SEGREGATED PORTFOLIO:**

- 1) Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
- 2) Security comprises of segregated portfolio may not realise any value.
- 3) Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.
- 4) Trading in the units of segregated portfolio on the Exchange may be halted because of market conditions, including any halt in the operations of Depository Participants or for reasons that in view of the Exchange Authorities or SEBI, trading in the units is suspended and / or restricted. In addition, trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange rules of 'circuit filter'. There can be no assurance that the requirements of Stock Exchange necessary to maintain the listing of units of scheme will continue to be met or will remain unchanged.

- **Other Risks:**

- **Risk associated with inflation:** Over time, yields of short-term investments may not keep pace with inflation, leading to a reduction in an investment's purchasing power.
- **Legal risk:** The scheme may be affected by the actions of government and regulatory bodies. Legislation could be imposed retrospectively or may be issued in the form of internal regulations which the public may not be aware of. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the scheme from pursuing their strategies or which renders an existing strategy less profitable than anticipated. Such actions may take any form, for example nationalization of any institution or restrictions on investment strategies in any given market sector or changing requirements and imposed without prior warning by any regulator.
- **Taxation risk:** The value of an investment may be affected by the application of tax laws, including withholding tax, or changes in government or economic or monetary policy from time to time. As such, no guarantee can be given that the financial objectives will actually be achieved. The tax information described in this Scheme Information Document (SID) is as available under the prevailing taxation laws. This could be changed at any moment by regulation. Further, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the scheme will endure indefinitely.
- **Valuation risk:** This risk relates to the fact that markets, in specific situations and due to lack of volumes of transactions, do not enable an accurate assessment of the fair value of invested assets. In such cases, valuation risk represents the possibility that, when a financial instrument matures or is sold in the market, the amount received is less than anticipated, incurring a loss to the portfolio and therefore impacting negatively the NAV of the scheme.
- **Operational Risk:** Operational risk addresses the risk of trading and back office or administration issues that may result in a loss to the Scheme. This could be the result of oversight, ineffective securities processing procedures, computer systems problems or human error. There could also be risk associated with grouping of orders. For instance, at the time of placing the trades, the fund manager shall group orders on behalf of all schemes managed by him, provided it is unlikely to be detrimental overall for any of the schemes whose orders have been included. However, such grouping may have a detrimental effect to the scheme compared to the execution of an individual order for the scheme.
- **Risk factors associated with processing of transaction in case of investors investing in mutual fund units through Stock Exchange Mechanism:** The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognized stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing / settlement, etc. upon which the Fund and the AMC have no control. Moreover, transactions conducted through the stock exchange mechanism shall be

governed by the operating guidelines and directives issued by respective recognized stock exchange(s) upon which the Fund and the AMC have no control. Accordingly, there could be negative impacts to the investors such as delay or failure in allotment / redemption of Units. The Fund and the AMC are not responsible for the negative impacts.

C. RISK MITIGATION STRATEGIES

Risk control measures

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The Scheme would predominantly invest in units of BNP Paribas Funds Aqua (Lux); hence the risks of the Underlying Fund will exist. The investors should note that these risks cannot be diffused as these are international funds. However, as part of our due diligence, we have chosen funds, which have long term performance track record, stability of fund management team.

For investments in fixed income instruments, a credit evaluation of each investment opportunity will be undertaken to manage credit risk. The AMC will utilise ratings of recognised rating agencies as an input in the decision making process. The fund manager shall follow the asset allocation pattern in SID under normal circumstances and residual cash may be invested in the tri-party repo on Government Securities or treasury bills / repo market, units of mutual fund which seeks to ensure liquidity in the scheme under normal circumstances. There can however be no guarantee against liquidity risk within the scheme.

The AMC may also implement certain internal control procedures / risk & exposure limits etc. for controlling risks which may be varied from time to time.

The above risk control measures shall be implemented by the AMC on best effort basis however there can be no guarantee that such measures can completely mitigate the risks involved in Scheme.

II. INFORMATION ABOUT THE SCHEME

A. WHERE WILL THE SCHEME INVEST?

Subject to SEBI Regulations and other prevailing laws as applicable, the net assets of the Scheme can be invested in any (but not exclusively) of the following securities:

1. The Scheme will invest predominantly in units of BNP Paribas Funds Aqua (Lux).
2. The Scheme may also invest a certain portion of its corpus in money market instruments and/or units of Mutual Fund, in order to meet liquidity requirements from time to time.
3. Money market instruments including bonds, debentures, treasury bills, commercial paper of public sector undertakings and private sector corporate entities, reverse repurchase obligation in government securities and treasury bills (the scheme presently doesn't intend to invest in reverse repurchase agreement in corporate debt securities), certificate of deposit of scheduled commercial banks and development financial institutions, Tri-party repo on Government Securities or treasury bills, bills of exchange / promissory notes of corporate entities, government securities etc. with unexpired maturity of one year or less and other money market securities as may be permitted by SEBI/RBI regulations.

In terms of Para 12.16 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, pending deployment of funds of the Scheme in securities in terms of the investment objective of the Scheme, the Mutual Fund may invest the funds of the Scheme in short term deposits of scheduled commercial banks subject to restrictions laid down under the SEBI Regulations from time to time.

The securities mentioned above and such other securities that the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated and of any maturity. The securities may be acquired through initial public offerings (IPOs), follow on offers, secondary market operations and private placement, rights offers or negotiated deals.

Policy on Offshore Investments by the Scheme:

SEBI vide para 12.19.2 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 has issued guidelines pertaining to investments in overseas financial assets.

In line with para 12.19 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 and all applicable regulations/ guidelines/directives/notifications, as may be stipulated by SEBI and RBI from time to time, the Scheme shall predominantly invest in units of BNP Paribas Funds Aqua (Lux) which, in turn, will invest in foreign securities as listed hereunder (or any such overseas instrument as may be permitted by SEBI/RBI/other regulatory authorities from time to time):

- xi. ADRs/ GDRs issued by Indian or foreign companies
- xii. Equity of overseas companies listed on recognized stock exchanges overseas
- xiii. Initial and follow on public offerings for listing at recognized stock exchanges overseas

- xiv. Foreign debt securities in the countries with fully convertible currencies, short term as well as long term debt instruments with rating not below investment grade by accredited/registered credit rating agencies
- xv. Money market instruments rated not below investment grade
- xvi. Repos in the form of investment, where the counter party is rated not below investment grade; repos should not however, involve any borrowing of funds by mutual funds
- xvii. Government securities where the countries are rated not below investment grade
- xviii. Derivatives traded on recognized stock exchanges overseas only for hedging and portfolio balancing with underlying as securities
- xix. Short term deposits with banks overseas where the issuer is rated not below investment grade
- xx. (a) Real Estate Investment Trusts (REITs) listed in recognized stock exchanges overseas or (b) unlisted overseas securities (not exceeding 10% of their net assets).

Further, pursuant to para 12.19 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the following limits shall be applicable for making investments in the above mentioned overseas securities:

- Mutual Funds can make overseas investments subject to a maximum of US \$ 1 billion per Mutual Fund, within the overall industry limit of US \$ 7 billion. Further, US \$ 50 million would be reserved for each Mutual Fund individually, within the overall industry limit of US \$ 7 billion.
- Mutual Funds can make investments in overseas Exchange Traded Fund (ETF(s)) subject to a maximum of US \$ 300 million per Mutual Fund, within the overall industry limit of US \$ 1 billion.

In terms of para 12.19 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, Baroda BNP Paribas Aqua Fund of Fund intends to invest US \$100 million in overseas securities, subject to maximum limits as specified above. The Scheme shall have an investment headroom of 20% of the average AUM in Overseas securities / Overseas ETFs of the previous three calendar months for that month to invest in Overseas securities / Overseas ETFs subject to maximum limits specified in aforesaid para 12.19 of SEBI Master circular. Indian MF schemes can now invest in Overseas MFs/UT, provided that the total exposure of Overseas MFs/UT in Indian securities is not more than 25% of their net assets as per the provisions of SEBI Circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/149 dated November 04, 2024.

The AMC /Trustee reserve the right to temporarily suspend subscriptions /switches/SIPs/STPs etc. into the Scheme if the limits prescribed by SEBI for overseas investments, as below, are exceeded or are expected to exceed, subject to the SEBI Regulations and approvals and the same shall be notified to the investors by display of public notice at various investor service centres of AMC and its website (www.barodabnp-paribasmf.in).

The Fund may employ various measures (as permitted by SEBI/RBI from time to time), including but not restricted to currency hedging (such as currency futures and such others currency hedging tools as permitted by SEBI/RBI from time to time), to manage foreign exchange movements arising out of such investments. Service of custodian and other intermediaries/advisors of international repute will be used for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would include, besides the investments management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs and overseas regulatory costs.

Offshore investments will be made subject to any/ all approvals/conditions thereof as may be stipulated by SEBI/ RBI/ other regulatory authorities. Boards of asset management companies (AMCs) and Trustees shall exercise due diligence in making investment decisions as required under Regulation 25(2). They shall make a detailed analysis of risks and returns of investment in foreign securities and how these investments would be in the interest of investors. Investment must be made in liquid actively traded securities/instruments and such other types of securities/instruments as may be permitted by SEBI from time to time. Boards of AMCs and trustees may prescribe detailed parameters for making such investments, which may include identification of countries, country rating, country limits, etc. They shall satisfy themselves that the AMC has experienced key personnel, research facilities and infrastructure for making such investments. Other specialised agencies and service providers associated with such investments e.g. custodian, bank, advisors, etc. should also have adequate expertise and infrastructure facilities. Their past track record of performance and regulatory compliance record, if they are registered with foreign regulators, may also be considered. Necessary agreements may be entered into with them as considered necessary. All investment decisions shall be recorded in accordance with para 12.23 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. Such investments shall be disclosed while disclosing half-yearly portfolios in the prescribed format by making a separate heading "Foreign Securities/overseas ETFs." Scheme-wise percentage of investments made in such securities shall be disclosed while publishing half-yearly results in the prescribed format, as a footnote.

It is the investment manager's belief that overseas securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks.

BBNPPAQFOF: The Scheme shall not invest in foreign securitised debts, although the Underlying Fund may have such investments.

Position of debt & money market in India

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The G-Sec market is the oldest and the largest component of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Sec market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- ◆ Overnight Call
- ◆ Tri-party repo on Government Securities or treasury bills (TREPS).
- ◆ Repo/Reverse Repo Agreement
- ◆ Treasury Bills
- ◆ Government securities
- ◆ Commercial Paper
- ◆ Certificate of Deposit

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as money market instruments, PSU / DFI / corporate paper with a residual maturity of < 1 year, are actively traded and offer a viable investment option. The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

Instruments	Current yield as on October 31, 2025 (% per annum)
TREPS	5.50-5.75
3M T-Bill	5.40-5.50
1 Y T-Bill	5.55-5.60
10 Y G Sec	6.50-6.60
3M PSU Bank CD	5.95-6.05
3M NBFC CP	6.40-6.50
1 Y PSU Bank CD	6.40-6.50
1 Y NBFC CP	6.75-6.85
1Y Manufacturing Company CP	6.50-6.60
5 Y AAA Institutional Bond	6.80-6.85
10 Y AAA Institutional Bond	7.10-7.15

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro-economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

Investment Approach / Process	Investments are made in stocks of companies that generate >20% of their underlying revenue through products and services that address a number of long term macro-economic themes around the water theme: growing populations, rising living standards, increasing urbanisation, rising consumption, aging in developed countries' water infrastructure, more stringent water quality regulations, and depletion of clean water supplies. Stocks identified by a research intensive, bottom up, stock selection process with integrated ESG analysis, complemented by a "top down macro and themes overlay".

Based on the para 16.6 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, to comply with the requirements of RTA inter-operable Platform for enhancing investors' experience in Mutual Fund transactions / service requests, the Qualified RTAs (QRTA's), Kfin Technologies Limited (Kfintech) and Computer Age Management Services Limited (CAMS) have jointly developed MFCentral - A digital platform for Mutual Fund investors.

MFCentral is created with an intent to be a one stop portal / mobile app for all Mutual fund investments and service-related needs that significantly reduces the need for submission of physical documents by enabling various digital / phygital services to Mutual fund investors across fund houses subject to applicable Terms & Conditions of the MFCentral platform. MFCentral will be enabling various features and services in a phased manner. MFCentral may be accessed using link <https://mfcentral.com/> (or its app in future).

With a view to comply with all provisions of the aforesaid circular, AMC/the Fund designates MFCentral as its Official Points of Acceptance of Transactions (OPAT) w.e.f. September 23, 2021.

Any registered user of MFCentral, requiring submission of physical document as per the requirements of MFCentral, may do so at any of the designated Investor Service centres or collection centres of Kfintech or CAMS.
