**SCHEME INFORMATION DOCUMENT**

Withdrawal Plan (SWP) post completion of SIP period, thereby aiming for financial freedom. The steps involved are as below:

- Initiate monthly SIP in a selected source scheme which can be a single scheme or a combination of schemes for a tenor of 8, 10, 12 or 15 years. The minimum amount for SIP shall be the minimum monthly SIP instalment amount for the respective schemes.
- On completion of the selected SIP period, the units accumulated through SIP shall be switched out to the selected target scheme. In case the source and target scheme are the same, there would be no switch out. The switch shall take place within T+5 working days or next business day where it is a non-business day (T being last SIP instalment date).
- Post the switch out, SWP has to be activated for an amount as per the below matrix:

Payment Matrix		Illustration	
SIP Tenure	SWP Amount	SIP Amount	SWP Amount
8 Years	1.0 x monthly SIP instalments	10,000	10,000
10 Years	1.5 x monthly SIP instalments	10,000	15,000
12 Years	2.0 x monthly SIP instalments	10,000	20,000
15 Years	3.0 x monthly SIP instalments	10,000	30,000
8 Years	1.0 x monthly SIP instalments	10,000	10,000

Note:

- The investor can decide the SIP amount. The SWP amount will vary based on SIP amount and SIP tenure selected by the investor.
- The source and the target scheme can be the same.
- Only monthly frequency is available for SIP & SWP.
- The SWP date would be the same as the SIP date.

The facility is available under the Growth Option of the Regular and Direct Plans of the selected schemes. The source schemes will include selected equity/hybrid/thematic schemes of the Fund and target schemes will be selected hybrid schemes of the Fund as mentioned in the SAI.

• **IDCW SWEEP FACILITY**

IDCW Sweep facility is available under designated schemes of the Fund. IDCW SWEEP is a facility wherein the unit holder(s) of this Scheme ("Source Scheme") can opt to automatically invest the amount distributed under IDCW Sweep (as reduced by the amount of applicable statutory levy) into the eligible "Target Scheme(s)" of the Fund. For more details, kindly refer SAI.

• **SWITCHING OPTIONS:**

On an on-going basis, the Unitholders have the option to switch all or part of their investment from the Scheme to any of the other schemes offered by the Mutual Fund, which is available for investment at that time, subject to applicable Load structure of the respective schemes. Unitholders also have the option of switching into the Scheme from any other schemes or switching between various options of the Scheme.

### Portfolio rebalancing

Portfolio rebalancing in case of deviation from asset allocation under Defensive consideration:

The scheme shall rebalance the portfolio in case of any deviation to the asset allocation for a short term period on defensive considerations as per para 1.14.1.2 (b) of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. Such rebalancing shall be done within 30 days from the date of occurrence of deviation. However, at all times the AMC shall ensure that the portfolio would adhere to the overall investment objective of the scheme.

### Portfolio Rebalancing in case of passive deviation from asset allocation:

In accordance with para 2.9 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, as amended from time to time, the Scheme shall rebalance the portfolio in case of any deviation to the asset allocation mentioned in the Scheme Information Document (SID) due to passive

breaches. In the event of deviation from mandated asset allocation mentioned in the Scheme Information Document (SID) due to passive breaches (occurrence of instances not arising out of omission and commission of AMCs), the portfolio shall be rebalanced within a period of thirty (30) business days.

In case the portfolio of scheme is not rebalanced within the above mandated timelines, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, AMCs shall:

- not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- not to levy exit load, if any, on the investors exiting such scheme(s).

The above list is illustrative and not the exhaustive and may include other fixed income / debt securities as may be available / introduced in the market.

### **C. WHAT ARE THE INVESTMENT STRATEGIES?**

The investment strategy of the Scheme is as follows:

This is an actively managed Scheme. The Scheme will be a diversified equity fund which will invest predominantly in equity and equity related securities of companies domiciled in India or overseas. It will invest predominantly in equity and equity related securities with focus on riding business cycles through dynamic allocation between various sectors and stocks at different stages of business cycles in the economy. Business cycles in an economy are typically characterized by the fluctuations in economic activity measured by various Macro economic factors including but not limited GDP growth, Fiscal deficit, IIP, interest rates, inflation and other macroeconomic variables. A business cycle is basically defined in terms of periods of expansion and contraction. During expansion, an economy experiences an increase in economic activity as evidenced by real GDP growth, industrial production, etc whereas during contraction, the pace of economic activity slows down. The business cycle can be effectively used to position one's investment portfolio.

The business cycle can be a critical determinant of equity sector performance over the intermediate term and the relative performance of equity market sectors typically tends to rotate as the overall economy shifts from one stage of the business cycle to the next, with different sectors assuming performance leadership in different economic phases. The Scheme would aim to deploy the business cycle approach to investing by identifying such economic trends and investing in the sectors and stocks that are likely to outperform at any given stage of business cycle in the economy. At each stage of Economy/Business cycle, different sectors tend to outperform in terms of business performance leading to superior returns on the bourses. The endeavour of the Investment managers is to identify the stage of the economy/business cycle and invest in sectors/stocks which are likely to benefit from the same. Thus, it would combine Top-down view with bottom-up stock selection. The core investment philosophy of GARP (Growth at Reasonable Price) would be followed for stock selection.

## SCHEME INFORMATION DOCUMENT

### Investment Strategy following Business cycle approach:

The key investment thesis in Business cycle Investment strategy is that Broad Macro Economic Factors determine the business cycle and that can be a critical determinant of equity sector performance over the intermediate term. Macro-Economic conditions and the Fiscal/Monetary Policy response by the Government/Central Banks, during an on-going Business Cycle may impact Business Cycle on the basis of conditions prevailing at the time. Such distortions often provide appropriate opportunities.

The business cycle has the following different phases:

- Expansion: Strong demand, Capacity utilisation above normal, Output growth strong, corporate profitability very strong, Strong tax revenues, Risk aversion very low.
- Recession: Demand growth starts to slow down, Capacity utilisation starts to fall, Output growth starts trending lower, tax revenues moderating, risk aversion starts to increase.
- Slump: Demand growth below normal, Capacity utilisation much below normal, Risk aversion very high
- Recovery: Demand growth starts to pick up, credit growth starts to improve, Tax revenues start to pick up.

It has been observed that over period of time, stock returns are largely driven by cyclical factors tied to Macro economic factors and hence corporate earnings. The business cycle can therefore be a critical determinant of equity market returns and the performance of equity sectors.

### Portfolio Construction Approach

The approach will be to study Macro factors which impact sector and to identify at what stage we are in terms of Business cycle and outlook for the same. The investment process will be as follows:

- Top-down approach based on various macro indicators – including but not limited to inflation, GDP growth, IIP (Index of Industrial Production) interest rates, fiscal deficit, etc. to determine status of the identified parameter and how it likely to pan out in coming period.
- Identify Sectors which could be impacted based on the macro situation and study the Business cycle of the sector and potential investment opportunity.
- Identify opportunities across sectors/themes/market caps, based on prevailing business cycle and assess the risk. Risk is evaluated to ensure that not a single macro parameter dominates the portfolio construct, sector concentration, stock concentration and Market Capitalization.
- Stocks/companies would be selected based on various fundamental factors, including financial parameters. Investment Manager decides the investment theme basis prevailing market cycle. Research analyst identifies opportunities in that sector.
- Periodic/event-based assessment and review of the macro-economic environment and subsequent investment approach to validate the original investment hypothesis.

### How is business cycle investing different?

Key differential will be the investment approach. In case of Business Cycle, the sector call will be determined by top-down approach. In other diversified schemes, sector call is more determined by stock selections.

The business cycle approach to sector investing studies economic cycle - in which phase is the cycle. This forms the framework for allocating to sectors according to the likelihood that they will outperform or underperform. For example, the early-cycle phase typically is characterized by lower interest rates and a sharp economic recovery, which tends to lead to outperformance by the consumer discretionary and industrials sectors. Typically, this leads to outperformance among equity in these sectors.

If we are in a downcycle for any sector, it is very likely that the valuation parameters would look expensive due to the depressed financial performance. However, if the cycle is expected to turn based on the macroeconomic scenario or Fiscal/Monetary Policy response by the Government/ Central Banks and financial performance is expected to improve, then stocks can outperform.

### Parameters For Identifying Business Cycles

Some of the key parameter, though not limited to would be:

## SCHEME INFORMATION DOCUMENT

- **Macroeconomic parameters** - Current Account Deficit, IIP Growth, Fiscal Deficit, Interest Rates, Credit Growth, Inflation
- **Investment Indicators:** Capex Investments, New Projects cleared
- **Business & Consumer Confidence:** Purchasing Manager Index, Business Confidence Index, Sales of consumer discretionary products
- **Global Factors:** Developed markets growth outlook, DM Policy Outlook, China Policy Stance, Monetary Policy Stance by Central Bankers

The Business cycle may also throw some unique Global opportunities. This may be due to either different countries have different business cycle, valuations gap, sub optimal opportunities in India or due to lack of listed companies in India. Thus, overseas securities may offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued provided they are considered appropriate in terms of the overall investment objectives of the Scheme. The Scheme may then, invest in securities listed in overseas markets in accordance with the investment objective and in accordance with any guidelines issued by SEBI from time to time. Offshore/overseas investments will be made subject to any/all approvals or conditions stipulated under the Regulations or by RBI.

Investments in Foreign Securities shall be subject to the investment restrictions specified by SEBI/RBI from time to time. Relevant risk will be factored before making any investment in Foreign Securities.

The Mutual Fund may, where necessary, appoint dedicated fund managers and other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs and overseas regulatory expense.

The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI, with a view to protect the value of the portfolio and enhance Unit holders' interest. The Scheme may invest in equity derivatives instruments to the extent permitted under and in accordance with the applicable Regulations, including for the purposes of hedging, portfolio balancing and optimizing returns. Hedging does not mean maximization of returns but only attempts to reduce systemic or market risk that may be inherent in the investment.

The Scheme can also invest in other equity and equity related instruments not defined by the Business cycle theme.

The Scheme may also invest in foreign securities, depository receipts including American Depository Receipts (ADRs) and Global Depository Receipts (GDRs). The scheme may also invest in Units issued by REITs & InvITs, preference shares and other permissible asset classes after doing due research on the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

### Risk control measures

Investments made by the Scheme would be in accordance with the investment objective of the Scheme and the provisions of the SEBI (MF) Regulations. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. While allocating and choosing securities, the Investment Manager will aim to diversify by gaining broad exposure to different industries and companies in order to reduce risk.

### Portfolio turnover

The Scheme is an open-ended scheme and as such, there would a number of subscriptions and redemptions on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. Nonetheless, the AMC will take advantage of opportunities that present themselves from time to time in the securities market.

### D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the scheme will be benchmarked to the performance of **BSE 500 TRI**.

Pursuant to Para 1.9 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 ('SEBI Circular on Benchmark'), uniform structure for benchmarking of schemes has been prescribed by SEBI. These uniform benchmarking of schemes indices are termed as first tier benchmark which reflects the category of the scheme.

In furtherance of the SEBI circular on Benchmark, Association of Mutual Funds in India (AMFI), has published the list of benchmarks to be used as Tier 1 benchmarks for mutual fund schemes and vide its email dated March 31, 2022, has published the list of benchmarks to be used as Tier 1 benchmarks for open ended debt schemes as per Potential Risk Class (PRC) Matrix and the list for the same has also been published on the AMFI website at <https://www.amfiindia.com/research-information/other-data> and <https://www.amfiindia.com/importantupdates>.

The aforesaid Benchmark is the Tier 1 benchmark Index basis the category of the scheme and in line with the list of benchmarks as notified by AMFI.

Performance comparisons for the Scheme will be made vis-à-vis the aforesaid Benchmark. However, the Scheme's performance may not be strictly comparable with the performance of the Benchmark due to the inherent differences in the construction of the portfolios. The Trustee / AMC reserve the right to change the Benchmark for evaluation of performance of the Scheme from time to time in conformity with the investment objectives and appropriateness of the Benchmark subject to the SEBI Regulations, and other prevailing guidelines, if any.

### Part III- OTHER DETAILS

#### A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit of the options of the Plan(s) under the Scheme will be computed by dividing the net assets of the options of the Plan(s) under the Scheme by the number of Units outstanding under the options of the Plan(s) under the Scheme on the valuation date. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time. In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail.

The NAV of the units under each option of the Plan(s) under the Scheme shall be calculated as shown below:

$$\text{NAV per Unit (Rs.)} = \frac{\text{Market or Fair Value of the Plan's Investments} + \text{Current Assets} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under each option of the Plan(s) under the Scheme}}$$

- (a) \*expenses not exceeding 0.30 per cent of daily net assets, based on inflows only from retail investors#, if the new inflows from beyond top 30 cities are at least –
  - (i) 30 per cent of gross new inflows in the Scheme, or;
  - (ii) 15 per cent of the average assets under management (year to date) of the Scheme, whichever is higher:

# As per para 10.1.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from 'retail investor'.

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the Scheme shall be charged on proportionate basis.

The top 30 cities shall mean top 30 cities based on Association of Mutual Funds in India (AMFI) data on 'AUM by Geography – Consolidated Data for Mutual Fund Industry' as at the end of the previous financial year.

Provided further that expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from such cities.

The said additional expenses on account of inflows from beyond top 30 cities so charged shall be clawed back in the respective schemes, in case the said inflow is redeemed within a period of 1 year from the date of investment.

- (b) additional expenses under Regulation 52(6A) (c) at 0.05% of daily net assets of the scheme \*\*;

\*\* In accordance with para 10.1.7 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, AMC shall not charge any additional expense of upto 0.05% as per Regulation 52(6A) (c), if exit load is not being levied under the Scheme.

## SCHEME INFORMATION DOCUMENT

- (c) The AMC may charge GST on investment management and advisory service fees ('AMC Fees') which shall be borne by the Scheme in addition to the total expense ratio mentioned in table above.
- (d) @Brokerage and transaction costs which are incurred for the purpose of execution of trade and is included in the cost of investment shall not exceed 0.12 per cent in case of cash market transactions and 0.05 per cent in case of derivatives transactions.  
Any payment towards brokerage and transaction costs, over and above the said 12bps and 5bps for cash market and derivatives transactions respectively, shall be charged to the Scheme within the total recurring expenses limit specified under Regulation 52 of SEBI Mutual Fund Regulations, 1996. Any expenditure in excess of the said limit will be borne by the AMC/Trustees/Sponsors.
- (e) The total expenses charged to the scheme shall be the maximum limit of TER as prescribed under regulation 52.

Investors should note that the total recurring expenses of the scheme excluding issue or redemption expenses, whether initially borne by the Mutual Fund or by the AMC, but including the investment management and advisory fee, shall not exceed the limits as prescribed under Regulation 52 of the SEBI Regulations. The AMC will charge the Scheme such actual expenses incurred, subject to the statutory limit prescribed in the Regulations.

### #Note:

Pursuant to AMFI email dated March 02, 2023, with respect to keeping the B-30 incentive structure in abeyance, the AMC will not charge additional 30 bps on new inflows garnered from retail investors from B-30 cities till further notice. The total expenses of the Scheme including the Investment Management and Advisory Fee shall not exceed the limits stated in Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

For the actual current expenses being charged, the investor should refer to the website of the mutual fund at the following link <<https://www.barodabnp-paribas-mf.in/downloads/total-expense-ratio-of-mutual-fund-schemes>>. Any change proposed to the current expense ratio will be updated on the website and communicated to the investors via e-mail or SMS at least three working days prior to the effective date of the change (in accordance with para 10.1.8 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 ). Further, the disclosure of the expense ratio on a daily basis shall also be made on the website of AMFI viz. [www.amfiindia.com](http://www.amfiindia.com).

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per SEBI (Mutual Funds) Regulations, 1996. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

### An Illustration of impact of expense ratio on Scheme's returns:

If an investor A invests in a regular plan of a Scheme with an expense of 2% p.a. and an investor B invests in Direct Plan of the same scheme with an expense of 1% p.a. Assuming the gross return of this fund is 10% for that given year, investor A will make a return of 8% (post expense) for that year, whereas investor B will make 9% return for same period.

Also, please take a look at below illustration which shows impact of different expense ratio assumed on initial investment of Rs. 10,000 invested over period of 10 years with an average annualized gain of 10% p.a.

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses (@15%pa)	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1,300	1350
% Returns on Investment (Post Expenses)	13%	13.5%

## SCHEME INFORMATION DOCUMENT

### Note:

- The purpose of the above illustration is to purely explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments, without considering any impact due to taxation.
- Investors are requested to note that NAV declaration made by AMC/Mutual Fund on every business day is net of expenses, and consequently scheme performance disclosures made by Mutual Fund, which are based on NAV values of the scheme are also net of expenses but does not consider impact of load and taxes, if any.

### D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure please refer to the website of the AMC ([www.barodabnpparibasmf.in](http://www.barodabnpparibasmf.in)) or call on the number, 1800-2670-189 or may call your distributor.

TYPE OF LOAD	LOAD CHARGEABLE (% of NAV)
Exit Load	<ul style="list-style-type: none"> <li>• Redemption / switch out of units upto 10% of the units allotted before 1 year from the date of allotment - NIL</li> <li>• If units are redeemed over and above the 10% limit, before 1 year from the date of allotment - 1% of the applicable Net Asset Value (NAV)</li> <li>• For redemption / switch out of units after 1 year from the date of allotment - NIL</li> </ul>

For any change in load structure, the AMC will issue an addendum and display it on the website/ISCs.

## SECTION II

### I. INTRODUCTION

#### A. DEFINITION/INTERPRETATION

Investors may refer to <https://www.barodabnpparibasmf.in/assets/pdf/Definitions.pdf> for definitions/interpretations.

#### B. RISK FACTORS

##### **Scheme specific risk Factors**

##### **- Market Risk:**

All mutual funds and securities investments are subject to market risk and there can be no assurance / guarantee that the scheme's objectives will be achieved. The securities that the scheme invests in would be exposed to price changes on a day-to-day basis. These price changes may occur due to instrument-specific factors as well as general macroeconomic conditions.

Markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market or economic developments. The scheme may be subject to price volatility due to factors such as interest sensitivity, market perception, and creditworthiness of issuer and market liquidity.

Different parts of the market can react differently to these developments. The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole.

##### **- Concentration Risk**

The scheme may pursue only a limited degree of diversification. It may invest a greater proportion of assets in the securities of very few issuers (within the limits permitted by regulation) or be concentrated on a few market sectors. This could have implications on the performance of the scheme. The scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the scheme.

##### **Scheme specific risk factors:**

##### **Risks associated with investing in equity and equity related instruments:**

Investments in equity and equity related instruments are volatile and prone to price fluctuations on a daily basis. The impact of fluctuations is likely to be accentuated for short-term investments. The risk that the performance of one or more companies declines or stagnates may have a negative impact on the performance of the Scheme as a whole at any given time. Investments in equity and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risks

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges.

In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the

Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.

##### **Risk Factors associated with Investments in Derivatives**

The Scheme(s) may use various derivative instruments and techniques, permitted within SEBI (Mutual Funds) Regulations, 1996 from time to time including but not limited to portfolio balancing and hedging purpose, which may increase the volatility of Scheme's performance. Usage of derivatives will expose the Scheme(s) to certain risks inherent to such derivatives.

## **SCHEME INFORMATION DOCUMENT**

Derivative products are specialized instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. There is a possibility that a loss may be sustained by the Scheme(s) as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, interest rates and indices. Even a small price movement in the underlying instrument could have a large impact on their value. This could increase the volatility of the Scheme's performance.

In case of hedge, it is possible that derivative positions may not be perfectly in line with the underlying assets they are hedging. As a consequence the derivative cannot be expected to perfectly hedge the risk of the underlying assets. This also increases the volatility of the Scheme's performance. Some of the risks inherent to derivatives investments include:

1. **Price Risk:** Despite the risk mitigation provided by various derivative instruments, there remains an inherent price risk which may result in losses exceeding actual underlying.
2. **Default Risk:** This is the risk that losses will be incurred due to default by counter party. This is also known as credit risk or counterparty risk.
3. **Basis Risk:** This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged for e.g. mismatch between the maturity date of the futures and the actual selling date of the asset.
4. **Limitations on upside:** Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
5. **Liquidity risk:** This risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

### **Risk factors associated with Short Selling**

The Scheme may enter into short selling transactions, subject to SEBI and RBI Regulations. Short-selling is the sale of shares which are not owned by the seller at the time of trade. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock he shorted and returns the stock to close out the loan. If the price of the stock corrects, Short seller can buy the stock back for less than he received for selling it and earn profit (the difference between higher short sale price and the lower purchase price). If the price of stock appreciates, short selling results in loss. Thus, Short positions carry the risk of losing money and these losses may grow theoretically unlimited if the price increases without limit and shall result into major losses in the portfolio. At times, the participants may not be able to cover their short positions, if the price increases substantially. If numbers of short sellers try to cover their position simultaneously, it may lead to disorderly trading in the stock and thereby can briskly escalate the price even further making it difficult or impossible to liquidate short position quickly at reasonable prices. In addition, short selling also carries the risk of inability to borrow the security by the participants thereby requiring the participants to purchase the securities sold short to cover the position even at unreasonable prices

### **Risks associated with Securities Lending**

Securities Lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in a possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return

## **SCHEME INFORMATION DOCUMENT**

the securities deposited by the lender and the possible loss of corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

### **Risk factors specific to investments in foreign securities:**

The Scheme may invest in Foreign Securities including overseas debt / equities / ADRs / GDRs with the approval of RBI/SEBI, subject to such guidelines as may be issued by RBI/SEBI. The net assets, distributions and income of the Scheme may be affected adversely by fluctuations in the value of certain foreign currencies relative to the Indian Rupee to the extent of investments in these securities. Repatriation of such investment may also be affected by changes in the regulatory and political environments. Market risks can be greater with respect to political instability, lack of complete or reliable information, market irregularities or high taxation. The Scheme's NAV may also be affected by a fluctuation in the general and specific level of interest rates internationally, or the change in the credit profiles of the issuers. The liquidation of securities where investments will be made by the schemes shall be subject to the liquidity / settlement issues of the country of investment / settlement. Non-business days in country of investment / settlement may impact the liquidity of the scheme investments

The Scheme may, where necessary, appoint advisor(s) for providing advisory services for such investments. The appointment of such advisor(s) shall be in accordance with the applicable requirements of SEBI. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, transaction costs and overseas regulatory costs, the fees of appointed advisor(s). The fees related to these services would be borne by the AMC and would not be charged to the Scheme.

### **Risk factors associated with investments in REITs and InvITs**

- **Price Risk / Market Risk:** REITs and InvITs Investments are volatile and subject to price fluctuations on a daily basis owing to factors impacting the underlying assets. The valuation of the REIT/InvIT units may fluctuate based on economic conditions, fluctuations in markets (eg. real estate) in which the REIT/InvIT operates and the resulting impact on the value of the portfolio of assets, regulatory changes, force majeure events etc. REITs & InvITs may have volatile cash flows. As an indirect shareholder of portfolio assets, unit holders rights are subordinated to the rights of creditors, debt holders and other parties specified under Indian law in the event of insolvency or liquidation of any of the portfolio assets
- **Liquidity Risk:** As the liquidity of the investments made by the scheme(s) could, at times, be restricted by trading volumes, settlement periods, dissolution of the trust, potential delisting of units on the exchange etc, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk. Further, there is no assurance that an active secondary market will develop or be maintained. Hence there would be time when trading in the units could be infrequent. The subsequent valuation of illiquid units may reflect a discount from the market price of comparable securities for which a liquid market exists
- **Risk of lower than expected distributions:** The distributions by the REIT or InvIT will be based on the net cash flows available for distribution. The amount of cash available for distribution principally depends upon the amount of cash that the REIT/InvIT receives as dividends or the interest and principal payments from portfolio assets. The cash flows generated by portfolio assets from operations may fluctuate based on, among other things:
  - success and economic viability of tenants and off-takers
  - economic cycles and risks inherent in the business which may negatively impact valuations, returns and profitability of portfolio assets
  - force majeure events related such as earthquakes, floods etc. rendering the portfolio assets inoperable
  - debt service requirements and other liabilities of the portfolio assets
  - fluctuations in the working capital needs of the portfolio assets
  - ability of portfolio assets to borrow funds and access capital markets
  - changes in applicable laws and regulations, which may restrict the payment of dividends by portfolio assets
  - amount and timing of capital expenditures on portfolio assets
  - insurance policies may not provide adequate protection against various risks associated with operations of the REIT/InvIT such as fire, natural disasters, accidents.
- **Interest Rate Risk** - Generally, when interest rates rise, prices of units fall and when interest rates drop, such prices increase

## SCHEME INFORMATION DOCUMENT

- **Reinvestment Risk:** Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns.
- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. REITs & InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre scheduled.
- **Regulatory/Legal Risk:** REITs and InvITs being new asset classes, rights of unit holders such as right to information etc may differ from existing capital market asset classes under Indian Law.

The above are some of the common risks associated with investments in REITs & InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

### Risks associated with repo transactions in corporate debt

The Scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However, in repo transactions, the collateral may be sold, and a loss is realized only if the sale price is less than the repo amount. The risk is further mitigated through over-collateralization (the value of the collateral being more than the repo amount).

### Risks associated with segregated portfolio:

1. Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
2. Security comprises of segregated portfolio may not realise any value.
3. Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.
4. Trading in the units of segregated portfolio on the Exchange may be halted because of market conditions, including any halt in the operations of Depository Participants or for reasons that in view of the Exchange Authorities or SEBI, trading in the units is suspended and / or restricted. In addition, trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange rules of 'circuit filter'. There can be no assurance that the requirements of Stock Exchange necessary to maintain the listing of units of scheme will continue to be met or will remain unchanged.

In addition to above and to the extent of the corpus of the Scheme investments in certain securities, the Scheme shall be subject to various risk factors including, but not limited to, risks associated with: investments in Fixed Income Securities such as Credit and Counterparty risk, Liquidity risk, Market risk, Interest Rate risk & Re-investment risk etc., investments in securitised debt and investments in liquid funds. The Scheme shall also be subject to other risks including risk associated with inflation, legal risk, taxation risk, valuation risk, operational risk & risk factors associated with processing of transaction, in case of investors investing in mutual fund units, through Stock Exchange Mechanism as provided in SID.

Different types of securities in which the Scheme would invest as given in the Scheme Information Document/Key Information Memorandum carry different levels and types of risk. The above are some of the common risks associated with investments in various securities.

Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, i.e. before making a decision to invest/redeem Units.

## C. RISK MITIGATION STRATEGIES

### **Risk Mitigation measures for investments in equity / equity related instruments**

- The Scheme aims to maintain a well-diversified equity portfolio comprising stocks across various sectors of the economy. This shall aid in managing concentration risk and sector specific risks.
- The Scheme targets to maintain exposure across different market cap segments - i.e. large, mid-cap and small cap. This shall aid in managing volatility and also improve liquidity.
- The Scheme's will strive to mitigate risk through a judicious mix of Debt and Money Market Instruments and equity/ equity related instruments

## **SCHEME INFORMATION DOCUMENT**

The scheme may utilize derivative instruments for hedging & portfolio balancing purposes. All Interest Rate Swaps will be undertaken with approved counter parties under pre-approved International Swaps and Derivatives Association (ISDA) agreements. The scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI/RBI for the purpose of hedging and portfolio rebalancing. The above risk control measures shall be implemented by the AMC on best effort basis however there can be no guarantee that such measures can completely mitigate the risks involved in Scheme.

### **II. INFORMATION ABOUT THE SCHEME:**

#### **A. WHERE WILL THE SCHEME INVEST**

Subject to the SEBI (Mutual Funds) Regulations, 1996, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

1. Securities created and issued by the Central and State Governments and/or reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and T-Bills).
2. Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and T-Bills).
3. Debt issuances of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee.
4. Corporate debt (of both public and private sector undertakings) and repos in corporate debt securities.
5. Debentures (of both public and private sector undertakings) including convertible, non-convertible and cumulative.
6. Term Deposits of banks (both public and private sector) and development financial institutions.
7. Debt and money market instruments (reverse repo, Tri-Party Repo etc.) permitted by SEBI/RBI or in alternative investment for the call money market as may be provided by RBI to meet the liquidity requirements.
8. Certificate of Deposits (CD).
9. Commercial Paper (CP).
10. Units of mutual fund schemes.
11. Foreign Securities as permitted by RBI / SEBI.
12. Repo and reverse repo in corporate debt securities.
13. Any other security as may be permitted by SEBI / RBI from time to time.

The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals.

The above list is illustrative and not the exhaustive and may include other fixed income / debt securities as may be available / introduced in the market.

#### **Investment in Foreign Securities**

The Scheme may invest in Foreign Securities issued by overseas companies, for the purpose of diversification subject to compliance with the prescribed conditions by SEBI / RBI in this regard. The Mutual Fund may appoint overseas investment advisors and other service providers, to the extent permissible under the Regulations.

The Scheme may, with the approval of SEBI / RBI, wherever applicable, invest in:

- Initial and follow on public offerings for listing at recognized stock exchanges overseas;
- Foreign debt securities in the countries with fully convertible currencies, short term as well as long term debt instruments with rating not below investment grade by accredited/registered credit rating agencies;
- Money market instruments rated not below investment grade;
- Repos in the form of investment, where the counterparty is rated not below investment grade; repos shall not however, involve any borrowing of funds by the Mutual Fund;
- Government securities where the countries are rated not below investment grade;

- Derivatives traded on recognized stock exchanges overseas only for hedging and portfolio balancing with underlying as securities;
- Short term deposits with banks overseas where the issuer is rated not below investment grade;
- Units/securities issued by overseas mutual funds or unit trusts registered with overseas regulators and investing in (a) aforesaid securities, (b) Real Estate Investment Trusts listed on recognized stock exchanges overseas or (b) unlisted overseas securities, not exceeding 10% of its net assets.

As per para 12.19 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024,, and as amended from time-to-time mutual funds can make overseas investments subject to a maximum of US \$ 1 billion at in the aggregate at the Mutual Fund level and upto a maximum of US\$ 300 million in overseas Exchange Traded Funds (ETFs) at the Mutual Fund level or such limits as may be prescribed by SEBI from time to time. Subject to the approval of RBI / SEBI and conditions as may be prescribed by them, the Mutual Fund may open one or more foreign currency accounts abroad either directly, or through the custodian/ sub custodian, to facilitate investments and to enter into/deal in forward currency contracts, currency futures, interest rate futures / swaps, currency options for the purpose of hedging the risks of assets of a portfolio or for its efficient management. However, the use of such instruments shall be as permitted from time to time. All the requirements of the para 12.19 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 and amendments to it if any would be adhered to by the AMC for investment in Foreign Securities. Indian MF schemes can now invest in Overseas MFs/UT, provided that the total exposure of Overseas MFs/UT in Indian securities is not more than 25% of their net assets as per the provisions of SEBI Circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/149 dated November 04, 2024.

Investment in Foreign Securities as may be permitted by Regulations shall be made in accordance with the requirements including appointment of a dedicated Fund Manager as stipulated by SEBI/RBI from time to time.

#### **Investment in other schemes**

The Scheme may, in line with its investment objectives, invest in another scheme under the management of AMC or of any other asset management company. The aggregate inter-scheme investment by the Mutual Fund under all its schemes, and schemes of other mutual funds, other than fund of fund schemes, shall not be more than 5% of the net assets of the Mutual Fund. No fee shall be charged by the AMC on investment in any scheme under the management of AMC or of any other asset management company.

#### **Position of debt & money market in India**

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The G-Sec market is the oldest and the largest component of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Sec market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance

## SCHEME INFORMATION DOCUMENT

companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Overnight Call
- Tri-party repo on Government Securities or treasury bills (TREPS).
- Repo/Reverse Repo Agreement
- Treasury Bills
- Government securities
- Commercial Paper
- Certificate of Deposit

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as money market instruments, PSU / DFI / corporate paper with a residual maturity of < 1 year, are actively traded and offer a viable investment option. The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

Instruments	Current yield as on October 31, 2024 (% per annum)
TREPS	6.10-6.30
3M T-Bill	6.45-6.55
1 Y T-Bill	6.50-6.60
10 Y G Sec	6.80-6.87
3M PSU Bank CD	7.15-7.20
3M NBFC CP	7.45-7.50
1 Y PSU Bank CD	7.50-7.55
1 Y NBFC CP	7.70-7.80
1Y Manufacturing Company CP	7.60-7.70
5 Y AAA Institutional Bond	7.35-7.45
10 Y AAA Institutional Bond	7.20-7.30

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro-economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

### Overseas Debt Market

The nature and number of debt instruments available in international debt markets is very wide. In terms of diverse instruments as well as liquidity, overseas debt markets offer great depth and are extremely well developed. Investment in international debt greatly expands the universe of top quality debt, which is no longer restricted to the limited papers available in the domestic debt market. The higher rated overseas sovereign, quasigovernment and corporate debt offer lower default risk in addition to offering a high degree of liquidity since these are traded across major international markets.

Investments in rated international debt offer multiple benefits of risk reduction, a much wider universe of top quality debt and also potential gains from currency movements. Investments in international markets are most often in U.S. dollars, though the Euro, Pound Sterling and the Yen are also major currencies. Though this market is geographically well-spread across global financial centres, the markets in the U.S., European Union and London offer the most liquidity and depth of instruments.

Besides factors specific to the country / issuer, international bond prices are influenced to a large extent by a number of other factors; chief among these are the international economic outlook, changes in interest rates in major economies, trading volumes in overseas markets, cross currency movements among major currencies, rating changes of countries / corporations and major political changes globally.

## SCHEME INFORMATION DOCUMENT

The overseas securities markets offer new investment and portfolio diversification opportunities by enabling investments in the overseas markets. However, such investments also entail additional risks. Such investment opportunities may be pursued by the Scheme provided they are considered appropriate in terms of the overall investment objectives of the Scheme.

Fund specified by SEBI vide its circular Ref. No. DNPd/Cir-29/2005 dated September 14, 2005, circular Ref. No. DNPd/Cir-30/2006, dated January 20, 2006, circular Ref. No. SEBI / DNPd /Cir-31/2006 dated September 22, 2006 and circular Ref. No. SEBI/HO/MRD /DP/CIR/P/2016/143 dated December 27, 2016 are as follows:

The position limits for Mutual Funds and its schemes shall be under:

(i) Position limit for Mutual Funds in index options contracts:

- The Mutual Fund position limit in all index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
- This limit would be applicable on open positions in all options contracts on a particular underlying index.

(ii) Position limit for Mutual Funds in index futures contracts:

- The Mutual Fund position limit in all index futures contracts on a particular underlying index shall be Rs.500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
- This limit would be applicable on open positions in all futures contracts on a particular underlying index.

(iii) Additional position limit for hedging:

In addition to the position limits at point (i) and (ii) above, Mutual Funds may take exposure in equity index derivatives subject to the following limits:

- Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
- Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

(iv) Position limit for Mutual Funds for stock based derivative contracts:

- The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL)
- The MWPL and client level position limits however, would remain the same as prescribed.

(v) Position limit for each scheme of a Mutual Fund:

The scheme-wise position limit requirements shall be:

- For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of:
  - 1% of the free float market capitalization (in terms of number of shares). Or
  - 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
- This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
- For index based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index

19) Pursuant to the para 12.24 and para 12.25 of SEBI Master Circular dated June 27, 2024 the following norms for investment in derivatives shall be applicable.

1. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
2. The scheme shall not write options or purchase instruments with embedded written options.
3. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
4. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
5. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
  - (i) Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
  - (ii) Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in point 1 above.
  - (iii) Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.

## SCHEME INFORMATION DOCUMENT

- (iv) The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
6. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1 above.
  7. Indian MF schemes can now invest in Overseas MFs/UT, provided that the total exposure of Overseas MFs/UT in Indian securities is not more than 25% of their net assets as per the provisions of SEBI Circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/149 dated November 04, 2024.
  8. As per Para 12.25.5 and 12.25.6 of SEBI Master Circular dated June 27, 2024:
    - (a) The Scheme may enter into plain vanilla Interest Rate Swaps (IRS) for hedging purposes. The value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme.
    - (b) In case of participation in IRS is through over the counter transactions, the counter party has to be an entity recognized as a market maker by RBI and exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme. However, if mutual funds are transacting in IRS through an electronic trading platform offered by the Clearing Corporation of India Ltd. (CCIL) and CCIL is the central counterparty for such transactions guaranteeing settlement, the single counterparty limit of 10% shall not be applicable.
  9. Definition of Exposure in case of Derivative Positions  
Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts.

The scheme shall comply with the requirements stated in para 12.25.11 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 as amended from time to time.

- 20) To reduce interest rate risk, the Scheme may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio shall be as per the formula given below:

$$\frac{(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio})}{(\text{Futures Modified Duration} * \text{Futures price} / \text{PAR})}$$

Imperfect hedging using IRFs shall be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to the following:

- a. Exposure to IRFs is created only for hedging the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.
- b. The Scheme may resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (excluding the hedged portions, if any) and the IRF is at least 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same shall be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of para 12.24.1 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. The correlation shall be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions needs to be complied with:

- (i) The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or
- (ii) The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the Scheme (including one or more securities) and the IRF is at least 0.9.
- c. At no point of time, the net modified duration of part of the portfolio being hedged should be negative.

## SCHEME INFORMATION DOCUMENT

- d. The portion of imperfect hedging in excess of 20% of the net assets of the Scheme shall be considered as creating exposure and shall be included in the computation of gross exposure in terms of para 12.24.1 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

Further, it shall be ensured that the basic characteristics of the Scheme shall not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration and that the interest rate hedging of the portfolio shall be in the interest of the investors.

Explanation: In case of long term bond fund, after hedging the portfolio based on the modified duration of the portfolio, the net modified duration should not be less than the minimum modified duration of the portfolio as required to consider the fund as a long term bond fund.

All investment restrictions shall be applicable at the time of making investment. Apart from the investment restrictions prescribed under the SEBI Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities. The AMC / Trustee may alter the above investment restrictions from time to time to the extent that changes in the SEBI Regulations may allow and as deemed fit in the general interest of the unit holders.

## SCHEME INFORMATION DOCUMENT

### B. TRANSPARENCY/ NAV DISCLOSURE (DETAILS WITH REFERENCE TO INFORMATION GIVEN IN SECTION I):

The AMC shall declare the Net Asset Value (NAV) of the scheme on every Business Day on AMFI's website ([www.amfiindia.com](http://www.amfiindia.com)) by 11.00 p.m. and also on Mutual Fund's website ([www.barodabnpparibasmf.in](http://www.barodabnpparibasmf.in)). The NAV shall be calculated for all Business Days. In case of any delay, the reasons for such delay would also be explained to AMFI in writing and the number of such instances would also be reported to SEBI on a quarterly basis. If the NAVs are not available before the commencement of business hours of the following day due to any reason, the Mutual Fund shall issue a press release providing reasons and explaining when the Mutual Fund would be able to publish the NAVs. The NAV shall also be made available to Unit Holders through SMS upon receiving a specific request in this regard on its website.

The AMC shall disclose portfolio (along with ISIN) on a fortnightly and monthly basis for the Scheme on its website and on the website of AMFI within 5 days of every fortnight and within 10 days from the close of each month. The AMC shall also disclose portfolio (along with ISIN) as on the last day of the half-year (i.e. 31st March and on 30th September) for the Scheme on its website and on the website of AMFI within 10 days from the close of half-year.

The AMC shall within one month from the close of each half year, i.e. 31st March & 30th September, host a copy of its unaudited financial results on its website.

### C. TRANSACTION CHARGES AND STAMP DUTY:

#### Transaction Charges:

Pursuant to para 10.5 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the AMC shall deduct transaction charges as per the following details from the subscription amount in case the investor invests through distributor / agent. The amount so deducted shall be paid to the distributor/agent of the investor (in case they have "opted in") and the balance shall be invested. The distributors shall have an option either to opt in or opt out of levying transaction charge based on type of the product.

1. **First time investor in Mutual Fund (across all the Mutual Funds):** Transaction charge of Rs. 150/- for subscription of Rs. 10,000 and above shall be deducted.
2. **Existing investor in Mutual Funds (across all the Mutual Funds):** Transaction charge of Rs. 100/- per subscription of Rs. 10,000 and above shall be deducted.
3. **For SIP** - The transaction charges in case of investments through SIP shall be deducted only if the total commitment (i.e. amount per SIP installment x No. of installments) amounts to Rs. 10,000/- and above. The transaction charges shall be deducted in 3-4 installments.
4. Transaction charges shall not be deducted for:
  - (i) purchases /subscriptions for an amount less than Rs. 10,000/-
  - (ii) transaction other than purchases/ subscriptions relating to new inflows such as Switch/ Systematic Transfer Plan (STP), Systematic Withdrawal Plan (SWP) etc.
  - (iii) purchases/ subscriptions made directly with the Fund (i.e. not through any distributor/agent).
  - (iv) transactions through stock exchange.
5. The statement of account shall reflect the net investment as gross subscription less transaction charge and the number of units allotted against the net investment.

As per para 10.4.1 (b) of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the upfront commission to distributors shall be paid by the investor directly to the distributor by a separate cheque based on the investor's assessment of various factors including service rendered by the distributor.

#### Levy of Stamp Duty on Applicable Mutual Fund Transactions

Investors/Unit holders are requested to note that that pursuant to Notification No. S.O. 1226(E) and G.S.R 226 (E) dated March 30, 2020 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of The Finance Act, 2019, notified on February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India, **a stamp duty @0.005% of the transaction value** would be levied on applicable mutual fund transactions. Accordingly, pursuant to levy of stamp duty, the number of units allotted on purchase/switch transactions (including reinvestment of amounts under IDCW option i.e. dividend reinvestment) to the Investors/Unit holders would be reduced to that extent.

Computer Age Management Services Limited (CAMS) have jointly developed MFCentral - A digital platform for Mutual Fund investors.

MFCentral is created with an intent to be a one stop portal / mobile app for all Mutual fund investments and service-related needs that significantly reduces the need for submission of physical documents by enabling various digital / phygital services to Mutual fund investors across fund houses subject to applicable Terms & Conditions of the MFCentral platform. MFCentral will be enabling various features and services in a phased manner. MFCentral may be accessed using link <https://mfcentral.com/> (or its app in future).

**With a view to comply with all provisions of the aforesaid circular, AMC/the Fund designates MFCentral as its Official Points of Acceptance of Transactions (OPAT) w.e.f. September 23, 2021.**

Any registered user of MFCentral, requiring submission of physical document as per the requirements of MFCentral, may do so at any of the designated Investor Service centres or collection centres of Kfintech or CAMS.
